Computer Vision and Graphics K. Wojciechowski, B. Smolka, H. Palus, R.S. Kozera, W. Skarbek, L. Noakes, 2006-03-11 As the speed, capabilities, and economic advantages of modern digital devices continue to grow, the need for efficient information processing, especially in computer vision and graphics, dramatically increases. Growth in these fields stimulated by emerging applications has been both in concepts and techniques. New ideas, concepts and techniques are developed, presented, discussed and evaluated, subsequently expanded or abandoned. Such processes take place in different forms in various fields of the computer science and technology. The objectives of the ICCVG are: presentation of current research topics and discussions leading to the integration of the community engaged in machine vision and computer graphics, carrying out and supporting research in the field and finally promotion of new applications. The ICCVG is a continuation of the former International Conference on Computer Graphics and Image Processing called GKPO, held in Poland every second year in May since 1990, organized by the Institute of Computer Science of the Polish Academy of Sciences, Warsaw and chaired by the Editor of the International Journal of Machine Graphics and Vision, Prof. Wojciech S. Mokrzycki.

Aramay Alan Stapf,2018-02-06 Aramay is defiant, attractive and intelligent. Shes an empath who feels peoples emotions. Resiliency and strength are part of her nature as being an empath carries a burden. In the silence of slumber she sometimes finds moments of peace in her dreams, her paradise; but when she awakes it is to the emotions of others at the mercy of their fears, anger and arrogance. She works for the Federation as a behaviourist although her associates consider her a lone wolf since Aramay holds very different views from theirs. In the wilds of Siberia and Mongolia, where their operation is played out, they work together to capture (or eliminate) the natives and where their actions are broadcast to the Federation populations as a reality show. Aramays views eventually lead to a clash of personalities in the midst of their mission. She is set as an outcast by the majority because of her ethereal abilities, especially when she becomes sympathetic towards the natives. She begins to wonder if she is right, and what is the truth? Yet even Aramay, with all her intuition and perception, is unaware of the natives true potential and their extraordinary goal.
