SMS 2 Administration Mike Lubanski, Darshan Doshi, 2000 Michael Lubanski and Darshan Doshi, who have implemented one of the largest rollouts of SMS in a production environment, call upon their years of experience with SMS to demystify its complexities in SMS 2 Administration. Combining Mr. Lubanski's and Mr. Doshi's real-world knowledge with that of other systems management experts, this book provides practical advice on, and recommendations for, dealing with SMS administration. From concept and design through installation, configuration, security, usage and troubleshooting, SMS 2 Administration is a reference guide that uses realistic scenarios to help you make sense of SMS's sometimes confusing issues. With this book, not only will you understand SMS, you'll be able to deploy and maintain an SMS system in your own environment.

Novell's Guide to Troubleshooting eDirectory Peter Kuo, Jim Henderson, 2004-07-08 Novell eDirectory (formerly Novell Directory Services- NDS) is employed by system administrator to define users on the network and links those same users to their access rights with corporate resources, devices like printers and security policies. Novell eDirectory is comparable to Microsoft's Active Directory and is designed for large-scale, high-end

directory deployments. Its strengths are scalability and reliability, a flexible yet strong security architecture, compatibility with key industry standards and operating systems. Novell's Guide to Troubleshooting eDirectory is the definitive source for information on eDirectory troubleshooting techniques. It is the single stop reference covering topics from good design to proactive/reactive problem resolution. All of the information presented in this book has been gathered from hands-on, real world experiences of the authors.
