Sistema de Cuentas Nacionales de México. Cuenta Satélite del Turismo de México 1996-2001 INEGI,2003-01-01 Documento elaborado en coordinación con la Secretaría de Turismo, que se integra en siete capítulos. El primero presenta los objetivos de la publicación, el segundo describe el marco conceptual, el siguiente apartado detalla las fuentes de información y las metodologías utilizadas. El cuarto ofrece una reseña de cuadros y variables macroeconómicas de turismo, el quinto da cuenta de la importancia del turismo en la economía del país, mientras que el sexto y séptimo dan a conocer en valores corrientes y constantes de 1993 cuadros estadísticos acerca de la oferta y utilización turística, cuentas de producción, personal ocupado, formación bruta de capital fijo, así como el consumo y la balanza de pagos turísticos.

Supplement to Merchant Vessels of the United States ,1976-08

Merchant Vessels of the United States United States. Coast Guard,1976

Breast Cancer, a Heterogeneous Disease Entity Zsuzsanna Kahán,Tibor Tot,2011-02-21 The volume raises attention to the need of a completely new approach to breast cancer based on the knowledge collected on early breast cancer in the past two decades. The chapters are contributed by experts of all the fields participating in the clinical research and care of breast cancer. The practical importance of such a book is underlined by the increasing number of breast cancer cases, and also the increasing proportion of early stage-cases. The ultimate goal of the book is to point to the heterogeneous nature of the disease which is more striking and has more importance in care at the very early stages than at the more advanced stages. The book recommends the utilization of all the information provided by multimodality imaging and special pathological methods, a new classification system and therapeutic guidelines since early breast cancers should not be treated based on experience obtained with palpable tumors. No similar book has been yet released to the market. The book is written for all the members of the team participating in the diagnosis and treatment of breast cancer (radiologists, pathologists, surgeons, clinical and

radiation oncologists), but may be useful for medical students and residents too. The chapters are illustrated with didactic pictures, and special emphasis is given to provide a peep into the practice of the special procedures for the careful examination and individualized therapy of each case.
