Summer in Orcus T. Kingfisher, 2016 Summer is a perfectly ordinary 11 year old girl with a perfectly ordinary, needy, over protective single mother. Baba Yaga comes along in her magical walking house and offers Summer her heart's desire. Summer has no idea what this might be, but with the lighting of a frog-shaped beeswax candle she finds herself transported to the strange world of Orcus with nothing but a weasel in her pocket. Red Zone Baghdad Marcus Fielding, 2011-10-01 When Colonel Marcus Fielding returned home from his tour of duty in Baghdad, a taxi driver asked him what it was like being a soldier there. Marcus, an experienced veteran, found himself speechless – how could he properly explain to a civilian the nature of his work and his life during his tour? He mouthed a few platitudes but felt frustrated: he had not done justice to his experience or to his fellow soldiers still in Iraq. This book is the result of that frustration, and it provides fascinating insights into the conditions on the ground in a theatre of war that more than 20,000 Australian men and women have served. Marcus was deployed as an 'embed' in the final days of the Australian presence. By this time, the violence had subsided somewhat from the carnage of the first few years of Operation Iraqi Freedom, but with several crucial elections being held, sectarian terror nonetheless reared its frightening head on many occasions. From his 'office' in Saddam's former al-Faw Palace, Marcus finds himself more involved with nation-building than killing 'bad guys'. His tour is not so much about combat, guts and glory as it is about dealing with the vital issues associated with the elections and the Coalition troop draw-down. But he also paints a vivid picture of everyday life set against a backdrop of violence: the heat and dust, attending meetings in the Red Zone, the camaraderie of the cigar club, visits to orphanages and the morale-raising visits of US 'personalities'. There are few Australian books written about the contentious war in Iraq. *Red Zone Baghdad* presents a rare glimpse into the reality of an officer's war in our time.

Just Between You and Me Evelyn McCollum, 2009-05-05 This book is the first of a collection of four books of columns titled *Just Between You and Me*, Volume I, II, III, and IV. Since I wrote these columns in the eighties, many of them concern the joys and problems of raising a family. For instance, Marion could never keep a flashlight, and both he and the children kept destroying my spatulas. Just beginning my writing career, I had to search desperately for a corner for myself. Also, I share my thoughts on a wide variety of subjects, including inspirational thoughts, some of my favorite recipes, and my experience of going to college as a non-traditional student.

What It's Like to Be a Bird David Allen Sibley, 2020-04-14 The bird book for birders and nonbirders alike that will excite and inspire by providing a new and deeper understanding of what common, mostly backyard, birds are doing—and why: Can birds smell?; Is this the same cardinal that was at my feeder last year?; Do robins 'hear' worms? The book's beauty mirrors the beauty of birds it describes so marvelously. —NPR In *What It's Like to Be a Bird*, David Sibley answers the most frequently asked questions about the birds we see most often. This special, large-format volume is geared as much to nonbirders as it is to the out-and-out obsessed, covering more than two hundred species and including more than 330 new illustrations by the author. While its focus is on familiar backyard birds—blue jays, nuthatches, chickadees—it also examines certain species that can be fairly easily observed, such as the seashore-dwelling Atlantic puffin. David Sibley's exacting artwork and wide-ranging expertise bring observed behaviors vividly to life. (For most species, the primary illustration is reproduced life-sized.) And while the text is aimed at adults—including fascinating new scientific research on the myriad ways birds have adapted to environmental changes—it is nontechnical, making it the perfect occasion for parents and grandparents to share their love of birds with young children, who will delight in the big, full-color illustrations of birds in action. Unlike any other book he has written, *What It's Like to Be a Bird* is poised to bring a whole new audience to David Sibley's world of birds.

King Hancock Brooke Barbier, 2023-10-10 Today John Hancock is known for his signature, but during the revolutionary era, he was famed for his pragmatic statesmanship. Brooke Barbier explores Hancock's position as a revolutionary who nonetheless understood the value of compromise. By shunning political extremes, Hancock became hugely influential in the infant United States.

The Sky is Always There Camilla Carr, Jonathan James, 2013-08-15 In April 1997-98 Camilla Carr and Jon James set off as volunteers in a £500 Lada stacked high with toys, games, footballs, paints and a parachute. Their destination was Chechnya and their aim was to work with children who had been traumatised by war. After working for two months setting up and teaching in a rehabilitation centre and watching the children begin to smile and play again, they were kidnapped by Chechen guerrillas. There followed fourteen months of incarceration in homes that varied from a concrete box with no natural light or fresh air, to a pink trompe la oeil bedroom via a sauna and various cellars. They experienced everything from rape and mental torture to moments of compassion and kindness. They survived by using tools such as tai chi, yoga, meditation and humour; and through creating a dialogue with their captors, looking beneath their masks of fear and anger to reach the small flame of love and laughter unquenched by the demonising nature of war.

