Natural Language Processing in Action Hannes Hapke, Cole Howard, Hobson Lane, 2019-03-16 Summary Natural Language Processing in Action is your guide to creating machines that understand human language using the power of Python with its ecosystem of packages dedicated to NLP and AI. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. About the Technology Recent advances in deep learning empower applications to understand text and speech with extreme accuracy. The result? Chatbots that can imitate real people, meaningful resume-to-job matches, superb predictive search, and automatically generated document summaries—all at a low cost. New techniques, along with accessible tools like Keras and TensorFlow, make professional-quality NLP easier than ever before. About the Book Natural Language Processing in Action is your guide to building machines that can read and interpret human language. In it, you'll use readily available Python packages to capture the meaning in text and react accordingly. The book expands traditional NLP approaches to include neural networks, modern deep learning algorithms, and generative techniques as you tackle real-world problems like extracting dates and names, composing text, and answering free-form questions. What's inside Some sentences in this book were written by NLP! Can you guess which ones? Working with Keras, TensorFlow, gensim, and scikit-learn Rule-based and data-based NLP Scalable pipelines About the Reader This book requires a basic understanding of deep learning and intermediate Python skills. About the Author Hobson Lane, Cole Howard, and Hannes Max Hapke are experienced NLP engineers who use these techniques in production. Table of Contents PART 1 - WORDY MACHINES Packets of thought (NLP overview) Build your vocabulary (word tokenization) Math with words (TF-IDF

vectors) Finding meaning in word counts (semantic analysis)

PART 2 - DEEPER LEARNING (NEURAL NETWORKS) Baby steps with neural networks (perceptrons and backpropagation)

Reasoning with word vectors (Word2vec) Getting words in order with convolutional neural networks (CNNs) Loopy (recurrent)

neural networks (RNNs) Improving retention with long short-term memory networks Sequence-to-sequence models and attention

PART 3 - GETTING REAL (REAL-WORLD NLP CHALLENGES)

Information extraction (named entity extraction and question answering) Getting chatty (dialog engines) Scaling up

(optimization, parallelization, and batch processing)

Conservation Agriculture in India A.R. Sharma, 2022-09-20

This book examines the current situation, levels of adoption, management practices, and the future outlook of conservation agriculture in India, and also in other tropical and subtropical regions of the world. While conservation agriculture is proposed as an important means to combat climate change, improve crop productivity and food affordability, and to protect the environment, the adoption of conservation agriculture in India, and south-east Asia more broadly, has been slow. This volume reflects on the current status of conservation agriculture in India, asking why adoption has been slow and putting forward strategies to improve its uptake. The chapters cover the various aspects of crop management such as soil, water, nutrients, weeds, crop residues, machinery, and energy, in a range of environments, including irrigated and rainfed regions. The impact of climate change and the economic considerations behind the adoption of conservation agriculture are also discussed. The volume concludes by discussing the future outlook for conservation agriculture in India, in particular drawing out parallels with other tropical and subtropical regions of the world. This book will be of great interest to students and scholars of conservation agriculture, sustainable agriculture, crop and soil management, and environmental and natural resource

management.

Best Android Apps Mike Hendrickson, Brian

Sawyer, 2010-04-27 You can choose from thousands of apps to make your Android device do just about anything you can think of -- and probably a few things you'd never imagine. There are so many Android apps available, in fact, that it's been difficult to find the best of the bunch -- until now. Best Android Apps leads you beyond the titles in Android Market's Top Paid and Top Free bins to showcase apps that will truly delight, empower, and entertain you. The authors have tested and handpicked more than 200 apps and games, each listed with a description and details highlighting the app's valuable tips and special features. Flip through the book to browse their suggestions, or head directly to the category of your choice to find the best apps to use at work, on the town, at play, at home, or on the road. Discover great Android apps to help you: Juggle tasks Connect with friends Play games Organize documents Explore what's nearby Get in shape Travel the world Find new music Dine out Manage your money ...and much more!

Fostering freedom online: the role of Internet

intermediaries MacKinnon, Rebecca, Hickok, Elonnai, Bar, Allon, Lim, Hae-in, 2015-01-29 Internet intermediaries play a unique role in linking authors of content and audiences. They may either protect or jeopardize end user rights to free expression, given their role in capturing, storing, searching, sharing, transferring and processing large amount of information, data and user-generated content. This research aims to identify principles for good practices and processes that are consistent with international standards for free expression that Internet intermediaries may follow in order to protect the human rights of end users online.

