He Used Thought as a Wife Tim Key,2021-02-18 In March, Tim Key got locked down, found an orange pen and started writing poems. Then he started writing down his conversations. Zoom, phone, yelled heart-to-hearts from kitchen window to pavement. This book is the result. A paperback account of one man's experience of the most peculiar moment in our recent history--Publisher's description.

39 Ways to Save the Planet Tom Heap,2021-10-14 We got ourselves into this. Here's how we can get ourselves out. We know the problem: the amount of biodiversity loss, the scale of waste and pollution, the amount of greenhouse gas we pump into the air... it's unsustainable. We have to do something. And we are resourceful, adaptable and smart. We have already devised many ways to reduce climate change - some now proven, others encouraging and craving uptake. Each one is a solution to get behind. In 39 Ways to Save the Planet, Tom Heap reveals some of the real-world solutions to climate change that are happening around the world, right now. From tiny rice seeds and fossil fuel free steel to grazing elk and carbon-capturing seagrass meadows, each chapter reveals the energy and optimism in those tackling the fundamental problem of our age. Accompanying a major BBC Radio 4 series in collaboration with the Royal Geographical Society, 39 Ways to Save the Planet is a fascinating exploration of our attempt to build a better future, one solution at a time. A roadmap to global action on climate change, it will encourage you to add your own solutions to the list.

The Rise of 24-hour News Television Stephen Cushion,Justin Lewis,2010 De-westernising journalism studies in an intelligent way, this book deserves to be read around the world.---Professor James Curran, Goldsmiths, University of London, United Kingdom --

How To Lose A Referendum Jason Farrell,Paul Goldsmith,2017-06-26 Did David Cameron have to call a referendum? Did history put a gun to his head? And was Britain's departure from the EU destined from the moment he called it? Was it a lost cause, or did the Prime Minister lose it? Sky News senior political correspondent Jason Farrell teams up with political blogger and economics and politics teacher Paul Goldsmith to provide the definitive story of one of the biggest shocks in British political history. Probing into the social fabric of the UK, the psyche of the electorate, and seventy years of European history, Farrell and Goldsmith identify eighteen key reasons why the UK made its choice, from Britain's absence at the birth of the European project to the inflammatory rhetoric of one Nigel Farage, and everything in between. How to Lose a Referendum is the product of extensive and refreshingly frank interviews with the key players from both campaigns coupled with a wide-ranging exploration of the historical context around Britain's departure. Why was a project designed for common peace and prosperity ultimately so hard to defend? Whether you're a Leaver or a Remainer, a newcomer to the debate or a battle-hardened politico, this nuanced and thoughtful analysis will change the way you look at Britain's vote for Brexit.

Learn and understand this lot and you will have a fine grasp' Jon Snow 'This sets the standard for every radio newsroom' - Andy Ivy, Editor, Sky News Radio In an age of infinite choice made possible by new technology, and a disturbing move away from traditional reporting into colourful comment and speculation by blogs and `citizen journalists' there has never been a better time to focus on pure journalism skills. Essential Radio Journalism is a vastly comprehensive working manual for radio journalists as well as a textbook for broadcast journalism students. It contains practical advice for gathering, reporting, writing, editing and presenting, the news, alongside media law and ethics. This is a book to inspire responsible, accurate and exceptional journalism skills.

The Future of 24-hour News Stephen Cushion,Richard Sambrook,2016 Following on from The Rise of 24-Hour News Television: Global Perspectives (Cushion and Lewis, 2010), this volume explores new challenges and pressures facing television news channels, and considers the future of 24-hour news.

