Skater Boy Mary Catherine Gebhard,2019-04-26 ★★★★★ Skater Boy combined so many of my favorite things beautifully into one unique novel. Strong and defiant, yet compassionate heroine. The down-to-the-bone, soul-crushing kind of love. Once Skater Boy was over, I couldn't pick up anything for days. It was so beautifully unique. Read this book. Breathe this book. Obsess over this book. Flip will stalk your heart, and you'll so desperately love every second of it. Rebels. Misfits. Bad boys who rule the streets. Everyone's welcome at the worst kept secret in town, just as long as you don't mind getting your reputation—and your heart—a little dirty. Welcome to Patchwork House... Patchwork House is a boy's club—a mean boy's club. They made an exception for Tweetie once, and they're going to make another, because she's coming home. After two years away and one too many broken hearts, Tweetie swore off skaters—but she never expected Flip. Flip was the most famous skater in the world until he traded his place at Patchwork with the little girl whose life he ruined. Now Tweetie's all grown up, and one chance encounter brings them together. He knows the right thing to do is disappear before things get ugly, but he never was very good at being good. She's back, and so is he—all bets are off. Nothing will stop this bad boy from finally getting his lost girl. They're written in the stars, and it's time she knows it. The first lesson Flip taught Tweetie was how to fall. It was also the last thing she remembered when they met again, because she didn't just fall for him. She slammed.

It contains discussions about baby poop, day drinking, girls' night out, and the purchase of a mini-van. When his most recent poor decision comes to a door-slamming end, former Olympic figure skater Alex Stanton is forced to move into the house of his best friend, Thunder starting goalie, Sergei Pergov. It's just temporary. Then Sergei kisses him and everything changes. Sergei doesn't care that Alex has no money, no career, no future. He makes more than enough for both of them. But Alex says he's done being a kept man. He'll find a way to make it on his own even if he has to move across the country to do it. But Sergei knows he needs Alex more than Alex needs him. Alex is the one who makes their house a home; his love makes them a family. How can Sergei make him see that there are things more precious than money?

Skater Boy Anthony Nerada,2024-02-06 In this YA pop punk debut about queer romance and destroying labels, a teen risks everything to write his own story. Perfect for fans of Sonora Reyes and Adib Khorram. Stonebridge High's resident bad boy, Wesley "Big Mac" Mackenzie, is failing senior year—thanks to his unchecked anger, rowdy friends, and a tendency to ditch his homework for skateboarding and a secret photography obsession. So when his mom drags him to a production of The Nutcracker, Wes isn't interested at all . . . until he sees Tristan Monroe. Mr. Nutcracker himself. Wes knows he shouldn't like Tristan; after all, he's a ballet dancer, and Wes is as closeted as they come. But when they start spending time together, Wes can't seem to get Tristan out of his head. Driven by a new sense of purpose, Wes begins to think that—despite every authority figure telling him otherwise—maybe he can change for the better and graduate on time. As a falling out with his friends becomes inevitable, Wes realizes that being himself means taking a stand—and blowing up the bad-boy reputation he never wanted in the first place. From a debut author to watch, Skater Boy delivers a heart-wrenching, validating, and honest story about what it means to be gay in a world where you don't fit in.

Skater Boy Mari Mancusi, 2014-07-25 Dawn Miller is sick of being good. Her parents have scheduled her to within an inch of her life and her popular friends can only think of hooking up and shopping. She's ready for a serious boyfriend, and it's definitely not the obnoxious rich boy everyone wants her to date. Then she meets Starr, the headmaster's rebellious daughter who refuses to play by the rules. The differences between them are night and day but Dawn is fascinated. Skateboarders like the gorgeous Sean, who's sweet, smart, and curiously serious --everything Dawn's always wanted in a boyfriend. Soon she finds herself head over heels and doing the unthinkable, lying to her parents and friends. Deep down she knows her parents will never approve of this boy from the wrong side of town...and her secret life is finally catching up to her. Kissing the Skater Boy Christina Herrera, 2023-08-02 A cocky skater boy. A studious newspaper editor. Enemies can still attract, right? It all started at our small private school, Hidden Shores Academy, on the first day. The new kid was texting as he came down the stairs. His longboard slipped out of his fingers, smacking me right in the face. His first reaction should have been to check if I was okay, but no, his gut instinct told him to check and see how his precious board survived the attack. Of course, he ended up in almost all my classes. No matter what I do, he keeps finding ways to talk to me. But I'm not interested in him. I'm trying to stay focused on my position as head editor of my high school's newspaper. I have dreams to chase. I'm applying for a Journalism scholarship. I don't have time for a know-it-all boy like Justin. Besides, I had a boyfriend before. It didn't end well. The last thing I want is more drama, and I can tell by the smug grin on the skater boy's face that he's full of it. He may be my worst enemy, but there's something about the way he hasn't given up on me that makes me wonder if he's not that bad after all. If you like sweet and wholesome romance, then look no further!

Issues and Challenges in Science Education Research Kim Chwee Daniel Tan,Mijung Kim,2012-04-27 In contemporary society, science constitutes a significant part of human life in that it impacts on how people experience and understand the world and themselves. The rapid advances in science and technology, newly established societal and cultural norms and values, and changes in the climate and environment, as well as, the depletion of natural resources all greatly impact the lives of children and youths, and hence their ways of learning, viewing the world, experiencing phenomena around them and

interacting with others. These changes challenge science educators to rethink the epistemology and pedagogy in science classrooms today as the practice of science education needs to be proactive and relevant to students and prepare them for life in the present and in the future. Featuring contributions from highly experienced and celebrated science educators, as well as research perspectives from Europe, the USA, Asia and Australia, this book addresses theoretical and practical examples in science education that, on the one hand, plays a key role in our understanding of the world, and yet, paradoxically, now acknowledges a growing number of uncertainties of knowledge about the world. The material is in four sections that cover the learning and teaching of science from science literacy to multiple representations; science teacher education; the use of innovations and new technologies in science teaching and learning; and science learning in informal settings including outdoor environmental learning activities. Acknowledging the issues and challenges in science education, this book hopes to generate collaborative discussions among scholars, researchers, and educators to develop critical and creative ways of science teaching to improve and enrich the lives of our children and youths.
