Slides for Students Gary D. Fisk, 2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. *Slides for Students* does just that. *Slides for Students* is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, *Slides for Students* discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.

Family of Earth Wilma Dykeman, 2016-09-02 Discovered as a typewritten manuscript only after

her death in 2006, *Family of Earth* allows us to see into the young mind of author and Appalachian native Wilma Dykeman (1920–2006), who would become one of the American South's most prolific and storied writers. Focusing on her childhood in Buncombe County, Dykeman reveals a perceptive and sophisticated understanding of human nature, the environment, and social justice. And yet, for her words' remarkable polish, her voice still resonates as raw and vital. Against the backdrop of early twentieth-century life in Asheville, she chronicles the touching, at times harrowing, story of her family's fortunes, plotting their rise and fall in uncertain economic times and ending with her father's sudden death in 1934 when she was fourteen years old. Featuring a new foreword by fellow North Carolinian Robert Morgan, *Family of Earth* stands as a new major literary work by a groundbreaking author.

Confessions of a Viscount Shirley Karr, 2021-10-04 The Naked Truth . . . Alistair, Viscount Moncreiffe, is much more interested in celestial bodies than the conniving ladies who are trying to trap the astronomer into marriage. But when dauntless, determined Charlotte Parnell literally drops into his arms one night, he's quick to tender a marriage proposal when they are discovered in this scandalous position. Better a Spy Than a Bride . . . Charlotte would rather continue spying for the Crown than obey her brother's wishes that she marry and live a quiet life. She's determined to solve

an important and dangerous case before he does. After a misstep on a London rooftop lands her in Viscount Moncreiffe's embrace, the handsome scholar's offer of a fake betrothal will simplify life for both of them. With a fiancé by her side, she'll arouse fewer suspicions. They'll end their engagement once her mission is completed. A close call has Alistair realizing his emotions are real, and he confesses he wants their engagement to end ... in marriage. But Charlotte's plans for her future don't include a husband or a new partner. Will she have to give up the independence she's fought so hard for in exchange for the love Alistair offers? Originally published in 2006. Lightly edited for 2021 as part of the Scandalous Ladies series. Each book in the series can be read as a stand-alone -- each is a complete story arc with no cliffhangers -- though most readers prefer to read them in the order published.

The Secret of Our Success Joseph Henrich, 2017-10-17 How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to

survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

The Red Labyrinth Meredith Tate, 2019-06-04 To save her kidnapped best friend and crush, Zadie must complete an enchanted deadly labyrinth riddled with illusions. Her only hope of survival

depends on forming an alliance with the only person who knows the safe path through—a murderous boy she can't trust.

The Perpetual Ending Kristen Den Hartog, 2011-01-14 From a writer acclaimed for her “probing, idiosyncratic intelligence and emotional generosity” (Calgary Herald), comes a deeply imagined novel that takes us into the lives of devoted twin sisters and their world of opposites, doppelgängers and ghosts. Jane and Eugenie Ingrams are mirror-image twins, and thus exact opposites. Halves of a whole, they are inseparable, each understanding her world through the other. But when Lucy, their artistic mother, moves her daughters from Deep River to Toronto (leaving behind a bewildered husband), she finds she can't entirely escape the remains of their troubled marriage. Eugenie thrives in the jumble of urban life, but Jane is sickened by its underside: the mess of lost souls who live on the streets, the garbage, the noise and the violence. When their father eventually seeks them out, Jane is relieved for the chance to go back to Deep River. Eugenie agrees to return for the sake of her beloved sister -- a soon-to-be-tragic concession. Years later, Jane is a writer in Vancouver, living with her lover, Simon, a gifted illustrator. Although troubled by her past, she finds solace (and commercial success) in the rich, fabulist tales she and Simon create -- which are expertly woven throughout the book -- tales of people born with extraordinary qualities: horns, the gift of prophesy, spiderweb hair or unquenchable thirst. Wondrous, inventive and brimming with charm, *The Perpetual Ending* is an exploration of love and artistry that shows the world as a whole, in all its grotesqueness and beauty. And it uncovers the surprising ways we sometimes arrive at the heart of one story through the telling of others.