Vaccine-Nation Andreas Moritz,2011-03 Author of a dozen books, including the bestselling Timeless Secrets of Rejuvenation and Health and Cancer is Not a Disease, Andreas Moritz takes on yet another controversial subject, this time to expose the Vaccine Myth. In Vaccine-nation, Moritz unravels the mother of all vaccine lies - that vaccines are safe and they prevent disease. Furthermore, he reveals undeniable scientific proof that vaccines are actually implicated in most common diseases today.This book reveals: Statistical evidence that vaccines never actually eradicated infectious diseases, including polio. How childhood vaccines, flu shots and other kinds of inoculations systemically destroy the body's immune system. The massive increase of allergies, Eczema, Arthritis, Asthma, Autism, Acid reflux, Cancer, Diabetes (infant and childhood), Kidney disease, Miscarriages, many Neurological and Autoimmune diseases, and Sudden Infant Death Syndrome (SIDS) is largely due to vaccines. Why vaccinated children have 120% more Asthma, 317% more ADHD, 185% more Neurologic disorders, and 146% more Autism than those not vaccinated. The shocking fact that most outbreaks of infectious diseases occur largely among those who are fully vaccinated. Vaccines lack long-term safety testing and most vaccine side-effects are never reported to protect vaccine-makers from liability suits.For many decades we have all been led to believe that vaccines have eradicated the most dreaded infectious diseases, including polio, although to this day there is no scientific evidence to support this theory. On the other hand, indisputable scientific data reveal that childhood vaccines, flu shots and other kinds of inoculations are responsible for the dramatic decline of natural immunity among millions of children, adults, and members of the older population. With each new shot received, the immune system becomes weaker and permanently damaged, thereby laying the ground for potentially debilitating illnesses to develop in the future.Reaching deep into the vaccine cartel, Moritz uncovers hard facts to prove that profit - not public health - is the sole motive behind the vaccine-pushers' chicanery. In this book, he also digs up the real reasons behind the 2009 swine flu outbreak or the pandemic that didn't pan out. In Vaccine-nation, Moritz minces no words while unraveling these and other skeletons in Big Pharma's closet and cautions you not to buy into the hollow claims of vaccine makers. In his characteristic style, Moritz offers a gentle and practical approach to a disease-free life, which rests on the fulcrum of the mind-body connection, cleansing of the body, and naturally healthy living.

News and Journalism in the UK Brian McNair,1996 Written especially for students, this work provides an introduction to the political, economic and regulatory environments of British press and broadcast journalism. It surveys the industry in a period of radical change, taking stock of what the British journalistic media have come through in the 1980s and 1990s and providing professional perspectives on journalism. The main issues now confronting the industry are identified, and the text includes separate chapters devoted to the social history and contemporary role of journalism, analysis of the impact of such key events as the Wapping revolution and the establishment of Sky news on regional and national UK journalism. This edition includes discussion of such issues as: the changing political allegiances of the Murdoch press; the impact of the newspaper price war on circulation; the fortunes of the Mirror Group post-Maxwell; and key changes in press ownership such as the sales of the Observer and Thomson Regional Newspapers.

Under a White Sky Elizabeth Kolbert,2022-04-05 NATIONAL BESTSELLER • The Pulitzer Prize-winning author of The Sixth Extinction returns to humanity's transformative impact on the environment, now asking: After doing so much damage, can we change nature, this time to save it? RECOMMENDED BY PRESIDENT OBAMA AND BILL GATES • SHORTLISTED FOR THE WAINWRIGHT PRIZE FOR WRITING • ONE OF THE TEN BEST BOOKS OF THE YEAR: The Washington Post • ONE OF THE BEST BOOKS OF THE YEAR: Time, Esquire, Publishers Weekly, Kirkus Reviews • "Beautifully and insistently, Kolbert shows us that it is time to think radically about the ways we manage the environment."—Helen Macdonald, The New York Times With a new afterword by the author That man should have dominion "over all the earth, and over every creeping thing that creepeth upon the earth" is a prophecy that has hardened into fact. So pervasive are human impacts on the planet that it's said we live in a new geological epoch: the Anthropocene. In Under a White Sky, Elizabeth Kolbert takes a hard look at the new world we are creating. Along the way, she meets biologists who are trying to preserve the world's rarest fish, which lives in a single tiny pool in the middle of the Mojave; engineers who are turning carbon emissions to stone in Iceland; Australian researchers who are trying to develop a "super coral" that can survive on a hotter globe; and physicists who are contemplating shooting tiny diamonds into the stratosphere to cool the earth. One way to look at human civilization, says Kolbert, is as a ten-thousand-

year exercise in defying nature. In *The Sixth Extinction*, she explored the ways in which our capacity for destruction has reshaped the natural world. Now she examines how the very sorts of interventions that have imperiled our planet are increasingly seen as the only hope for its salvation. By turns inspiring, terrifying, and darkly comic, *Under a White Sky* is an utterly original examination of the challenges we face.

