EMMA PASS

📖 ENGAGING VIRTUAL ENVIRONMENTS JOANNE RICEVUTO, LAURA McLAUGHLIN, 2023-07-03 In a classroom setting interaction among students is the norm. How do you replicate that informality, spontaneity, and focus online? This book provides you with a framework to think about the different kinds of engagement you want to foster -- whether participation, collaboration, or quick feedback -- and then introduces you to available online tools, some of which may be in your LMS, offers practical tips, and guides you to how make the most of commonly available technologies to achieve your goals. Within the context and progression of a course -- from developing a welcome page, presenting yourself and the purpose of your course, to icebreakers, assignments, and alternative forms of assessment -- the authors introduce you to a range of easy-to-use online tools that they have introduced to the faculty and teachers in their classes, and that foster active learning and student engagement. In doing so they provide a checklist that you can also access and print from the Web, to help you review additional tools from the wide and ever-growing range of tools that are available online and determine whether they are appropriate for what you want to accomplish. This book will help you connect with students, whether you're teaching synchronously or asynchronously, regardless of the devices students may be using; develop community; and introduce you to gamification to add enjoyment and variety to your students' experience of your class. Recognizing that using new tools with confidence requires practice, the authors offer ideas for implementing them in private online spaces. Each chapter concludes with reflection questions that can be addressed individually by the reader or within a learning community to encourage faculty to work together and support each other in virtual teaching and learning. This book addresses the challenge of embracing new models of course offerings to students in the evolving landscape of virtual learning.

📖 INCLUSIVE LEARNING 365 CHRISTOPHER BUGAJ, KAREN JANOWSKI, MIKE MAROTTA, BETH POSS, 2022-08-03 Designed to be read one day -- and page -- at a time, this book from four inclusive learning experts offers 365 strategies for implementing technology to design inclusive experiences. Educators across the world are working to design individualized instruction that empowers every student to become experts at learning. Technology and instructional interventions designed to support students with disabilities often eventually become mainstream and used by the masses. These practices provide a pathway for designing inclusive, equitable and accessible educational experiences that meet the needs of every individual learner. This engaging book includes daily strategies accompanied by examples of tools that can be implemented immediately to design meaningful instruction. Topics covered include role-playing games for social-emotional learning, building literacy through captioned video, coding to teach early literacy, text-to-speech for math and reading, and much more! Each daily strategy includes: • Explanation of how to use the strategy to design inclusive educational experiences. • Examples of tools that can be used to implement the strategy. • Alternative ways to use the strategy to extend student learning. • Images illustrating the strategy or tool. • Identification of relevant ISTE Standards for Educators and ISTE Standards for Students. Related resources. The heart of the book is the shift in mindset that occurs by exploring a different practical, inclusive strategy each day and infusing these strategies into everyday practice.
