**Henry E. Fettis, James C. Caslin**

**Oil, Nationalism and British Policy in Iran** Jack Taylor,2023-12-28 As new nations were formed from the declining British Empire, a murky world of diplomats, oil executives and spies were determined to maintain London's grip on Iran and its strategic oil reserves. Directed from Whitehall by successive governments, this book explores the complexities and ambiguities of British policy in Iran and demonstrates its centrality to post-war imperial reorientation. Situating Iran within Britain's 'informal empire,' Jack Taylor demonstrates that Clement Attlee's Labour Government saw Iranian oil as critical to the construction of a domestic New Jerusalem, and used coercion, propaganda, and espionage to preserve their control over it. In doing so, they were forced to confront not only the emerging Cold War, but local resistance expressed through diverse forms including trade unionism, Soviet-inspired Marxism, and popular nationalism. Oil, Nationalism and British Policy in Iran offers new insight into the scale of British interference in Iran and its ultimate failure. It reveals that as London's policy floundered the United States independently took steps to safeguard their own regional economic and security interests. Although British actors were critical in the operation to depose Prime Minister Mohammad Mossadegh following his government's nationalisation of the oil industry, they were ultimately unable to sustain their informal empire in Iran.

*A Table of the Inverse Sine-amplitude Function in the Complex Domain* Henry E. Fettis,James C. Caslin,1972 Let  $z = sn(w, k)$  be the Jacobian sine-amplitude function. The tables list five-D values of the quantity  $w = u + iv$  where  $z$  is given by  $z = a + ib$ , for some given values. The values of  $u$  and  $v$  are expressed as decimal portions of the quarter-period  $K$  and  $K'$  respectively.

The Struggle for Iran David S. Painter,Gregory Brew,2022-12-06 Beginning with the nationalization of the Iranian oil industry in spring 1951 and ending with its reversal following the overthrow of Prime Minister Mohammad Mosaddeq in August 1953, the Iranian oil crisis was a crucial turning point in the global Cold War. The nationalization challenged Great Britain's preeminence in the Middle East and threatened Western oil concessions everywhere. Fearing the loss of Iran and possibly the entire Middle East and its oil to communist control, the United States and Great Britain played a key role in the ouster of Mosaddeq, a constitutional nationalist opposed to communism and Western imperialism. U.S. intervention helped entrench monarchical power, and the reversal of Iran's nationalization confirmed the dominance of Western corporations over the resources of the Global South for the next twenty years. Drawing on years of research in American, British, and Iranian sources, David S. Painter and Gregory Brew provide a concise and accessible account of Cold War competition, Anglo-American imperialism, covert intervention, the political economy of global oil, and Iran's struggle against autocratic government. The Struggle for Iran dispels myths and misconceptions that have hindered understanding this pivotal chapter in the history of the post-World War II world.
