Lizi Boyd

*Flashlight* Lizi Boyd, 2014-08-12 Inside the tent it's cozy, but what is going on outside? Is it dark? Is it scary? Not if you have your trusty flashlight! A charming story told solely through images: Through neatly drawn illustrations and a spare yet dramatic color palette, artist Lizi Boyd offers an enchanting exploration of night, nature, and art with *Flashlight*. Both lyrical and humorous, this visual poem—like the flashlight beam itself—reveals there is magic in the darkness. We just have to look for it. • A wordless storybook with stunning visuals that aims to lighten the fear of the dark and the noises that come with it • Book inspires the imagination and creativity in young minds • Lizi Boyd is the author and illustrator of many children's books, including *Inside Outside* and *Flashlight*, and also creates papers, ribbons, cards, and other works of delight *Flashlight* allows readers to experience the wonder and excitement of nighttime exploration in the woods and wordlessly entices readers to explore the hidden nature outside their own homes. —The Busy Librarian • Appeals to readers of all ages with the calming, yet adventurous tone • Books for kids ages 5-6 • Children's picture books for preschool through first grade

**Hope** Corrine Averiss, Sébastien Pelon, 2019-08-20 Hope is keeping a light on, however dark things seem. Comet is Finn's dog, and his very best friend. They do everything together. But one day Comet won't get out of his basket - not even for his very favorite things! The vet tells Finn that Comet needs to stay in overnight for an operation.

That evening, Finn sits in his den feeling very alone. Dad tells him to keep on hoping. At night, as Finn sleeps, thousand of little lights appear in the sky, each one a hope from a different person in the world. Emotional, funny, and uplifting, this beautiful picture book is a pure delight from start to finish. A wonderful story that shows children not to give up hope when times are uncertain.

*Flashlight Fighting* Phil Elmore, 2006-04-01 A simple 6-inch flashlight is an extremely potent self-defense weapon if wielded properly and is among the few useful items one may carry that has yet to be legislated into liability. Guns are strictly controlled in some areas; knives are subject to as many if not more laws, some of them so vague that they defy interpretation. Collapsible batons, billy clubs, mace and pepper sprays are often illegal, but few, if any, regulations concern the possession of the common pocket torch. About now you're probably thinking that you're in deep trouble if the only weapon you've got is a battery-powered flashlight, but anyone who knows how to use a palm stick knows just how effective even a short length of rigid material can be. Thrust into the body's soft targets, joints and other vital areas, it can debilitate and even kill an attacker.

**Make Your Own LED Flashlight** Julia Garstecki, Stephanie Derkovitz, 2020 Teaches readers how to make their very own LED flashlights through simple supply lists and clear, step-by-step instructions and images--

**Eye Care in Developing Nations, Fourth Edition**

Larry Schwab, 2007-07-31 The number of the millions of blind in the world continues to grow, causing needless social and economic deprivation. Most of these blind can be cured, and much of the remainder prevented if all people had access to the simple and effective interventions that already exist. In this newly revised fourth edition of 'Eye Care in Developing Nations', the author describes in practical detail, what these interventions consist of and how they can be readily implemented. This is the handyman's guide to delivering eye services to low-resource populations, whether they are pockets of poverty in otherwise affluent countries or broadly deprived populations living in the developing world. Demand for the first three editions from around the world has proved this book's value. In this expanded and updated edition all chapters have been revised to reflect developments in public health and in medical and surgical treatments and techniques. The book's value is further enhanced in the fourth edition by the greater emphasis given to clinical ophthalmology and the provision for the first time of colour photos and diagrams throughout.

*Simple Soldering* Kate Richbourg, 2013-05-15 Metalworking is generally regarded as a skill that takes years of dedication, requires a large studio space, and costs a lot of money. Fortunately, *Simple Soldering* proves that does not need to be the case. This handy how-to guide is complete in its exploration of the craft of creating soldered metal jewelry, including tools, techniques, and 20 beautiful projects that beginners and enthusiasts

can make at home. Author and teacher Kate Richbourg demystifies basic soldering for any home crafter, showing how to create sophisticated, polished, and professional-looking jewelry pieces through simple soldering techniques. First, she instructs how to set up a jewelry workspace that fits the confines of your budget and living space. Detailed step-by-step instructions walk you through the basic tools and materials you need, plus how to use them. A sample chapter gives a host of introductory exercises that teach solid skills, allowing you to test these techniques on a small scale. Finally, you'll discover 20 finished projects that include earrings, pendants, rings, bracelets, and clasps that may also include bead or wire embellishment. Kate also demonstrates how to combine and layer techniques to gorgeous effect. She also examines common mistakes, shows how to correct or adapt them, and gives advice on when it's time to start over. Most of all, having taught thousands of classes on soldering, Kate has a you can do it! attitude that shines through to help even the most reluctant jewelry maker fire up the torch with ease. With *Simple Soldering*, the art of metal working one-of-a-kind jewelry is now at your fingertips.

*God and Christ in Irenaeus* Anthony

Briggman,2018-12-06 For too long certain scholars have been content to portray Irenaeus of Lyons as a well-meaning churchman but incompetent theologian. By offering a careful reading of Irenaeus' polemical and constructive arguments, *God and Christ in Irenaeus* contradicts these claims by showing that he was highly educated, trained in the rhetorical arts, aware of general philosophical positions, and able to use both rhetorical and philosophical theories and methods in his argumentation. Moreover, the theological account laid down by his pen was original and sophisticated, supremely so for one of the second century. In contrast to readings that minimize the metaphysical dimension of Irenaeus' theology, Anthony Briggman establishes as pillars of Irenaeus' polemical argumentation and constructive theology his conception of the divine being as infinite and simple, the reciprocal immanence of the Word-Son and God the Father, divine generation, the union of the divine Word-Son and human nature in the person of Christ, and the revelatory activity of the infinite and incomprehensible Word-Son, amongst other features of his theology. Briggman offers a fundamentally new understanding of Irenaeus and his thought.

**Metalsmithing Made Easy** Kate

Richbourg,2016-08-15 Following the success of her first book, Simple Soldering, Kate Ferrant Richbourg walks kitchen table metalsmiths through the basics and into new territory! In addition to teaching the essentials of soldering, Metalsmithing Made Easy demystifies rotary tools and introduces different kinds of hotter small-space torches. In her signature friendly, easy-to-follow style, Kate lays out a lesson plan of techniques to help readers gain familiarity with soldering tools and methods. In the chapter The Field Guide to the Rotary Tool you will learn how to quickly and efficiently, with a simple handheld tool and a few select bits, add professional-quality surface effects and finishing to your jewelry designs. A practice sampler of metal tiles, to be worked on step by step, helps to hone skills in surface manipulation, stone setting, cold connections, and more. Once these skills are mastered in the sampler, you can undertake any (or all) of fifteen gorgeous projects included, such as a locket, bail with set stone, prong-set pendant, and much more.
