Impossible Cole Louison,2011-07-19 Skateboarding: the background, technicality, culture, rebellion, marketing, conflict, and future of the global sport as seen through two of its most influential geniuses Since it all began half a century ago, skateboarding has come to mystify some and to mesmerize many, including its tens of millions of adherents throughout America and the world. And yet, as ubiquitous as it is today, its origins, manners, and methods are little understood. The Impossible aims to get skateboarding right. Journalist Cole Louison gets inside the history, culture, and major personalities of skating. He does solargely by recounting the careers of the sport's Yoda—Rodney Mullen, who, in his mid-forties, remains the greatest skateboarder in the world, the godfather of all modern skateboarding tricks—and its Luke Skywalker—Ryan Sheckler, who became its youngest pro athlete and a celebrity at thirteen. The story begins in the 1960s, when the first boards made their way to land in the form of off-season surfing in southern California. It then follows the sport's spikes, plateaus, and drops—including its billion-dollar apparel industry and its connection with art, fashion, and music. In The Impossible, we come to know intimately not only skateboarding, but also two very different, equally fascinating geniuses who have shaped the sport more than anyone else.

The Evolution of Skating Charles Edwards,Khannie Butler,Lisa Goodheart,Jeff Hart,Israel Strong,Terry Davis,Amirah Palmer,2021-04-27 The Evolution of Skating is a collaboration, a journey of sorts, detailing the skate culture. It is the Evolution of the skater and how they have grown in passion and skill over the years. Featuring the stories of Skaters legendary and new, Deejaays, Event Coordinators, Videographers, Skate Critics, rink owners national and international. Each chapter will provide a sneak peek inside the life of the individual and the culture, this gritty, fun, family friendly, sometimes underground but well-known phenomenon that has stood the test of time. A family pastime that has been passed down through the ages, irrespective of race, religion, social or financial status. It's an art that can be enjoyed as a family or alone. It's a stress reliever, fun, exercise, a sport, entertainment and even a life saver to some. The concept of this book is one of the many loves that had been stagnant in my heart and finally came to fruition with the help of my co-authors. I wanted to provide a platform for each person to tell their journey of what skating has meant to them, with the hopes to inspire, invite encourage, enlighten and brighten the day of each person who turns the page of this book or listens to their stories via the audio book. The history of roller skating began back in 1735 when the first roller skate was invented by John Joseph Merlin, from Belgium. He debuted his new wheeled shoes in London at a party, but crashed into a mirror, embarrassed but not deterred, he went back to the drawing board. In Paris the year 1819, Mr. M. Petitbled, a French inventor patented a three-wheeled inline skate model and in 1863 Mr. James Plimpton designed quad skates according to the National Museum of Roller Skating and this, revolutionized roller skating. Plimpton went on to establish the New York Roller Skating Association and he opened his first skating rink in 1866 at a Rhode Island resort, capitalizing on the social aspect of roller skating, he provided a place for the then young Victorian couples to meet up without being chaperoned, brilliant and wise I say. Roller skating has also been touted as a valuable form of exercise by many health officials. It increases the output of muscular energy, stimulates your circulation which increases perspiration all the while you can have fun whilst listing to music. Back in the early days, people would skate to a violin player, flutist, organist and the like. Deejaays were not introduced to rinks for quite some time and even then, they started playing tapes from radio players not the traditional Deejaays we are accustomed to spinning on turntables in this day and age. The creation and direction of roller skating has and continues to evolve. It is an ever-changing culture full of history, soul and artistry. Keep your eyes open to behold what is to come, the crafty and inventive.

Skate Michael Harmon,2008-02-12 There's not much keeping Ian McDermott in Spokane, but at least it's home. He's been raising Sammy practically on his own ever since their mom disappeared again on one of her binges. They get by, finding just enough to eat and plenty of time to skateboard. But at Morrison High, Ian is getting the distinct, chilling feeling that the administration wants him and his board and his punked hair gone. Simply gone. And when his temper finally blows--he actually takes a swing at Coach Florence

and knocks him cold—Ian knows he’s got to grab Sammy and skate. Run. Their search for the one relative they can think of, their only hope, leads Ian and Sammy across the entire state of Washington in the cold and rain—and straight into a shocking discovery. Through it all, Ian knows exactly what he has to do: protect Sammy, and let no one split up their family of two. Michael Harmon tells a nuanced and unflinching story of wilderness survival, the fierce bond between brothers, and teen rage—and redemption.

