Crazy Relationships Alan Elangovan, 2019-05-21 When one partner is unfaithful to the other, it can seem nearly impossible to repair the damage that has been done. But what do you do if you suspect your partner is cheating on you—on an emotional level or worse? Cheating does not happen in a vacuum, and the signs that you may be a victim are usually right in front of you. In this guide to spotting and responding to infidelity, Elangovan Alan examines topics such as: • What constitutes cheating in today's world? • How do you bring more intimacy into your relationship? • What signs should you look out for to spot an unfaithful partner? • Why flirting can quickly escalate into a physical relationship. The author also examines how to reduce the chances that you'll be cheated on in the first place, why men and women cheat, and ways you can respond when confronted with the ultimate betrayal. You are not alone in wondering whether you've been cheated on. Put your suspicions to rest and enjoy better relationships with the steps and insights in this guide.

Many such cameras are still being made for covert use and industrial espionage -- Dust jacket.
