Blind Watchers of the Sky Edward W. Kolb,Rocky Kolb,1999 How do we know that the earth travels around the sun, the universe is billions of years old, and stars are trillions of miles away? Rocky Kolb tells the fascinating story of the people and ideas that have brought us such knowledge of our planet and the universe, giving realistic portraits of astronomers like Tycho, Kepler, Galileo, Herschel and Hubble. Beginning in 1572 with Tycho's discovery that the heavens can change and ending with the Big Bang of the 20th Century, this is a hugely entertaining and witty account of the quest to discover the universe.

Beautiful Imperialist David Shambaugh,1993-05-23 From President Nixon's historic visit to China in 1972 to the aftermath of the Tiananmen tragedy, this book examines the changing perceptions of the United States articulated by China's America Watchers, whose occupation is to interpret the beautiful imperialist for China's elite and public. While other studies have looked at the behavioral history of U.S.-China relations, this is the first to probe the perceptual dimension.

The Southern Wildlife Watcher Rob Simbeck,2020-08-28 The Southern Wildlife Watcher is a colorful look at thirty-six common and not-so-common animals found in the southeastern United States—from the hummingbird to the bald eagle and from the bullfrog to the bobcat. Rob Simbeck, one of the Southeast's most widely read naturalists, combines a poet's voice with a journalist's rigor in offering readers an intimate introduction to the creatures around us. Through delightful storytelling each vignette offers accessible information supported by quotes from noted naturalists and biologists. Simbeck covers habitat, diet, mating and reproduction, environmental challenges, and even folklore in outlining the lives of insects and other invertebrates, birds, mammals, reptiles, amphibians, crustaceans, and fish. The Southern Wildlife Watcher is a refresher course and handbook for veteran nature lovers, an introduction for young readers, and fireplace or bedtime reading for those wanting to reflect on nature's bounty. A foreword is provided by Jim Casada, the author or editor of more than forty books and some five thousand magazine articles. He serves as editor at large for Sporting Classics magazine.

The Watchers (Covert Missions Book #1) Mark Andrew Olsen,2008-04-01 Just below the surface among the family of God lives another family tree--one traced in spirit, invisible and ageless, known as the Watchers. For two thousand years they've seen beyond the veil separating this world from the next, passing on their gift through a lineage mostly overlooked. Throughout history they've scouted the borders of the supernatural frontier, but now their survival hangs by a thread. And their fate lies in the hands of a young woman, her would-be killer, and a mystery they must solve. . . . Congratulations. You just reached my own little corner of cyberspace. Who am I? Abby Sherman, that's who. Who are you? And why are you checking me out? Drop me a few pixels, and let's find out!

With that innocent invitation, Abby Sherman unwittingly steps in the crosshairs of history, and thus begins her harrowing tale--taking her from ocean-front Malibu to the streets of London, the jungles in West Africa, the Temple Mount, Jerusalem, and to the very gates of heaven itself! A sneak preview of eternity becomes her one-way ticket to danger--and discovery. . . . Two lives collide in a globe-circling adventure involving both peril and discovery: Abby, a young woman whose visions of heaven turn her into a Web-celebrity; and Dylan, a troubled young man sent by an ancient foe to silence her. From California beachfronts to Nigerian rain forests to Jerusalem and back again, *The Watchers* is high-octane blends of action, mystery, and spiritual battle spanning centuries. A woman's awe-inspiring vision launches her on a quest through distant lands and ancient history, face-to-face with eternity and into the arms of a family line on the brink of annihilation . . . A man who is hired to exterminate her discovers the folly of blind loyalty, then learns how to wage war in a realm he never believed had existed . . . An extraordinary saga of the unseen war against evil, the reality of the supernatural, and the transforming power of forgiveness.

Morning in America Gil Troy, 2005 Chronicles the political events of the 1980s, offering a year-by-year account of the economic and cultural changes that took place during Ronald Reagan's two terms in the White House.

The Second Life Herald Peter Ludlow, Mark Wallace, 2007 When a virtual journalist for a virtual newspaper reporting on the digital world of an online game lands on the real-world front page of the New York Times, it just might signal the dawn of a new era. Virtual journalist Peter Ludlow was banned from *The Sims Online* for being a bit too good at his job--for reporting in his virtual tabloid *The Alphaville Herald* on the cyber-brothels, crimes, and strong-arm tactics that had become rife in the game--and when the Times, the BBC, CNN, and other media outlets covered the story, users all over the Internet called the banning censorship. Seeking a new virtual home, Ludlow moved the Herald to another virtual world--the powerful online environment of *Second Life*--just as it was about to explode onto the international mediascape and usher in the next iteration of the Internet. In *The Second Life Herald*, Ludlow and his colleague Mark Wallace take us behind the scenes of the Herald as they report on the emergence of a fascinating universe of virtual spaces that will become the next generation of the World Wide Web: a 3-D environment that provides richer, more expressive interactions than the Web we know today. In 1992, science fiction writer Neal Stephenson imagined the Metaverse, a virtual space that we would enter via the Internet and in which we would conduct important parts of our daily lives. According to Ludlow and Wallace, that future is coming sooner than we may think. They chronicle its chaotic, exhilarating, frightening birth, including the issue that the mainstream media often ignore: conflicts across the client-server divide over who should write the laws governing virtual worlds.