United States Code United States,2012

Proceedings of the International Conference on Data Engineering and Communication Technology Suresh Chandra Satapathy,Vikrant Bhateja,Amit Joshi,2016-08-24 This two-volume book contains research work presented at the First International Conference on Data Engineering and Communication Technology (ICDECT) held during March 10-11, 2016 at Lavasa, Pune, Maharashtra, India. The book discusses recent research technologies and applications in the field of Computer Science, Electrical and Electronics Engineering. The aim of the Proceedings is to provide cutting-edge developments taking place in the field data engineering and communication technologies which will assist the researchers and practitioners from both academia as well as industry to advance their field of study.

Lions Celfon Users Guide Lion Dr Er J Shiva Kumar, This User Guide for LIONS CELFON Mobile Apps, will be useful to all Lion Members and Lions Officials in MD 324, consisting of 12 Lions Districts, with 50,000 Lions in 1000 Clubs. This User Guide will train all Lions Officials (District Governor, Region Chairpersons, Zone Chairpersons, District Chairpersons, Club Presidents, Secretaries and Treasurers in managing the District / Region / Zone or Club from their Mobile Phones. It will enable them to find the Activities going on in the District, See their

Photos, receive Reports from Clubs, Communicate by personalized SMS or MMS or Chat, See the Circulars issued by all Lions Officials.. The User Guide provides all the Lions information club wise / Portfolio wise/ Region wise. Also help to locate a Lion from his Mobile Number or from Name. The LIONS CELFON DIRECTORY Mobile App enables carrying all the information in their Mobile Phones instead of heavy Print Editions. This User Guide is a FREEBIE and can be downloaded FREE from GOOGLE PLAY STORES or PLAY BOOKS.

Lions 324A6 Mini Directory (2014-15) PMJF Lion D Thulasingam, District Governor, 2015-09-14 This Mini Directory Book is a digital edition of Print Edition of Lions District 324A6 Directory for the year 2014-15. It is released by District Governor MJF Lion D Thulasingam. The Directory is on 7000+ members of the District and is printed in 900 pages using 3kg of paper (for each book). Usage of this Digital Edition enables lion to refer the same directory from their Tablets, Mobile Phones, IPads etc, thus enabling portability of information. In addition, reduced number of copies can be printed, thus saving paper and the Earth. The Print Edition is Edited by MJF Lion A T Ravichandran, Directory Committee Chairman and his Team. This Digital Book is Edited by Lion Dr Er J Shivakumaar.

China's Evolving Military Strategy Joe McReynolds, 2017-01-10 Roughly once every generation, a powerful, highly influential organization within the Chinese People's Liberation Army releases a new edition of the Science of Military Strategy (SMS), a comprehensive and authoritative study which details the strategic approach that the Chinese military will take in the coming years in response to the threats and challenges facing China. The recent release of a new edition of SMS signals the potential for dramatic shifts in the PLA's approach to a number of strategic questions, but the book remains underutilized by many Western China analysts due to the lack of both an English translation and expert analysis to place

these changes into context. China's Evolving Military Strategy aims to bring knowledge of these important developments to a mass audience of China watchers, policymakers, and the broader foreign policy community by providing a sector-by-sector analysis of changes in the PLA's thinking and approach from the previous edition of SMS to the present. Each chapter addresses the implications for a different portion of the Chinese military, ranging from the air, sea, and space domains to cyberspace and electromagnetic warfare, and each is written by one of the world's foremost experts on that subsection of China's military development. China's Evolving Military Strategy will serve as the cornerstone reference for a generation to come on one of China's most important declarations of its military-strategic goals and intentions.

Proceedings of the 13th International Conference on Computer Engineering and Networks Yonghong Zhang,Lianyong Qi,Qi Liu,Guangqiang Yin,Xiaodong Liu,2024-01-03 This book aims to examine innovation in the fields of computer engineering and networking. The text covers important developments in areas such as artificial intelligence, machine learning, information analysis, communication system, computer modeling, internet of things. This book presents papers from the 13th International Conference on Computer Engineering and Networks (CENet2023) held in Wuxi, China on November 3-5, 2023.

Graphic Showbiz Nanabanyin Dadson,2005-05-05

Something About Everything—CompTIA Security+ SY0-601 Certification Exams Femi Reis,2022-12-26 BETTER THAN FLASH CARDS! THE FIRST EVER COMPLETE REFERENCE DICTIONARY FOR THE SECURITY+ SY0-601 EXAMS! A key to passing cybersecurity exams as broad in scope as the Security+ is to get a good grasp of cardinal concepts, and to generally ensure that you know something central about everything on the exam objectives. With this learning method,

candidates are not blindsided by any aspect of the exams, and the trickiness of the questions are easily straightened out. With this book you will: Easily locate any concept on the exam objectives and quickly refresh your mind on it. Learn complicated concepts in very simple terminologies. Understand how concepts apply in practical scenarios. Randomly test your knowledge on any item on the exam objectives to reinforce what you know and correct what you don't. Easily remember concepts with the aid of over 1000 illustrative icons used. Beyond the exam, have a cybersecurity reference manual that you can always refer to using the Index of Concepts in alphabetical order. Flash cards used to be the go-to method for a final revision of key concepts in the Security+ objectives, but this dictionary now provides more detailed information on EVERY SINGLE ITEM on the exam objectives. With this tool, you can easily lookup any concept to reinforce your knowledge and gain some basic understanding of it. Indeed, in Security+, and of course in cybersecurity in general, the most prepared people are not those who know everything about something, but those who know something about everything.

