The Ski-runner E. C. Richardson,1909

The Ski-Runner (Classic Reprint) E. C. Richardson,2015-07-21 Excerpt from The Ski-Runner When in 1904 I edited and, in part, wrote Ski-Running, it was my intention in subsequent editions to keep the book in all respects up-to-date. This intention was fulfilled when the second edition appeared in the following year; but since then, owing to differences of opinion, by no means of an unfriendly nature, between myself and my co-authors, it has been impossible for me to make any additions or alterations. When Dr. Hoek brought out his German book on the subject, entitled Der Schillauf, it was arranged between us that he should use as much of my matter as seemed good to him, whilst his matter should be at my disposal for any subsequent editions of Ski-Running which might appear. This permission he has been kind enough to transfer to the present work. The book which I am now issuing is thus to some extent based on Der Schillauf, which, in its turn, is to some extent based on Ski-Running. I soon found, however, when I began to write, that there was much in both of these treatises which I desired to express differently, and that there was a great deal of entirely new matter to be added. The Ski-Runner, in fact, differs considerably from any of its predecessors. The most noticeable changes are as follows: - The historical chapter has been expanded and brought up to date. The chapter on outfit contains a great deal of information as to the best kind of wood for ski. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Cross-Country Ski-Ing (Classic Reprint) Arnold Lunn,2017-07-25 Excerpt from Cross-Country Ski-Ing For his first season the following are essential he must possess good skis, a pair of ski-ing boots, two ski sticks, sealskins, a rucksack and two or three pairs of gloves and some protection for his ears if the weather turns cold. This complete outfit can be purchased for less than a five-pound note. Climbs and Ski Runs Frank Smythe,2014-02-07 'Why do you climb? The mountaineer has no answer to this question. The best things in the world cannot adequately be expressed in speech or print; they are part of the soul.' In Climbs and Ski Runs, Frank Smythe takes the reader on Alpine ski trips and Dolomite adventures, up first ascents in North Wales and on to the mighty Brenva Face of Mont Blanc. He places pebbles for runners, 'shoots' crevasses and is struck by lightning. And yet, all the while, he perfectly captures the moments that make climbing and mountaineering so special - moments that will resonate with anybody who has spent time in the hills. Frank Smythe was among the leading mountaineers of the early twentieth century and one of the finest climbing writers ever to put pen to paper. In Climbs and Ski Runs he documents his early forays into the mountains, giving a remarkable insight into that period of climbing and mountaineering. Yet it is not this that makes the book special. It is Smythe's ability to observe and recreate his surroundings and to write so compellingly about the climber's response to them, and to the moments of difficulty and danger, that brings Climbs and Ski Runs to life.
