*Strike it Rich with Silver in Coin Rolls* David J. Conway, 2012-08-14 The Hunt is On! You see them in cash registers and in bank tellers' trays. Rolls of coins - pennies, nickels, dimes and quarters. But what you may not realize is that far more than the face value of the coins may be hidden in those rolls. Real silver coins may be mixed in with the modern-day clad nickels, dimes and quarters. Real copper pennies may be mixed in with the copper-plated zinc cents made today. And there's always the chance that a rare dated coin is among the coins stacked neatly in the paper coin roll. Hunting rolls of coins for silver and copper coins and rare-dated coins is a fun way to get started collecting coins. And the rewards can be great. Author David Conway gives you tips for finding those elusive precious metal coins, dealing with bank personnel and handling your coin finds. So get ready to grab a few rolls of coins and let the hunt begin!

The Construction of Value in the Ancient World John K. Papadopoulos, Gary Urton, 2012-12-31 Recipient of the Jo Anne Stolaroff Cotsen Prize  
Scholars from Aristotle to Marx and beyond have been fascinated by the question of what constitutes value. The Construction of Value in the Ancient World makes a significant contribution to this ongoing inquiry, bringing together in one comprehensive volume the perspectives of leading anthropologists, archaeologists, historians, linguists, philologists, and sociologists on how value was created, defined, and expressed in a number of ancient societies around the world. Based on the basic premise that value is a social construct defined by the cultural context in which it is situated, the volume explores four overarching but closely interrelated themes: place value, body value, object value, and number value. The questions raised and addressed are of central importance to archaeologists studying ancient civilizations: How can we understand the value that might have been accorded to materials, objects, people, places, and patterns of action by those who produced or used the things that compose the human material record? Taken as a whole, the contributions to this volume demonstrate how the concept of value lies at the intersection of individual and collective tastes, desires, sentiments, and attitudes that inform the ways people select, or give priority to, one thing over another.