Hawk Tony Hawk, Sean Mortimer, 2010-09-21 For Tony Hawk, it wasn't enough to skate for two decades, to invent more than eighty tricks, and to win more than twice as many professional contests as any other skater. It wasn't enough to knock himself unconscious more than ten times, fracture several ribs, break his elbow, knock out his teeth twice, compress the vertebrae in his back, pop his bursa sack, get more than fifty stitches laced into his shins, rip apart the cartilage in his knee, bruise his tailbone, sprain his ankles, and tear his ligaments too many times to count. No. He had to land the 900. And after thirteen years of failed attempts, he nailed it. It had never been done before. Growing up in Sierra Mesa, California, Tony was a hyperactive demon child with an I44 IQ. He threw tantrums, terrorized the nanny until she quit, exploded with rage whenever he lost a game; this was a kid who was expelled from preschool. When his brother, Steve, gave him a blue plastic hand-me-down skateboard and his father built a skate ramp in the driveway, Tony finally found his outlet—while skating, he could be as hard on himself as he was on everyone around him. But it wasn't an easy ride to the top of the skating game. Fellow skaters mocked his skating style and dubbed him a circus skater. He was so skinny he had to wear elbow pads on his knees, and so light he had to ollie just to catch air off a ramp. He was so desperate to be accepted by young skating legends like Steve Caballero, Mike McGill, and Christian Hosoi that he ate gum from between Steve's toes. But a few years of determination and hard work paid off in multiple professional wins, and the skaters who once had mocked him were now trying to learn his tricks. Tony had created a new style of skating. In *Hawk* Tony goes behind the scenes of competitions, demos, and movies and shares the less glamorous demands of being a skateboarder—from skating on Italian TV wearing see-through plastic shorts to doing a demo in Brazil after throwing up for five days straight from food poisoning. He's dealt with teammates who lit themselves and other subjects on fire, driving down a freeway as the dashboard of their van burned. He's gone through the unpredictable ride of the skateboard industry during which, in the span of a few years, his annual income shrank to what he had made in a single month and then rebounded into seven figures. But Tony's greatest difficulty was dealing with the loss of his number one fan and supporter—his dad, Frank Hawk. With brutal honesty, Tony recalls the stories of love, loss, bad hairdos, embarrassing '80s clothes, and his determination that had shaped his life. As he takes a look back at his experiences with the skateboarding legends of the '70s, '80s, and '90s, including Stacy Peralta, Eddie Elguera, Lance Mountain, Mark Gonzalez, Bob Burnquist, and Colin McKay, he tells the real history of skateboarding—and also what the future has in store for the sport and for him.

Skateboarding Between Subculture and the Olympics Veith Kilberth, Jürgen Schwier, 2019-08-31 The inclusion of skateboarding as an official discipline in the 2020 Olympic Games marks the pinnacle of a decades-long process of commercialization and sportification. Is the tightly-knit subculture in danger of losing its very identity? This anthology creates an analytical framework for understanding the fundamental conflict between skateboarding's core ethos and the tenets of institutionalized sports. Eleven acclaimed international authors from the fields of architecture, philosophy, sociology, sports sciences and gender studies provide a unique perspective on the manifold manifestations of skateboarding previously ignored by academic discourse.

The Skateboard Ben Marcus, 2011-06-07 The story of the simple skateboard is part thriller, part underground, underdog success tale. It's chock-full of innovations, far-out graphic artistry, and ever-more-incredible hot-dogging feats. And the story's told in this book with contributions from the stars themselves—Tony Hawk, Stacey Peralta, Jeff Ho, the Dogtown Z-Boys, and more. Beautifully illustrated with historical posters, ads, and memorabilia along with new action photography, studio skateboard shots, and unique portraits of the stars, this is a fitting tribute to an American classic.

Skateboarding LA Gregory J. Snyder, 2017-12-05 Inside the complex and misunderstood world of professional street skateboarding On a sunny Sunday in Los Angeles, a crew of skaters and videographers watch as one of them attempts to land a “heel flip” over a fire hydrant on a sidewalk in front of the Biltmore Hotel. A staff member of the hotel demands they leave and picks up his phone to call the police. Not only does the skater land the trick, but he does so quickly, and spares everyone the unwanted stress of having to deal with the cops. This is not an uncommon occurrence in skateboarding, which is illegal in most American cities and this interaction is just part of the process of being a professional street skater. This is just one of Gregory Snyder’s experiences from eight years inside the world of professional street skateboarding: a highly refined, athletic and aesthetic pursuit, from which a large number of people profit. *Skateboarding LA* details the history of skateboarding, describes basic and complex tricks, tours some of LA's most famous spots, and provides an enthusiastic appreciation of this dangerous and creative practice. Particularly concerned with public spaces, Snyder shows that skateboarding offers cities much more than petty vandalism and exaggerated claims of destruction. Rather, skateboarding draws highly talented young people from around the globe to skateboarding cities, building a diverse and wide-reaching community of skateboarders, filmmakers, photographers, writers, and entrepreneurs. Snyder also argues that as stewards of public plazas and parks, skateboarders deter homeless encampments and drug dealers. In one stunning case, skateboarders transformed the West LA Courthouse, with Nike’s assistance, into a skateable public space. Through interviews with current and former professional skateboarders, Snyder vividly expresses their passion, dedication and creativity. Especially in relation to the city's architectural features—ledges, banks, gaps, stairs and handrails—they are constantly re-imagining and repurposing these urban spaces in order to perform their ever-increasingly difficult tricks. For anyone interested in this dynamic and daunting activity, *Skateboarding LA* is an amazing ride.

The Mutt Rodney Mullen, Sean Mortimer, 2005-08-02 The world-champion freestyle skateboarder and the man who brought the ollie – the trick that revolutionised the sport by taking it from the ground to the air – to street skating shares the history of skateboarding, as he tells the dramatic story of his life. At the age of 13, Rodney took the freestyle skating world by storm. He won 35 world titles in less than five years. But through it all, his father looked down on his son's love for skating and pressured him to walk away from the sport and leave behind his fans and status as the most famous skateboarder of his era. After years of stress and

conflict, Rodney gave in and promised his father he'd quit for good. But by the time he finally broke free from his suffocating and abusive home life, the popularity of freestyle had waned and given way to vert and street styles. So Rodney picked up his board and started from scratch. With the help of mentor Mike Ternansky, Rodney used his freestyle background to usher in a whole new era of street skating. Today Rodney is more popular than ever. The videos in his series Rodney Versus Daewon are among the most popular skateboard videos ever produced. He won the 2002 Transworld Skateboarding readers' choice award for favourite street skater and is the most popular character on the top-selling Tony Hawk's Pro Skater video games.
