*Fashion Manifesto* Sofia Hedström, 2013-04-20 *Fashion Manifesto* will forever change your relationship to clothes and fashion. Refuse to be a fashion slave and start thinking creatively about your own outfit! Renew your wardrobe and your style, but without having to shop! Master the seven essential fashion rules for streamlining your closet and explore over fifty different ways to reinvent garments. Equal parts memoir, manifesto, and how-to, this book chronicles the experiences of Sofia Hedström, as she subjected her overweight wardrobe to a detox and stopped clothes-shopping for one year. Her mission was to become fashion fit, and together with well-known photographer Anna Schori, she found a thriving frugal fashion movement and discovered the secrets of both young fashionistas and expert masters of style from around the world. Hedström proves that we can all be "style smart"!

**Designing Clothes** Veronica Manlow, 2018-05-04 Fashion is all around us: we see it, we buy it, we read about it, but most people know little about fashion as a business. Veronica Manlow considers the broader significance of fashion in society, the creative process of fashion design, and how fashion unfolds in an organizational context where design is conceived and executed. To get a true insider's perspective, she became an intern at fashion giant Tommy Hilfiger. There, she observed and recorded how a business's culture is built on a brand that is linked to the charisma and style of its leader. Fashion firms are not just in the business of selling clothing along with a

variety of sidelines. These companies must also sell a larger concept around which people can identify and distinguish themselves from others. Manlow defines the four main tasks of a fashion firm as creation of an image, translation of that image into a product, presentation of the product, and selling the product. Each of these processes is interrelated and each requires the efforts of a variety of specialists, who are often in distant locations. Manlow shows how the design and presentation of fashion is influenced by changes in society, both cultural and economic. Information about past sales and reception of items, as well as projective research informs design, manufacturing, sales, distribution, and marketing decisions. Manlow offers a comprehensive view of the ways in which creative decisions are made, leading up to the creation of actual styles. She helps to define the contribution fashion firms make in upholding, challenging, or redefining the social order. Readers will find this a fascinating examination of an industry that is quite visible, but little understood.

**The Color of Fashion** Caroline Young,2022-04-19 The Color of Fashion is a stunning book with fascinating stories of fashion woven throughout history with COLOR. Whether it's mellow yellow, in the pink, feeling blue, or green with envy, COLOR is so entwined with our emotions that there are countless expressions and song lyrics devoted to it. But what meaning does color have in what we wear? What does a green dress convey when worn to a cocktail party, what significance does a white trouser suit have when worn by a female politician, and why does a woman in red command attention? The Color of Fashion delves into the significance of color in dress and explores how the symbolism has shifted over time. Think of how black transitioned from a color of mourning to the ultimate in elegance, how millennial pink has defined the Instagram generation, and beige, once a sophisticated favorite of Chanel, now reflects the normcore subculture. Featuring images of iconic colorful moments in fashion history - including Jennifer Lopez in green Versace, Alexandra Ocasio-Cortez in white tailoring and Audrey Hepburn in that Little Black Dress - this book is an essential read for fashion lovers everywhere.

Historical Dictionary of the Fashion Industry Francesca Sterlacci, Joanne Arbuckle, 2007-11-19 The Historical Dictionary of the Fashion Industry examines the origins and history of this billion-dollar industry. This is done through a list of acronyms and abbreviations, a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced entries on designers, models, couture houses, significant articles of apparel and fabrics, trade unions, and the international trade organizations.

**In Fashion: Culture, Commerce, Craft, and Identity**, 2022-01-10 For the international cast of contributors to this volume being “in fashion” is about self-presentation; defining how fashion is presented in the visual, written, and performing arts; and about design, craft manufacturing, packaging, marketing, and archives.

**Inside the Fashion Business** Jeannette A. Jarnow, Miriam Guerreiro, 1991  
*The End of Fashion* Teri Agins, 2010-10-12 A solid, hard-hitting, and uncompromising journalistic look at the fashion industry. The time when fashion was defined by French designers whose clothes could be afforded only by elite has ended. Now designers take their cues from mainstream consumers and creativity is channeled more into mass-marketing clothes than into designing them. Indeed, one need look no further than the Gap to see proof of this. In *The End of Fashion*, Wall Street Journal, reporter Teri Agins astutely explores this seminal change, laying bare all aspects of the fashion industry from manufacturing, retailing, and licensing to image making and

financing. Here as well are fascinating insider vignettes that show Donna Karan fighting with financiers, the rivalry between Ralph Lauren and Tommy Hilfiger, and the commitment to haute couture that sent Isaac Mizrahi's business spiraling.

**Sundressed** Lucianne Tonti, 2023-01-19 For conscious consumers, buying clothes has never been more complicated. Even as fashion brands tout their sustainability, the industry is plagued by pollution, waste, and poor working conditions. If our clothes reflect our values, is it possible to be truly well-dressed? Sustainable fashion consultant Lucianne Tonti answers with a resounding yes. Beautiful clothes made from natural fabrics including cotton, wool, flax, and cashmere can support rural communities and regenerate landscapes. They can also reduce waste—but only if we invest in garments that stand the test of time rather than chasing fast fashion trends. In *Sundressed*, Tonti travels the world to showcase producers who are reforming the industry, from Mongolian goatherders, to Mulberry groves in China, and American hemp farms. Many of these innovations begin in the fields, with the cotton crops that will ultimately be spun into a soft T-shirt or the sheep’s wool that will be knitted into a cozy sweater. Fiber farmers are taking a page from the regenerative agriculture movement, giving back to the land as they tend it. Meanwhile, further down the supply chain, top designers are working with Indigenous communities to relearn the artistry of sewing—and reward them financially. And global brands, including Levi’s, are working to produce a pair of jeans that can withstand dozens of washes without any sign

of wear. Tonti also shows readers how accessible sustainable fashion can be. Not everyone can afford a designer shirt that was lovingly hand-sewn. But most of us can buy less, choose natural fabrics over polyester, thrift shop, and wear our clothes longer. Sundressed is an exploration of a revolution taking place in fashion. And it is a love letter to clothing that embodies beauty and value, from farm to closet.
