**Skin Care Recipes** Julia Green,2020-12-15 Are you here to give your skin that tender loving care it truly deserves? Do you want to break free from the harmful effects of the chemicals? Then keep reading... Every day we use the word Skincare, but are you really using it as it is intended? Caring for your skin takes more than just applying multiple layers of products. It's not care when you are putting harmful chemicals on your skin. I am sure that most of the consumers are just unaware of the dangers or even the existence of these components and you could be one of them. You can still change that! Of all the products you've used, have you taken a second look at the packaging? If not, then this is the day to start. Do not mislead yourself in the world of skincare! Let's consider for a moment precisely what we mean by the term organic skincare. By organic, what we really mean is without using artificial products. The term organic can be explained as relating to or derived from living matter. That doesn't mean that the ingredients are necessarily alive but means that they must be natural and related to living things. The fewer steps the product had to go through before it was packaged, the more organic we consider it to be. How does this relate to skincare? Organic skincare means to let your skin heal and improve without resorting to the use of chemicals, compounds, and other unnatural substances. The golden rule to remember here is that anything that comes into contact with your skin, or anything that you inhale, will eventually enter your blood stream. If you wouldn't feel comfortable eating it, then don't rub it on your body or spread it around your house! The goal of this book is simple: Teaching you all the secrets for having a shiny and soothing skin with organic products prepared at home. In the Skin Care Recipes book, you will learn about: The anatomy of the skin, the different layers that compose it and everything that you need to know before preparing natural products for it How to easily produce the best DIY Skincare Products for any type of skin, with simple and effective recipes to follow step by step More than 100 Organic Recipes including: Facial Skincare & Cream recipes Body Butter & Lotion recipes Herbal Salve recipes Shower Gel recipes Hair Care recipes Makeup recipes What is Bath Therapy and how to produce at home all the needed products for it And Much More! Where most books only focus in facial skin care, this book goes further and gives you additional types of recipes including hair, body and make up. With more than 100 organic recipes you will discover all the secrets for a soothing and healthy skin. Instead of ordering products that have been mass produced at a factory that billows smoke into the air, you'll be using products made from natural ingredients you can find around your home. Many of these you don't even need to buy - you can just make them yourself! And this book takes the time to reveal how! If you are ready to take the path to becoming kinder to the environment, your wallet and most importantly, yourself, then click the BUY NOW button and start your journey to a healthy skin!
