Handbook Event Market China Helmut Schwägermann,Peter Mayer,Yi Ding,2015-12-14 China's event market is full of dynamic and exciting developments, innovation, new players and novel ideas, but at the same time of certain shortcomings. This new and huge market is drawing increasing attention from the event industry worldwide. The aim of this handbook is to analyse the Chinese event market, reflect on emerging trends, scrutinise the key players and identify the implications for the education of future professionals in this industry. This handbook is the first of its kind on the Chinese event market written in English. It is a collection of 27articles written by 39 authors from China, Germany, Malaysia, South Africa, the United Kingdom and the United States. The contributions embrace a mix of theoretical and practical reflections, written by academics/lecturers and practitioners alike. The focus lies on business events, such as trade fairs, conventions and corporate events. Some very specifically describe a certain trend or development; others focus on overall trends. The handbook is divided into four chapters. Following an introductory chapter on the event market, the second chapter focuses on the event market in China from a global perspective. The third chapter reflects on management aspects in China's event industry. The fourth and final chapter addresses the issue of educating professionals for the event industry.

STEM Learning Mesut Duran,Margret Höft,Brahim Medjahed,Daniel B. Lawson,Elsayed A. Orady,2015-11-06 This book reports the results of a three-year research program funded by the National Science Foundation which targeted students and teachers from four Detroit high schools in order for them to learn, experience, and use IT within the context of STEM (IT/STEM), and explore 21st century career and educational pathways. The book discusses the accomplishment of these goals through the creation of a Community of Designers-- an environment in which high school students and teachers, undergraduate/graduate student assistants, and STEM area faculty and industry experts worked together as a cohesive team. The program created four project-based design teams, one for each STEM area. Each team had access to two year-round IT/STEM enrichment experiences to create high-quality learning projects, strategies, and curriculum models. These strategies were applied in after school, weekend, and summer settings through hands-on, inquiry-based activities with a strong emphasis on non-traditional approaches to learning and understanding. The book represents the first comprehensive description and analysis of the research program and suggests a plan for future development and refinement.

Trade Shows From One Country To The Next Larry Kulchawik,2015-04-17 Shows from One Country to the Next is a guidebook to help recalculate your thinking when marketing in multiple countries. “Trade Shows from One Country to the Next” delves into international marketing differences, with a focus specifically on global trade shows. Rather than concentrate on details about marketing, this book focuses on the needed adjustments that need be made, physically and culturally, when presenting your products and services at an international trade show. Although dedicated to trade show design and regulations, much of the information in this book speaks to effective communication skills that are required when spending a week or less marketing your services abroad. This book will not only appeal to exhibit managers, show organizers, venues and exhibit suppliers, but to those who market anything outside of their country of origin. Effective communication is the key! There is no right way, there is no wrong way, there is only a different way! Understand and respect what is different, and you are on your way to success with international marketing. Larry Kulchawik has served in the trade marketing industry for 45 years. As the first American president of IFES (International Federation of Exposition Services) he has met trade show supplier experts from around the world who have shared their opinions about achieving trade show marketing success in their countries.