Formal Methods for Industrial Critical Systems Stefan Kowalewski,Marco Roveri,2010-09-13 This book constitutes the proceedings of the 15th International Workshop on Formal Methods for Industrial Critical Systems, FMICS 2010 held in Antwerp, Belgium, in September 2010 - co-located with ASE 2010, the 25th IEEE/ACM International Conference on Automated Software Engineering, The 14 papers presented were carefully reviewed and selected from 33 submissions. The aim of the FMICS workshop series is to provide a forum for researchers who are interested in the development and application of formal methods in industry. It also strives to promote research and development for the improvement of formal methods and tools for industrial applications.

The Intelligent Network Wolf D. Ambrosch,Anthony Maher,Barry Sasscer,2012-12-06 This report examines the

findings of a study by Bell Atlantic, IBM, and Siemens which investigated the role of the Intelligent Network in telecommunications. It considers current trends and future developments, on a national and international level. This report defines and describes the concept of the Intelligent Network and considers the operating requirements (including the hardware and software) and the types of service a network user can expect. Concepts, definitions, and terminology reflect the status of the Intelligent Network in 1988. Actual implementation may differ due to the constantly changing environment, new requirements, and experiences with existing solutions. The report is divided into six parts: Part 1 introduces the concept of the Intelligent Network, and describes elements common to all LIN services. It considers the application program and network management requirements, and provides examples of the hardware and software proposed for implementing the network. Parts 2 through 6 include detailed descriptions of specific IN services. In each part there is a functional service description and an application description. The reader is expected to have a general knowledge and understanding of existing telecommunication networks.

How Countries Count Crime John A. Eterno, Arvind Verma, Eli B. Silverman, 2022-09-30 This edited collection illuminates the weaknesses and strengths of crime reporting across a wide range of countries, with a focus on democratic countries in which the police bear some accountability to citizens. In one compendium, for the first time, this book documents how different countries record (or fail to record) crimes. With chapters written by native authors who are experts on the practices of their respective countries, the book explores practices in 15 different countries across the globe. Organized with a parallel, country-by-country approach, the book describes and analyzes methods police use to record crimes, with the awareness that the counting of crimes is not only an issue of empirical measurement, but also one of social construction. Crime reporting practices vary widely by country. In

some cases, reports are not taken, and in others, reports are carefully based on preliminary investigations. Willful manipulation of crime reports can and does occur, and the book explores related factors such as political pressure, personal ambition, community safety, and more. Discussion questions at the end of each chapter help the reader evaluate the significant issues influencing each country. The editors conclude by suggesting best practices for crime reporting and the collection of crime data. A unique addition to this book is a foreword by Tofiq Murshudlu, the Head of Drugs and Crime for the United Nations in Vienna. The book is intended for a wide range of audiences, including policing scholars, law enforcement and community leaders, and students of criminal justice.

Barriers and Biases in Computer-Mediated Knowledge Communication Rainer Bromme, Friedrich W. Hesse, 2005-03-29
This book deals with computer-mediated cooperation and communication scenarios in teaching and learning situations, leisure activities (e.g. laypersons looking for expert information on the internet), and net-based communication at work. Such scenarios will become increasingly important. But the successful use of such computer-mediated settings is not trivial. Cooperative learning and work itself requires special skills and strategies. And the technical settings with sometimes restricted, sometimes new possibilities for communication add problems on top of the cooperation itself. What are the barriers in computer-mediated communication for cooperative learning and work? Which are the most relevant biases in computer-mediated information processing? Based on empirical research the contributors from psychology, education and computer sciences offer different perspectives on the nature and causes of such barriers. The chapters also give an answer to the question how it might be possible to overcome these barriers and biases to fully gain advantage from the new technical opportunities. These results and answers are of interest for students as well as for researchers

in all fields related to the use and evaluation of computer software in communication settings.

garden that

*how to make a houseplant love
you cultivate green space* - Jun
07 2022

web aug 30 2017 i want you
to experience the beauty
tranquility and joy that being in
the company of plants can
provide greenery can be as
simple as a succulent herb or
salvaged pot the secret is to
pay attention and show that
you care the same way you
would treat a new friend we
only love what we notice watch
it and it will grow
