Zeitgeist 2025 Thomas R. Horn, 2021-07-15 Before and after the presidency of Donald Trump, the United States was--and now is again--on an intentional trajectory to fulfill what famous Freemason Manly P. Hall described as The Secret Destiny of America. Hall's book includes future national and global subservience to the god of Freemasonry, a deity most Americans would not imagine when reciting the pledge of allegiance to one nation under God. Unknown to most Americans and certainly many Christians is the fact that the Great Seal of the United States is a prophecy hidden in plain sight by the Founding Fathers for more than two hundred years, foretelling the return of this terrifying, demonic god who seizes control of Earth in the New Order of the Ages. This supernatural entity was known and feared in ancient times by different names: Apollo, Osiris, and even farther back as Nimrod, whom Masons consider to be the father of their institution.

The Good Fight Danielle Steel, 2018-07-10 NEW YORK TIMES BESTSELLER • Against the electrifying backdrop of the 1960s, Danielle Steel unveils the gripping chronicle of a young woman discovering a passion for justice and of the unsung heroes she encounters on her quest to fight the good fight. The daughter and granddaughter of prominent Manhattan lawyers, Meredith McKenzie is destined for the best of everything: top schools, elite social circles, the perfect marriage. Spending her childhood in Germany as her father prosecutes Nazi war criminals at the Nuremberg trials, Meredith soaks up the conflict between good and evil as it plays out in real time. When her family returns to the United States, she begins blazing her own trail, swimming against the tides, spurred on by her freethinking liberal grandfather, determined to become a lawyer despite her traditional, conservative father's objections. She rebels against her parents' expectations for her debutante ball and other conventions. She forges a lifelong friendship with a young German Jewish woman whose family died in the concentration camps. And while her grandfather rises to the Supreme Court, Meredith enlists in the most pressing causes of her time, fighting for civil rights and an end to the Vietnam War. From the bright morning of JFK's inauguration, through the tumultuous years that follow as America hurtles toward the twin assassinations of Martin Luther King Jr. and Bobby Kennedy, Meredith joins the vanguard of a new generation of women, breaking boundaries socially, politically, and professionally. But when the violence of the era strikes too close to home, her once tightly knit family must survive a devastating loss and rethink their own values and traditions in light of the times. Encompassing the remarkable people Meredith meets, the historic events she witnesses, and the sacrifices she must make, this is the story of a woman changing her world as she herself is changed by it. Beautifully told, brimming with unforgettable moments and characters, *The Good Fight* is an inspiring, uplifting novel with resonance for our own time.

Remote Sensing Image Processing Gustavo Camps-Valls, Devis Tuia, Luis Gómez-Chova, Sandra Jiménez, Jesus Malo, 2022-06-01 Earth observation is the field of science concerned with the problem of monitoring and modeling the processes on the Earth surface and their interaction with the atmosphere. The Earth is continuously monitored with advanced optical and radar sensors. The images are analyzed and processed to deliver useful products to individual users, agencies and public administrations. To deal with these problems, remote sensing image processing is nowadays a mature research area, and the techniques developed in the field allow many real-life applications with great societal value. For instance, urban monitoring, fire detection or flood prediction can have a great impact on economical and environmental issues. To attain such objectives, the remote sensing community has turned into a multidisciplinary field of science that embraces physics, signal theory, computer science, electronics and communications. From a machine learning and signal/image processing point of view, all the applications are tackled under specific formalisms, such as classification and clustering, regression and function approximation, data coding, restoration and enhancement, source unmixing, data fusion or feature selection and extraction. This book covers some of the fields in a comprehensive way. Table of Contents: Remote Sensing from Earth Observation Satellites / The Statistics of Remote Sensing Images / Remote Sensing Feature Selection and Extraction / Classification / Spectral Mixture Analysis / Estimation of Physical Parameters

