The Ridiculously Simple Guide to Google Sheets Scott La Counte,2019-08-19 For 40-some-odd years, the world of spreadsheets has been ruled by one king: Microsoft Excel. Sure, there were far away challengers that tried to overtake the beast--I'm looking at you, Lotus 1-2-3--but none have come close to dethroning the powerful tool...until Google Sheets. So what is Google Sheets? It's a cloud-based spreadsheet. Think Excel, but online. But Excel is online, you say. Yes! But Google was there first, and really has the advantage over Excel in this arena. It's quicker and easier to use for collaboration. Google Sheets is also free; Excel has monthly/yearly subscriptions. If you'd like to get the most out of the software, then let's get started! Note: This book is the Google Sheets portion of the larger work: The Ridiculously Simple Guide to Google Apps (G Suite). This book is not endorsed by Alphabet, Inc.

Winners Take All - The 9 Fundamental Rules of High Tech Strategy Tony Seba,2006-07-09 'Winners Take All' is about building a product and a company into a winner. Written by Tony Seba, a high tech entrepreneur and Stanford University lecturer, this book is an easy-to-read guide to the strategies, tools, templates, and step-by-step implementation frameworks that recent Silicon Valley winners have used to achieve market leadership. Seba, who teaches entrepreneurship and strategic marketing looked at recent winners like Google, Symantec, Netflix, Apple, Craigslist, Salesforce, and compared them to the competition (Yahoo, McAfee, Sony) in order to learn what differentiated these companies He found 9 really simple rules that winning companies can follow. To test the 9 Rules's predictive power, the author published two portfolios. 18 months later the results were compelling: 80% of the '9 Rules' companies beat the market and the portfolio had a 57% return (details: www.tonyseba.com). Winners Take All is refreshingly free of buzzwords and consultant-speak.

The Black Panther Party The Dr. Huey P. Newton Foundation,2010-03-28 The Black Panther Party represents Black Panther Party members' coordinated responses over the last four decades to the failure of city, state, and federal bureaucrats to address the basic needs of their respective communities. The Party pioneered free social service programs that are now in the mainstream of American life. The Party's Sickle Cell Anemia Research Foundation, operated with Oakland's Children's Hospital, was among the nation's first such testing programs. Its Free Breakfast Program served as a model for national programs. Other initiatives included free clinics, grocery giveaways, school and education programs, senior programs, and legal aid programs. Published here for the first time in book form, The Black Panther Party makes the case that the programs' methods are viable models for addressing the persistent, basic social injustices and economic problems of today's American cities and suburbs.

Electronic Commerce 2018 Efraim Turban,Jon Outland,David King,Jae Kyu Lee,Ting-Peng Liang,Deborrah C. Turban,2017-10-12 This new Edition of Electronic Commerce is a complete update of the leading graduate level/advanced undergraduate level textbook on the subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services, and information. Certain EC applications, such as buying and selling stocks and airline tickets online, are reaching maturity, some even exceeding non-Internet trades. However, EC is not just about buying and selling; it also is about electronically communicating, collaborating, and discovering information. It is about e-learning, e-government, social networks, and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade, and of course, people. The most important developments in EC since 2014 are the continuous phenomenal growth of social networks, especially Facebook , LinkedIn and Instagram, and the trend toward conducting EC with mobile devices. Other major developments are the expansion of EC globally, especially in China where you can find the world's largest EC company. Much attention is lately being given to smart commerce and the use of AI-based analytics and big data to enhance the field. Finally, some emerging EC business models are changing industries (e.g., the shared economy models of Uber and Airbnb). The 2018 (9th) edition, brings forth the latest trends in e-commerce, including smart commerce, social commerce, social collaboration, shared economy, innovations, and mobility.
