**Back Up on Skis** Aubrie Mindock, 2012 Olympic hopeful Aubrie Mindock and her family have a life that involves skiing. Aubrie's parents got her involved in ski competitions at a young age and soon Aubrie was thinking about trying out for the olympics, when all of a sudden Aubrie took two falls that almost killed her. Aubrie went to Heaven and came back to realize that her life was going to be changed forever. Due to the seriousness of her injuries everyone thought that Aubrie's racing days were over, as well as her ability to ski again. With a possible broken neck, a fractured skull, broken knee and one working arm, Aubrie found her strength and was able to race once more. Find out how Aubrie makes a comeback and gets back up on skis.

Here you will find the story of the people who allegedly are born with skis on their feet. NORWEGIAN HERITAGE is a series of books about our most important and best-known national icons. The respective titles introduce major personalities from the worlds of art and literature, science and sports, but also the many natural wonders of the country, as well as significant historical periods and cultural expressions. Beyond Birkie Fever Walter Rhein, 2011 Cross-country skiers are hearty folk. The compulsion to race marathon length distances in sub-freezing conditions requires an eternally optimistic and fiercely independent spirit. The fear of blinding snow or paralyzing cold does not deter them, and it has been said that skiers do not merely laugh at adversity; they are completely oblivious to its existence! America's greatest cross-country ski race is the American Birkebeiner, or Birkie for short. Every year, thousands of people journey from all over the globe to Hayward, Wisconsin, for a world-class celebration of life, winter and the competitive spirit. Prior to the race, local participants find themselves in the throes of a unique and natural euphoria. They thrill at the prospect of participating shoulder to shoulder with elite international competitors in a wild race through the great Northwoods wilderness. It is the common person's Olympic ideal! It is Birkie Fever! Far more than just a severe case of pre-race jitters, Birkie Fever is an adventurous compulsion that fuses with your very essence and forms an integral part of your innermost being. It is the catalyst for a fundamental joy of life that gives you the courage to expand your dreams and the strength to achieve them! Beyond Birkie Fever is the story of how America's magnificent cross-country ski marathon can expand your horizons and be the gateway to experiences beyond anything you'd ever hoped to imagine!

The Story of Modern Skiing John Fry, 2017-03-14 This is the definitive history of the sport that has exhilarated

and infatuated about 30 million Americans and Canadians over the course of the last fifty years. Consummate insider John Fry chronicles the rise of a ski culture and every aspect of the sport's development, including the emergence of the mega-resort and advances in equipment, technique, instruction, and competition. *The Story of Modern Skiing* is laced with revelations from the author's personal relationships with skiing greats such as triple Olympic gold medalists Toni Sailer and Jean-Claude Killy, double gold medalist and environmental champion Andrea Mead Lawrence, first women's World Cup winner Nancy Greene, World Alpine champion Billy Kidd, Sarajevo gold and silver medalists Phil and Steve Mahre, and industry pioneers such as Vail founder Pete Seibert, metal ski designer Howard Head, and plastic boot inventor Bob Lange. Fry writes authoritatively of alpine skiing in North America and Europe, of Nordic skiing, and of newer variations in the sport: freestyle skiing, snowboarding, and extreme skiing. He looks closely at skiing's relationship to the environment, its portrayal in the media, and its response to social and economic change. Maps locating major resorts, records of ski champions, and a timeline, bibliography, glossary, and index of names and places make this the definitive work on modern skiing. Skiers of all ages and abilities will revel in this lively tale of their sport's heritage.

Everyone to Skis! William D. Frank, 2013-10-31 Nowhere in the world was the sport of biathlon, a combination of cross-country skiing and rifle marksmanship, taken more seriously than in the Soviet Union, and no other nation garnered greater success at international venues. From the introduction of modern biathlon in 1958 to the USSR's demise in 1991, athletes representing the Soviet Union won almost half of all possible medals awarded in world championship and Olympic competition. Yet more than sheer technical skill created Soviet superiority in biathlon. The sport embodied the Soviet Union's culture, educational system and historical experience and provided the perfect ideological platform to promote the state's socialist viewpoint and military might, imbuing the sport with a Cold War sensibility that transcended the government's primary quest for post-war success at the Olympics. William D. Frank's book is the first comprehensive analysis of how the Soviet government interpreted the sport of skiing as a cultural, ideological, political and social tool throughout the course of seven decades. In the beginning, the Soviet Union owned biathlon, and so the stories of both the state and the event are inseparable. Through the author's unique perspective on biathlon as a former nationally-ranked competitor and current professor of Soviet history, *Everyone to Skis!* will appeal to students and scholars of Russian and Soviet history as well as to general readers with an interest in skiing and the development of twentieth-century sport.

**World Class** Peggy Shinn, 2018-02-06 What makes a great team? Sports journalist Peggy Shinn answers this question in her enthralling account of the dramatic rise of the U.S. women's cross-country ski team, winners of eight medals at three world championships over the past five years. Shinn's story - based on dozens of interviews with athletes, coaches, parents, spouses, and friends - paints a vivid picture of the obstacles that America's female athletes must overcome not just to ski with the world's best, but to beat them. In a sport where U.S. women have

toiled for decades, mostly in the middle or the back of the pack, the development of a world-class team attests to the heady combination of a transformational leader, a coach who connects with his athletes, the super-fast individual skiers who are also conscientious teammates - and a bit of good luck. This is the story of Kikkan Randall, Liz Stephen, Holly Brooks, Jessie Diggins, Ida Sargent, Sadie Bjornsen, Sophie Caldwell, Rosie Brennan, and coach Matt Whitcomb - and how they created the perfect team.

*Ski Jumping in Washington State: A Nordic Tradition* John W. Lundin,2021 Ski jumping, once Washington's most popular winter sport, was introduced by Norwegian immigrants in the early twentieth century. It began at Spokane's Browne's Mountain and Seattle's Queen Anne Hill, moved to midsummer tournaments on Mount Rainier in 1917 and expanded statewide as new ski clubs formed. Washington tournaments attracted the world's best jumpers--Birger and Sigurd Ruud, Alf Engen, Sigurd Ulland and Reidar Andersen, among others. In 1941, Torger Tokle set two national distance records here in just three weeks. Regional ski areas hosted national and international championships as well as Olympic tryouts, entertaining spectators until Leavenworth's last tournament in 1978. Lawyer, historian and award-winning author John W. Lundin re-creates the excitement of this nearly forgotten ski jumping heritage.

*Powder Days* Heather Hansman,2021-11-09 \*A Boston Globe Bestseller!\* \*An Outside Magazine Book Club Pick!\* \*Winner of the International Ski Association's Ullr Book Award!\* A sparkling account.—Wall Street Journal An electrifying adventure into the rich history of skiing and the modern heart of ski-bum culture, from one of America's most preeminent ski journalists The story of skiing is, in many ways, the story of America itself. Blossoming from the Tenth Mountain Division in World War II, the sport took hold across the country, driven by adventurers seeking the rush of freedom that only cold mountain air could provide. As skiing gained in popularity, mom-and-pop backcountry hills gave way to groomed trails and eventually the megaresorts of today. Along the way, the pioneers and diehards—the ski bums—remained the beating heart of the scene. Veteran ski journalist and former ski bum Heather Hansman takes readers on an exhilarating journey into the hidden history of American skiing,

offering a glimpse into an underexplored subculture from the perspective of a true insider. Hopping from Vermont to Colorado, Montana to West Virginia, Hansman profiles the people who have built their lives around a cold-weather obsession. Along the way she reckons with skiing's problematic elements and investigates how the sport is evolving in the face of the existential threat of climate change.
