*Authors of the Middle Ages. Volume I, Nos 1–4* David C. Fowler,J. A. Burrow,2016-12-05 Authors of the Middle Ages is a new series designed for research and reference. Each part, by an expert on the subject, gives an account of the facts known about a particular Author's life and immediate historical context, together with a review of subsequent scholarship. This is supported by citation of all known contemporary references; a dated and classified list of manuscripts and editions; a bibliography of secondary sources; and appendices listing or printing the key literary and documentary sources. The aim is to combine, in one compact work, a bibliography of a medieval author with all the information needed for further research. Each will be available individually, or in a collection with three other contemporary Authors. Authors of the Middle Ages is divided into two sub-series, English Writers of the Late Middle Ages and historical and Religious Writers of the Latin West.

*Boccaccio and the Book* Rhiannon Daniels,2017-07-05 As a new digital era increasingly impacts on the 'age of print', we are ever more conscious of the way in which information is packaged and received. The influence of the material form on the reading process was no less important during the gradual shift from manuscript to early print culture. Focusing on the physical structure and presentation of manuscripts and printed books containing texts by one of the most influential authors of the medieval period, Rhiannon Daniels traces the evolving social, cultural, and economic profile of Boccaccio's readership and the scribes and printers who laboured to reproduce three of his works: the Teseida , Decameron , and De mulieribus claris . Rhiannon Daniels is a British Academy Postdoctoral Fellow in the Department of Italian at the University of Leeds.

**The Absent Image** Elina Gertsman,2021-06-24 Winner of the 2022 Charles Rufus Morey Award from the College Art Association Guided by Aristotelian theories, medieval philosophers believed that nature abhors a vacuum. Medieval art, according to modern scholars, abhors the same. The notion of horror vacui—the fear of empty space—is thus often construed as a definitive feature of Gothic material culture. In *The Absent Image*, Elina Gertsman argues that Gothic art, in its attempts to grapple with the unrepresentability of the invisible, actively engages emptiness, voids, gaps, holes, and erasures. Exploring complex conversations among medieval philosophy, physics, mathematics, piety, and image-making, Gertsman considers the concept of nothingness in concert with the imaginary, revealing profoundly inventive approaches to emptiness in late medieval visual culture, from ingenious images of the world's creation ex nihilo to figurations of absence as a replacement for the invisible forces of conception and death. Innovative and challenging, this book will find its primary audience with students and scholars of art, religion, physics, philosophy, and mathematics. It will be particularly welcomed by those interested in phenomenological and cross-disciplinary approaches to the visual culture of the later Middle Ages.