Modi's India Christophe Jaffrelot, 2023-04-11 A riveting account of how a popularly elected leader has steered the world's largest democracy toward authoritarianism and intolerance Over the past two decades, thanks to Narendra Modi, Hindu nationalism has been coupled with a form of national-populism that has ensured its success at the polls, first in Gujarat and then in India at large. Modi managed to seduce a substantial number of citizens by promising them development and polarizing the electorate along ethno-religious lines. Both facets of this national-populism found expression in a highly personalized political style as Modi related directly to the voters through all kinds of channels of communication in order to saturate the public space. Drawing on original interviews conducted across India, Christophe Jaffrelot shows how Modi's government has moved India toward a new form of democracy, an ethnic democracy that equates the majoritarian community with the nation and relegates Muslims and Christians to second-class citizens who are harassed by vigilante groups. He discusses how the promotion of Hindu nationalism has resulted in attacks against secularists, intellectuals, universities, and NGOs. Jaffrelot explains how the political system of India has acquired authoritarian features for other reasons, too. Eager to govern not only in New Delhi, but also in the states, the government has centralized power at the expense of federalism and undermined institutions that were part of the checks and balances, including India's Supreme Court. *Modi's India* is a sobering account of how a once-vibrant democracy can go wrong when a government backed by popular consent suppresses dissent while growing increasingly intolerant of ethnic and religious minorities.

The Lost Prophecies of Qumran Josh Peck, 2021-09-15 Who could have known how much influence the writings of a mysterious group of prophets and scribes hundreds of years before Christ would have on our understanding of end times prophecy? As it turns out, much of what we've been taught about Israel in the First Century is incomplete. There were, in fact, Jewish believers who knew exactly what to expect in the coming Messiah: that He would be God in the flesh and would die for our sins. If they accurately predicted the first arrival of Jesus, what did they say about His soon return? In this groundbreaking book, you will learn: How an ancient Jewish calendar actually predicts the year 2025 AD as prophetically significant? How the enigmatic group, known as the Essenes, formed and what influence they had over the New Testament? Lost prophecies only recently discovered in the Dead Sea Scrolls about our time today? What messages the Essenes left behind for believers living in this present age? How the prophecies of Daniel and Revelation fit within the ancient Essene timetable? What hidden feasts and festivals the Essenes observed and what they point to in the future? What were the circumstances of the disappearance of the Essenes and how it connects to every Christian from the past two thousand years? Once you learn about the Essenes and the Dead Sea Scrolls they left behind, you will understand the entirety of the Bible in a brand new light. Finally, the

prophetic texts of Scripture can be understood as originally intended. Discover what God is revealing in these final years of our current age and what is ahead in the next age, soon to come!

Tipping Point Jimmy Evans,2020-07-07 The prophetic clock is ticking. We are living in tumultuous times. From corrupt world politics to global pandemics to an unprecedented rebellion against God and His Word, humanity has reached a critical stage. What happens next? In this eye-opening book, Jimmy Evans examines biblical prophecies about the end times and points to their unmistakable parallels with today’s world. With clear, insightful analysis of Scripture, he answers many common questions, such as: • Are we living in the end times? • How should Believers respond to increasing immorality? • Will Christians go through the Tribulation? • What role does Israel play in God’s prophetic plan? • Are COVID-19 and other world events announcing the imminent return of Jesus? Ultimately, *Tipping Point* will help you understand current events with confidence. There is no going back, but hope and peace are possible as God’s plan unfolds and we approach the end of the age. Jimmy Evans is senior pastor of Gateway Church in the Dallas/Fort Worth Metroplex and holds an honorary doctorate of literature from The King’s University. In addition to authoring more than seventeen books, Jimmy has studied eschatology for more than 45 years and is passionate about helping believers find hope, peace, and encouragement in the Word of God.

Some Die Nameless Wallace Stroby,2018-07-10 An ex-mercenary and an embattled journalist find themselves unlikely allies against a corrupt defense contractor in this noir beach read (New York). Ray Devlin is retired, living a simple life off the grid in Florida, when a visit from an old colleague stirs some bad memories -- and ends with a gunshot. Soon Devlin is forced to again face a past he'd hoped to leave behind, as a member of a mercenary force that helped put a brutal South American dictator into power. Tracy Quinn is an investigative reporter at a struggling Philadelphia newspaper decimated by layoffs and cutbacks. Then one day what appears to be a straightforward homicide -- a body left in an abandoned rowhouse -- draws her and Devlin together, and ultimately enmeshes both in a conspiracy that stretches over twenty years and reaches to the highest levels of the U.S. government. Before long, they're both the targets of a ruthless assassin haunted by his own wartime experiences. For Devlin, it could all mean a last shot at redemption. For Tracy, the biggest story of her career just might cost her life.