The Bird Way Jennifer Ackerman, 2021-05-04 From the New York Times bestselling author of *The Genius of Birds*, a radical investigation into the bird way of being, and the recent scientific research that is dramatically shifting our understanding of birds -- how they live and how they think. "There is the mammal way and there is the bird way." But the bird way is much more than a unique pattern of brain wiring, and lately, scientists have taken a new look at bird behaviors they have, for years, dismissed as anomalies or mysteries -- What they are finding is upending the traditional view of how birds conduct their lives, how they communicate, forage, court, breed, survive. They are also revealing the remarkable intelligence underlying these activities, abilities we once considered uniquely our own: deception, manipulation, cheating, kidnapping, infanticide, but also ingenious communication between species, cooperation, collaboration, altruism, culture, and play. Some of these extraordinary behaviors are biological conundrums that seem to push the edges of, well, birdness: a mother bird that kills her own infant sons, and another that selflessly tends to the young of other birds as if they were her own; a bird that collaborates in an extraordinary way with one species—ours—but parasitizes another in gruesome fashion; birds that give gifts and birds that steal; birds that dance or drum, that paint their creations or paint themselves; birds that build walls of sound to keep out intruders and birds that summon playmates with a special call—and may hold the secret to our own penchant for playfulness and the evolution of laughter. Drawing on personal observations, the latest science, and her bird-related travel around the world, from the tropical rainforests of eastern Australia and

the remote woodlands of northern Japan, to the rolling hills of lower Austria and the islands of Alaska's Kachemak Bay, Jennifer Ackerman shows there is clearly no single bird way of being. In every respect, in plumage, form, song, flight, lifestyle, niche, and behavior, birds vary. It is what we love about them. As E.O Wilson once said, when you have seen one bird, you have not seen them all.

A World on the Wing: The Global Odyssey of Migratory Birds Scott Weidensaul, 2021-03-30 New York Times Bestseller Finalist for the Los Angeles Times Book Prize A Library Journal Best Science and Technology Book of the Year An exhilarating exploration of the science and wonder of global bird migration. In the past two decades, our understanding of the navigational and physiological feats that enable birds to cross immense oceans, fly above the highest mountains, or remain in unbroken flight for months at a stretch has exploded. What we've learned of these key migrations—how billions of birds circumnavigate the globe, flying tens of thousands of miles between hemispheres on an annual basis—is nothing short of extraordinary. Bird migration entails almost unfathomable endurance, like a sparrow-sized sandpiper that will fly nonstop from Canada to Venezuela—the equivalent of running 126 consecutive marathons without food, water, or rest—avoiding dehydration by drinking moisture from its own muscles and organs, while orienting itself using the earth's magnetic field through a form of quantum entanglement that made Einstein queasy. Crossing the Pacific Ocean in nine days of nonstop flight, as some birds do, leaves little time for sleep, but migrants can put half their brains to sleep for a few seconds at a time, alternating sides—and their reaction time actually improves. These and other revelations convey both the wonder of bird migration and its global sweep, from the mudflats of the Yellow Sea in China to the remote mountains of northeastern India to the dusty hills of southern Cyprus. This breathtaking work of nature writing from Pulitzer Prize finalist Scott Weidensaul also introduces readers to those scientists, researchers, and bird lovers trying to preserve global migratory patterns in the face of climate change and other environmental challenges. Drawing on his own extensive fieldwork, in *A World on the Wing* Weidensaul unveils with dazzling prose the miracle of nature taking place over our heads.

Flesh thief Liu Chendong, The story took place in Miami in 1990. Now I want to tell the dream of a little vampire with a woman's soul and an angel's face, and my mortal friend David #8226; Talbot's dream. In addition, I would like to talk about some childhood dreams I spent in France, snowflakes in winter, my father's desolate and shabby castle in Great Afghan, and my trip to kill a group of wolves that disturbed a small village. Dreams can be as real as events, at least for me.

The White Peacock David Herbert Lawrence, 1999-06 Lawrence's first novel is a compelling exploration of the estrangements of modern life. Focusing on three relationships - one destructively stillborn, one disastrously unfulfilling, and one passionately unspoken - Lawrence exploits the language and conventions of the rural tradition to foreground man's alienation from the natural world. His evocation of the vanishing countryside of the English Midlands, as seen through the eyes of the effete Cyril Beardsall, is both vivid and arresting, and as the novel draws towards its tragic conclusion Lawrence handles his themes with an increasingly visionary power. *The White Peacock* is both a fascinating precursor of the more famous novels to come and a moving and challenging book in its own right.

The White Peacock D. H. Lawrence, 2022-11-13 *The White Peacock* is set in Nethermere (fictional name for real-life Eastwood) and is narrated by Cyril Beardsall, whose sister Laetitia is involved in a love triangle with two young men, George and Leslie Temple. She decides to marry Leslie, even though she feels sexually drawn to George. Spurned by Lettie, George marries the conventional Meg. Both his and Lettie's marriages end in

unhappiness, as George slides into alcoholism. The novel involves themes such as the damage associated with mismatched marriages, and the border country between town and country

Lawrence, 2023-11-25 E-artnow presents to you the greatest novels by one of the greatest novelists of English literature. This edition includes: The White Peacock The Trespasser Sons and Lovers The Rainbow Women in Love The Lost Girl Aaron's Rod Kangaroo The Boy in the Bush The Plumed Serpent Lady Chatterley's Lover The Man Who Died (The Escaped Cock) The Ladybird The Fox The Captain's Doll St Mawr The Virgin and the Gypsy The Savage Pilgrimage - A Biography of D. H. Lawrence by Catherine Carswell D. H. Lawrence is best known for his novels Sons and Lovers, The Rainbow, Women in Love and Lady Chatterley's Lover. In these books, Lawrence explores the possibilities for life within an industrial setting. In particular Lawrence is concerned with the nature of relationships that can be had within such a setting. Though often classed as a realist, Lawrence in fact uses his characters to give form to his personal philosophy. His depiction of sexuality, though seen as shocking when his work was first published in the early 20th century, has its roots in this highly personal way of thinking and being. In his later years Lawrence developed the potentialities of the short novel form in The Ladybird, The Fox, The Captain's Doll, St Mawr, The Virgin and the Gypsy and The Escaped Cock.
