Hero of the Angry Sky David S. Ingalls,2013-01-16 Hero of the Angry Sky draws on the unpublished diaries, correspondence, informal memoir, and other personal documents of the U.S. Navy's only flying "ace" of World War I to tell his unique story. David S. Ingalls was a prolific writer, and virtually all of his World War I aviation career is covered, from the teenager's early, informal training in Palm Beach, Florida, to his exhilarating and terrifying missions over the Western Front. This edited collection of Ingalls's writing details the career of the U.S. Navy's most successful combat flyer from that conflict. While Ingalls's wartime experiences are compelling at a personal level, they also illuminate the larger, but still relatively unexplored, realm of early U.S. naval aviation. Ingalls's engaging correspondence offers a rare personal view of the evolution of naval aviation during the war, both at home and abroad. There are no published biographies of navy combat flyers from this period, and just a handful of diaries and letters in print, the last appearing more than twenty years ago. Ingalls's extensive letters and diaries add significantly to historians' store of available material.

From the Stars in the Sky to the Fish in the Sea Kai Cheng Thom,Kai Yun Ching,2017-10-16 In the magical time between night and day, when both the sun and the moon are in the sky, a child is born in a little blue house on a hill. And Miu Lan is not just any child, but one who can change into any shape they can imagine. The only problem is they can't decide what to be: A boy or a girl? A bird or a fish? A flower or a shooting star? At school, though, they must endure inquisitive looks and difficult questions from the other children, and they have trouble finding friends who will accept them for who they are. But they find comfort in the loving arms of their mother, who always offers them the same loving refrain: whatever you dream of / i believe you can be / from the stars in the sky to the fish in the sea. In this captivating, beautifully imagined picture book about gender, identity, and the acceptance of the differences between us, Miu Lan faces many questions about who they are and who they may be. But one thing's for sure: no matter what this child becomes, their mother will love them just the same. Kai Cheng Thom is a writer, performance artist, and psychotherapist in Toronto. Her first poetry book, a Place Called No Homeland, was published in 2017. Kai Yun Ching is a community-based organizer, educator, and illustrator in Montreal. Wai-Yant Li is a ceramics artist and illustrator in Montreal.

Hey! Listen! Andrew S. Latham,2024-01-18 How does analyzing video games as hypertexts expand the landscape of research for video game rhetoricians and games studies scholars? This is the first book to focus on how hypertext rhetoric impacts the five canons of rhetoric, and to apply that hypertext rhetoric to the study of video games. It also explores how ludonarrative agency is seized by players seeking to express themselves in ways that game makers did not necessarily intend when making the games that players around the world enjoy. This book takes inspiration from The Legend of Zelda, a series which players all over the world have spent decades deconstructing through online playthroughs, speedruns, and glitch hunts. Through these playthroughs, players demonstrate their ability to craft their own agency, independent of the objectives built by the makers of these games, creating new rhetorical situations worthy of analysis and consideration.

The Tôkaidô Road Jilly Traganou,2004-08-02 The Tôkaidô Road offers a comparative study of the Tôkaidô road's representations during the Edo (1600-1868) and Meiji (1868-1912) eras. Throughout the Edo era, the Tôkaidô highway was the most important route of Japan and transportation was confined to foot travel. In 1889, the Tôkaidô Railway was established, at first paralleling and eventually almost eliminating the use of the highway. During both periods, the Tôkaidô was a popular topic of representation and was depicted in a variety of visual and literary media. After the installation of the railway in the Meiji era, the Tôkaidô was presented as a landscape of progress, modernity and westernisation. Such representations were fundamental in shaping the Tôkaidô and the realm of travelling in the collective consciousness of the Japanese people.
