This text details personal advertising in print and digital media, as well as online dating services, speed dating, the use of mobile dating apps and other topics. Interviews reveal the appeal and limitations of personal advertising for meeting people. A Million First Dates Dan Slater,2014-01-28 ** Previously published in hardcover as Love in the Time of Algorithms ** Once considered the realm of the lonely and desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than we imagine. He explores how these new technologies, by altering our perception of what's possible, are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators' ideas about profits, morality, and the nature of desire shape the virtual worlds they've created for us?

Entrepreneurship in the Wild Felipe G. Massa,2021-08-03 A learn-by-doing guide to developing, testing, and pitching a startup idea, balancing a pragmatic approach and rigorous academic content. This innovative book offers a learn-by-doing guide to entrepreneurship that balances practical advice with rigorous academic content. It introduces important concepts, provides highly engaging examples, and supplies the tools needed to put lessons into practice, creating a research-supported, step-by-step reference for developing, testing, and pitching any startup idea. By integrating lean startup principles, design thinking, and elements of the jobs-to-be-done framework, this combination textbook-workbook allows readers to choose for themselves whether, or to what extent, to engage with theory. All of the book's ten chapters encourage hands-on effort, providing readers with easy-to-follow steps, calls to action, and attainable milestones. Aspiring entrepreneurs will find this systematic approach to be more efficient than haphazard trial and error, and much more likely to yield concrete results. Chapters begin with a mini case, offering real-world examples of each step in the process. These cases--all featuring entrepreneurs working outside the Silicon Valley bubble--include a meadery operator that turned customers into advocates by designing compelling experiences and the development of a dating app for dog lovers that found a unique niche in a crowded market. Throughout, readers are immersed in the activity of starting a business, guided not only through the successful development of a startup but also to an understanding of the principles underlying entrepreneurship. The book can be used as a text in undergraduate and graduate classes and as a reference by entrepreneurs and innovators.

Love in the Time of Algorithms Dan Slater, 2013-01-24 "If online dating can blunt the emotional pain of separation, if adults can afford to be increasingly demanding about what they want from a relationship, the effect of online dating seems positive. But what if it's also the case that the prospect of finding an ever more compatible mate with the click of a mouse means a future of relationship instability, a paradox of choice that keeps us chasing the illusive bunny around the dating track?" It's the mother of all search problems: how to find a spouse, a mate, a date. The escalating marriage age and declining marriage rate mean we're spending a greater portion of our lives unattached, searching for love well into our thirties and forties. It's no wonder that a third of America's 90 million singles are turning to dating Web sites. Once considered the realm of the lonely and desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Thanks to the increasingly efficient algorithms that power these sites, dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone—young, old, straight, gay, and even married—can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than we imagine. He explores how these new technologies, by altering our perception of what's possible, are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Like the sexual revolution of the 1960s and '70s, the digital revolution is forcing us to ask new questions about what constitutes "normal": Why should we settle for someone who falls short of our expectations if there are thousands of other options just a click away? Can commitment thrive in a world of unlimited choice? Can chemistry really be quantified by math geeks? As one of Slater's subjects wonders, "What's the etiquette here?" Blending history, psychology, and interviews with site creators and users, Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators' ideas about profits, morality, and the nature of desire shape the virtual worlds they've created for us? Should we trust an industry whose revenue model benefits from our avoiding monogamy? Documenting the untold story of the online-dating industry's rise from ignominy to ubiquity—beginning with its early days as "computer dating" at Harvard in 1965—Slater offers a lively, entertaining, and thought provoking account of how we have, for better and worse, embraced technology in the most intimate aspect of our lives.

The Reproduction and Maintenance of Inequalities in Interpersonal Relationships Flockhart, Tyler Ross,Reiter, Abigail,Hassett, Matthew R.,2022-05-27 Contemporary racism, sexism, and heterosexism increasingly rely on less overt forms of discrimination that preserve, protect, and mask the power of the dominant group. This creates all manner of issues for people of color, women, and LGBTQ+ folks who must navigate a culture that increasingly sees discrimination and inequality as less severe or less pervasive than it was in the past. Indeed, despite the multitude of legal, social, and political advances made by these groups, inequality continues to persist, but often in a more subtle, covert, and invisible manner. The Reproduction and Maintenance of Inequalities in Interpersonal Relationships discusses the subtle ways racism, sexism, homophobia, and heterosexism persist in an era where many believe such inequalities are in the past and provides a comprehensive understanding of what inequality looks like in the contemporary world. Furthermore, the book examines how this inequality is reproduced in our everyday relationships. Covering topics such as discrimination and workplace relationships, this reference work is ideal for sociologists, psychologists, human resource professionals, academicians, scholars, researchers, practitioners, instructors, and students.

Love Party of One Kevin Hunter,2016-09-15 Love Party of One examines the current love and dating world and what to expect for anyone struggling with being single and longing for love. Author, Kevin Hunter, is a love expert in love with all things surrounding the word love since he arrived on this planet. He has been out in the field studying the human condition since he was a teenager. This has included conducting social experiments as well as diving head first into the areas of love and dating in his own personal life. One of the ways of surviving modern day dating and relationships in a loveless world is by armoring yourself with knowledge. This includes knowledge over the way things currently are. You've went to psychic readers, you've cast spells, you put yourself out there, did the vision boards, the crystal meditations, and other love rituals presented to you, but you still find you're desperately wishing the person of your dreams was here already. You grow cynical as if it will never happen and that you just have to accept the fact that perhaps it's not in the cards. Dating is a battlefield, be prepared to get dirty. Kevin Hunter is best known for his endless array of spiritually based books. In Love Party of One, he answers some of the practical issues that readers posed regarding their personal conflicts in the current dating market. This is a non-denominational book with some light spiritual slang for anyone struggling as a single person in a loveless world. This is regardless of age, background, or whether you are straight, bi, gay, male, or female. The dating market is an equal opportunity killer and no soul is exempt from the challenges they face when it comes to love. Some of the topics discussed surround technological dating, falling in love with someone you've never met, codependency, exes, communicating, compromise, sex, marriage, monogamy vs. adultery, ageism, and more! What Readers Have Said: As much as the author's personality seems to be the work of Picasso, I read the intro and first chapter of Love Party of One. I was glued to it, because I really can relate. The things Kevin Hunter touches on in this book are right-on. - A Reader Loved this book. This line really stood out to me: Desiring a love partner is not co-dependent...to equate a basic human need with desperation is absurd. - A Reader An amazing read. Realistic. The book touches upon confusions, thoughts, and emotions in one's journey to the find the one. Also relevant were a focus on couples issues after they are together. Issues such as infidelity and monogamy which is so significant in today's age. It was good to see the author reinstate the old school belief that true love is about that commitment. - A Reader Quite a bit of my dating struggles in my own consciousness I found to be already written down in this book. Love Party of One really vibes with me. Loved it. Thank you. - A Reader I have been reading this book and can't put it down! It's soooo good!!! Fantastic work Kevin Hunter! He should be a teacher in a school or college, or a counselor! This stuff he wrote in 'Love Party of One' is right to the point and on the mark! Damn he's good! His Archangel team guided him to a best seller in my opinion! I'm just about to start chapter 8 and each chapter is like, Damn, he's so right! He is good! Great job with this! What a gifted Angel and Wise One he is. A true Warrior for sharing the right stuff! Thank you! - A Reader
