Gunfitting Don Currie, 2021-12-01 Expert shooting coach, teacher, and competitor Don Currie delivers a solid book on gunfitting based on a lifetime of experience gained from working with Orvis and Purdey. Don knows that shooting with a properly fitted shotgun is critical to a shooter's success, and he delivers on the art and science of fitting proper shotguns. The science requires the gunfitter to understand the structure of the shooter's body and what stock specifications are needed to accommodate the shooter's

physique. To master the art of the process, the fitter must understand how shooters shoot and how the eye and brain see and read the target. The fitter must critically evaluate the shooter's stance, mount, and level of experience along with taking into consideration the shooter's discipline and style and how the shooter will develop and evolve.

Shoot to Win Chris Cheng, 2018-05-01 A surprising journey from tech support to professional marksman in front of the cameras. Chris Cheng won the title of "Top Shot," a \$100,000 cash prize, and a professional marksman contract with the show sponsor, Bass Pro Shops. An excellent guide for beginning shooters, Cheng focuses on the basics and ammunition of pistols, rifles, and shotguns, marksmanship fundamentals, and buying a firearm. Other chapters include: Dry Fire Practice Firearm Accessories Safely Storing Your Firearm Cleaning and Maintaining Your Guns And much more! Additionally, Cheng covers his approach to staying calm under pressure, teamwork, sportsmanship, and leadership. These traits contributed to his coming out on top and staying above the fray. With a foreword written by Top Shot season 3 champion Dustin Ellermann and an afterword written by the original Top Shot champion Iain Harrison, Shoot to Win is sure to please shooters of all stripes, but especially fans of History Channel's program Top Shot. Skill Sets - Practicing for Sporting Clays Chris Parsons, 2020-06-16 Master Class! Congratulations. After much work and a lot of winning in the lower

classes of the NSCA competition world, you finally won the last punch you needed to move to Master Class! A great feeling and a great accomplishment! You always knew you were this good! The next sporting clays competition arrives, and you register as MASTER! A proud moment! You go out to the competition course and shoot your game. You have a solid day and put up a solid score, not your best performance but a good score. You wait around after the competition for the final results to be posted. The scores come out and you begin looking for your name at the top of Master Class, because hey, that is where your name has been for months! The top of the class! You look at the top of Master Class and don't see your name. You tell yourself, "That's Ok. Can't expect to win the first time in Master Class." You begin scrolling down the list of names in Master Class expecting to see your name at any moment. You keep scrolling. A quarter of the way down now, and your name still hasn't shown up. You keep scrolling. Halfway down now and geez, there are a lot of names here. You keep scrolling. Getting close to the bottom now. You keep scrolling and there you are, about three quarters of the way down. You finish about fifty out of sixty-five. You are shocked. This can't be right. You check your score. Yes, that is the correct score and then, you start scanning the scores above you. You sigh in disappointment. Six competitions later, your scores bottom out. You are nearly last in Master Class. It was only a few competitions ago that you were good and winning your class. The sport was fun! Now in Master Class, you can't even finish in the top half of the class. You get frustrated. You begin thinking about quitting the sport. You are lost at what to do. So many new Master Class competitors have found themselves in this very scenario. You just made Master Class and want so much to continue winning like you did in the lower classes, but Master Class is different than the other classes. The Professionals who compete for the National Championship every year are in Master Class. The Regional and State "Big Fish" who compete and win the Regional and State Championships every year are in Master Class. The former "Big Fish" who used to win all the time are in Master Class. All of these competitors have competed for over a decade. You realize if you are going to compete and win in Master Class, you need to get better. You realize you need to expand your game and improve your skills. You need a skill set. This book is written to help you create a skill set that will make you competitive in Master Class and the lower classes as well. The material in Skill Sets: Practicing for Sporting Clays will discuss the three major skill sets you need to compete and win in sporting clays. It will discuss the technical game, the mental game and the most important and least discussed skill set...execution. I have been competing in sporting clays over fifteen years and have experienced the highs and lows in the sport. The highs include a couple tours on the PSCA circuit, multiple State Championships, a 100 straight in competition and an All American Team to my credits. I have seen the lows as well finishing third from the bottom of Master Class. I have made many mistakes on my climb up the sporting clays mountain. I address many of my mistakes in this book to help you avoid them. This book was written from my vast experience to help you build a skill set to improve your game. Then once you have created this skill set, the book discusses how to practice these skill sets and make it better. Because once you have a skill set, you have to learn how to apply it. If you take the three fundamental skill sets in this book and apply it to your game, you will see your scores improve and the fun return to the sport you love and

have worked so hard to master.

Maine-Ly Wing Shooting Brad Varney, 2016-05-20 Brad Varney, The Shooter's Guru is Maine's Premier Wing and Clay Shooting Instructor. With over 60 years' wing shooting experience and 45 years' instruction experience, Brad Varney teaches how to shoot safely, accurately, and naturally. This book will provide you with the best all-purpose wing shooting system. The reader will learn that good wing shooting and good instruction need not be complicated or confusing. As a frugal Maine Yankee, Brad likes to keep his teaching simple and efficient. This book is not about the history or types of firearms or their manufacture, maintenance or repair. Nor will you find information on hunting gear. This book is a how-to-do-it guide. The main focus is hitting moving targets, be they game birds or clays. What you will read will make you a better wing shot. The majority of this book is about the method Brad has used successfully on birds and in clay target competition, based on the cumulative knowledge of over 50 years of hunting, competitive shooting and teaching. Brad will show you how to use and trust your senses-all of them-foremost among them, your eyes. By reading this book and practicing this Super Instinctive Shooting Method you will learn in a few days a very simple but effective instinctive form of wing shooting.
