Sex and Hypnosis L. T. Woodward, 1961

Integrating Sex And Marital Therapy Gerald R. Weeks, 2013-06-20 The field of sex therapy has experienced tremendous growth in the last 20 years . The use of the term sex therapy for most

clinicians brings several well-known therapists to mind and is associated with the treatment of a fairly limited number of sexual problems. The view of sex therapy as a profession has had both positive and negative consequences. The editor's state that the purpose in writing and editing this book was to build on the work of individually oriented sex therapy by adding the systems perspective. This book, then, represents an attempt at the integration of sex and marital or systems therapy.

Look Into My Eyes Peter Masters, 2008-11 Here's a practical, no nonsense guide to using hypnosis in your sex life. Hypnosis can help you lower inhibitions, and increase sexual feelings and responsiveness. It can also be used to help you get more out of your role-playing and fantasies. And it can be a lot of fun. In this book, Peter Masters takes you firstly through a step-by-step guide to hypnotising your partner, and then explores how you can use hypnosis to: - Heighten their sexual feelings - Help them focus and stay involved longer - Create compelling sexual fantasies - Help them get more involved in your role-playing - Give effective posthypnotic suggestions to your partner which they'll respond to after your hypnosis session is over The second half of the book is packed with practical examples and hypnosis scripts which you can use straight from the book, or which you can adapt and modify to suit you and your partner.

Sex and Hypnosis William Alexander Schwartz, 1966

Everything You Ever Need to Know to Enhance the Sexual Response by Hypnosis But Didn't Know Whom to Ask C. J. Mozzochi, 2004 Everything You Ever

Need To Know To Enhance The Sexual Response By Hypnosis But Didn't Know Whom To Ask, by Dr. C. J. Mozzochi, is divided into two parts. The purpose of the first part is to teach sexual partners how they can significantly improve their sexual response through the use of well-known principles of mind control. The basic premise here is that sexual partners have rapport to such a degree that each partner can easily perform successfully as the hypnotist for the other partner. The purpose of the second part is to outline an extremely effective procedure for obtaining self-control through the use of tape recordings, which readers can easily make themselves. This part of the monograph contains a new idea; for although the idea of giving commands to oneself directly without the formal use of hypnosis goes back at least to Coué (c. 1920) and no doubt much farther, a careful search of the literature seems to indicate that the idea of programming (by means of the repeated use of a recording) the subconscious mind to respond directly to arbitrary commands from the conscious mind is original with the author and consistent with the conclusions of other researchers. His method helps a person realize his or her potential in what appears to be an innate ability.

Mysteries and Secrets Revealed Ph. D Pankratz, 2021-04-01 Mysteries and Secrets Revealed uncovers the reality behind mysteries of nature and secrets of frauds that eluded common understanding. The journey begins in the ancient Greek city of Delphi, where priests claimed the gift of a priceless gold lion was an acknowledgement of their clairvoyant powers. But their concocted story concealed an embarrassing blunder. Those sufficiently savvy to catch the lie became aware of even deeper problems. Author Loren Pankratz then guides us through the conflicts of Renaissance scholars, including Galileo who explained things in ways that enraged philosophers and infuriated priests. Galileo's methods of investigation were perpetuated by the meticulous work of the Academy of Experiment, and Bernard Fontenelle's enthralling dialogue enabled common

people to accept life in the rearranged sun-centered universe. Clairvoyants in a mesmeric trance claimed they could visit distant planets and endure brutal surgical procedures. If any of this was real, how was it possible? One nineteenth century mesmeric savant, Alexis Didier, was so convincing that someone claimed no case of clairvoyance could be made for anyone if his accomplishments were not real. This unchallenged declaration is now unraveled here for the first time through information gleaned from uncommon documents and rare antiquarian pamphlets. The surprising manifestations of modern spiritualism quickly escalated into a psychic arms race that included mysterious tipping and turning of tables. Scientist Michael Faraday devised ingenious experiments to show how subtle muscle reactions outside of awareness created these manifestations. On the other hand, explanations for table levitations and mysterious writing on slates could only be solved by individuals with acute observational skills and acquainted with the methods of trickery. Each story in *Mysteries and Secrets Revealed* captures the tension of conflict, the thrill of discovery, and the strategies of science that unmasked frauds, fakes, false belief, and the enigmas of our natural world.