Breaking News Jeremy Thompson,2017-11-14 Until his retirement at the end of 2016, Jeremy Thompson was one of the longest-serving journalists and news anchors in the UK. During a forty-year career in television news, Thompson gained a reputation as the consummate broadcaster, latterly as the anchor of Sky News' early evening programme, though as frequently broadcasting on location from the heart of the story. Thompson worked for all the major news broadcasters in the UK: the BBC, ITV and finally Sky, where he started as a foreign correspondent in 1993. He covered many of the most important news events of our time and reported from all over the world, picking up countless awards for his work. The first TV journalist to broadcast live as British peacekeeping forces arrived in Kosovo, he also covered the first Gulf War and, in 2003, anchored Sky News' coverage of the second Gulf War from Iraq. There he presented every night for a month on the front line and was the first anchor to present from inside Baghdad. He was also in South Africa to cover the death of Nelson Mandela and the murder trial of Oscar Pistorius. This extraordinary book tells the life story of one of the nation's most popular broadcasters.

Broken Sky L.A. Weatherly,2016-03-01 Welcome to a 'perfect' world. Where war is illegal, where harmony rules. And where your date of birth marks your destiny. But nothing is perfect. And in a world this broken, who can Amity trust? Set in a daring and distorted echo of 1940s America, *Broken Sky* is an exhilarating epic of deception, heartbreak and rebellion.

RYAN SCHOOL OF AERONAUTICS SKY NEWS, 1935-1944 RYAN SCHOOL OF. AERONAUTICS,2019
High Above Chris Forrester,2011-08-28 Frequently it is suggested that the 'golden age' of television was during the period 1950-1960. It is true that television almost ruined Hollywood's fortunes during this period. But if this was the authentic golden age, then it was an age of black and white, somewhat limited creativity, poor reception, lack of competition (except in the United States) and - by and large - public service broadcasting. However, if we take 1950 as a generic 'starting point' for modern television broadcasting, then we talk about a kind of prehistoric stage of the medium - in which it remained for the best part of three decades. The younger days of broadcasting were the 1980s; the time when commercial television started on a large scale and, in this youth, was getting younger in terms of programming. Luxembourg-based SES Astra appeared on the scene at exactly this time. Astra was instrumental in the dramatic developments in television that we have witnessed since then. This is the story we want to tell in this book. Without satellite technology and the success of satellite reception, without the resulting mass-market penetration of television sets and general economic prosperity we would not have the necessary base ingredients to make the great leap forward into digital, into HDTV, 3D-television, and the prospects of Ultra High Definition now in sight.

The Blade Artist Irvine Welsh,2016-04-07 'Back to his violent best...dark, gruesome and captivating' Esquire The most terrifying character from *Trainspotting* returns. Jim Francis has finally found the perfect life - and is now unrecognisable, even to himself. A successful painter and sculptor, he lives quietly with his wife, Melanie, and their two young daughters, in an affluent beach town in California. Some say he's a fake and a con man, while others see him as a genuine visionary. But Francis has a very dark past, with another identity and a very different set of values. When he crosses the Atlantic to his native Scotland, for the funeral of a murdered son he barely knew, his old Edinburgh community expects him to take bloody revenge. But as he confronts his previous life, all those friends and enemies - and, most alarmingly, his former self - Francis seems to have other ideas. When Melanie discovers something gruesome in California, which indicates that her husband's violent past might also be his psychotic present, things start to go very bad, very quickly. *The Blade Artist* is an elegant, electrifying novel - ultra violent but curiously redemptive - and it marks the return of one of modern fiction's most infamous, terrifying characters, the incendiary Francis Begbie from *Trainspotting*.

A Rope from the Sky Zach Vertin,2019-01-01 The untold story of America's attempt to forge a nation from scratch, from euphoric birth to heart-wrenching collapse. South Sudan's independence was celebrated around the world—a triumph for global justice and an end to one of the world's most devastating wars. But the party would not last long: South Sudan's freedom fighters soon plunged their new nation into chaos, shattering the promise of liberation and exposing the hubris of their foreign backers. Chronicling extraordinary stories of hope, identity, and survival, *A Rope from the Sky* journeys inside an epic tale of paradise won and then lost. This character-driven narrative is first a story of power, promise, greed, compassion, violence, and redemption from the world's most neglected patch of territory. But it is also a story about the best and worst of America—both its big-hearted ideals and its difficult reckoning with the limits of American power amid a changing global landscape. Zach's Vertin's firsthand accounts, from deadly war zones to the halls of Washington power, brings readers inside this remarkable episode—an unprecedented experiment in state-building and a cautionary tale. It is brilliant and breathtaking, a moder-day Greek tragedy that will challenge our perspectives on global politics.