Mastering Erotic Hypnosis Rebecca Doll, James Gordon, 2019 Have you been looking for a book that lays bare all the secrets of hypnotic play for pleasure and kink? A clear, step by step guide that explains theory as well as practice so that you can develop your own style and flair? Authors James Gordon, a clinical hypnotherapist, and

Rebecca Doll, who holds a master's in education, wrote an exhaustive guide. Taking a clear, consent based, non-gendered , approach to hypnotic instruction, we use a scientific and historical approach to de-mystify hypnosis so that anyone and everyone can learn to hypnotize not just highly suggestible individuals, but any partner. We focus on teaching fundamentals so that you can develop your own unique style and flair. Other books are designed to give you a few scripts and tricks, but they are not an entire course in hypnosis. We reveal all the keys that will allow the reader a complete understanding of how to hypnotize. Among many topics we cover: ethics and consent, types of suggestibility, suggestibility testing, hypnotic modalities, inductions, deepening techniques. Designed to be an inclusive course, we offer roadmap of how to recover if you have a problem, and what to do if you experience abreaactions or other issues in hypnosis, discussing important issues such as emotional support and aftercare. We tell you the things that are vital to your knowledge and understanding of how to successfully hypnotize even those subjects that have previously proven difficult or impossible to hypnotize. If you've been looking for a respectable source for training in erotic hypnosis with a full and up front discussion of both the easy and hard parts, this book is an excellent guide. In addition to a broad overview of hypnotic skills we include a detailed discussion of play suggestions, including hypnotic bondage, eroticization, orgasm control and orgasm on command , hypnotic roleplay and how to use

hypnosis as part of D/s play.

The Pregnant Man Deirdre Barrett, 1998 A student bound for a prestigious writing program is suddenly and inexplicably incapable of reading a single word. A staid society matron, looking to overcome her anxiety about flying, reveals a daredevil past. A young woman trying to come to terms with her sister's suicide is hampered by a poltergeist's mischievous interventions. A man who sets out to end an addiction to nicotine instead develops a false pregnancy. Can hypnotherapy heal a troubled mind? Why is it so compelling and controversial? In The Pregnant Man: And Other Cases from a Hypnotherapist's Couch, Dr. Deirdre Barrett describes how she has used the fascinating discipline known as hypnotherapy to treat these patients and many others. Tracing the voyage of seven patients through her practice, she demonstrates how hypnosis can accelerate and magnify the benefits of psychotherapy--and occasionally its dangers. Several of Dr. Barrett's patients evince disquieting symptoms--hallucinations, multiple personalities, and more--that hypnotic explorations reveal as variations on the universal themes of love, bereavement, envy, and shame. Other patients bring to her couch more mundane complaints--a desire to quit smoking, fear of flying--and in the course of their therapy uncover surprising dramas behind them. The Pregnant Man follows Dr. Barrett's personal evolution as a hypnotherapist, even as it illuminates the art and science of a branch of psychotherapy all too often misunderstood by the general public. She explains how hypnotherapy can

offer a deeper window into the workings of the mind and offers expert guidance on deciding whether hypnotherapy is right for you. From the Trade Paperback edition.

Hypnosis with Children Daniel P. Kohen, Karen Olness, 2022-12-19 Updated and revised in response to developments in the field, this fifth edition of *Hypnosis with Children* describes the research and clinical historical underpinnings of hypnosis with children and adolescents, and presents an up-to-date compendium of the pertinent world literature regarding this arena. The authors focus on the wide variety and scope of applications for therapeutic hypnosis; including an integrated description of both clinical and evidence-based research as it relates to understanding approaches to various clinical situations, case studies of practical aspects, and how-to elements of teaching therapeutic hypnosis skills to clients. This new edition includes new chapters on helping children in disasters and pandemics with hypnosis, and helping parents. This book is essential for therapists and students who wish to gain a complete overview of hypnosis with children and adolescents.
