Snap Belinda Bauer, 2018-07-03 A teenage boy hunts for his mother's killer in this Man Booker Prize-longlisted novel by "the true heir to the great Ruth Rendell" (Mail on Sunday, UK). Just before Jack's mother disappeared up the road to get help, she put the eleven-year-old boy in charge of his two sister. As they wait for her on the shoulder of the road in their stifling, broken-down car, the three children bicker, whine and play I-Spy. But their mother never comes back. And after that long, hot summer's day, nothing will ever be the same again. At fifteen-years-old, Jack is still in charge—supporting his sisters any way he can while evading social services. Meanwhile, a young woman across town wakes to find a knife beside her bed, and a note reading I could of killed you. The police are tracking a mysterious burglar they call Goldilocks, for his habit of sleeping in the beds of the houses he robs. But the woman doesn't see the point of involving the police. And Jack, very suddenly, may be on the verge of finding out who killed his mother. The Gold Dagger Award-winning author of *Blacklands* reaffirms her reputation for masterful, twisty crime fiction with this "unnerving suspense novel" (Marilyn Stasio, The New York Times).

Snap Patti Wood, 2012-10-19 From business meetings to social events to first dates to job interviews, we all encounter new people every day. Our ability to read body cues and convey the right first impression drives the success and quality of our personal and professional lives. Body language expert Patti Wood, a sought-after consultant and speaker to Fortune 500 companies, helps businesses and individuals stand out, create profitable relationships, and thrive in competitive circumstances. Now she brings that knowledge to our daily lives, offering practical and proven guidance on accurately interpreting body cues and creating impressions both in person and digitally. In *Snap*, you'll learn how to: * Use your voice and body language to convey confidence and charisma, authenticity and authority * Immediately discern people's hidden agendas * Make the best impressions via email, phone, video conferencing, and social networks * Convey and interpret signals of likability, power, credibility, and attractiveness * Use nonverbal tools to spot true integrity or recognize charming frauds * Attract the best matches in business and romantic partners * Recognize how you really look to others

SNAP Selling Jill Konrath, 2010-05-27 Selling is tougher than ever before. Potential customers are under extreme pressure to do more with less money, less time, and fewer resources, and they're wary of anyone who tries to get them to buy or change anything. Under such extreme conditions, yesterday's sales strategies no longer work. No matter how great your offering, you face the daunting task of making yourself appear credible, relevant, and valuable. Now, internationally recognized sales strategist Jill Konrath shows how to overcome these obstacles to get more appointments, speed up decisions, and win sales with these short-fused, frazzled customers. Drawing on her years of

selling experience, as well as the stories of other successful sellers, she offers four SNAP Rules: -Keep it Simple: When you make things easy and clear for your customers, they'll change from the status quo. -Be iNvaluable: You have to stand out by being the person your customers can't live without. -Always Align: To be relevant, make sure you're in synch with your customers' objectives, issues, and needs. -Raise Priorities: To maintain momentum, keep the most important decisions at the forefront of their mind. SNAP Selling is an easy-to-read, easy-to-use guide for any seller in today's increasingly frenzied environment.

Why We Snap Douglas Fields, 2016-01-12 The startling new science behind sudden acts of violence and the nine triggers this groundbreaking researcher has uncovered We all have a rage circuit we can't fully control once it is engaged as R. Douglas Fields, PhD, reveals in this essential book for our time. The daily headlines are filled with examples of otherwise rational people with no history of violence or mental illness suddenly snapping in a domestic dispute, an altercation with police, or road rage attack. We all wish to believe that we are in control of our actions, but the fact is, in certain circumstances we are not. The sad truth is that the right trigger in the right circumstance can unleash a fit of rage in almost anyone. But there is a twist: Essentially the same pathway in the brain that can result in a violent outburst can also enable us to act heroically and altruistically before our conscious brain knows what we are doing. Think of the stranger who dives into a frigid winter lake to save a drowning child. Dr. Fields is an internationally recognized neurobiologist and authority on the brain and the cellular mechanisms of memory. He has spent years trying to understand the biological basis of rage and anomalous violence, and he has concluded that our culture's understanding of the problem is based on an erroneous assumption: that rage attacks are the product of morally or mentally defective individuals, rather than a capacity that we all possess. Fields shows that violent behavior is the result of the clash between our evolutionary hardwiring and triggers in our contemporary world. Our personal space is more crowded than ever, we get less sleep, and we just aren't as fit as our ancestors. We need to understand how the hardwiring works and how to recognize the nine triggers. With a totally new perspective, engaging narrative, and practical advice, *Why We Snap* uncovers the biological roots of the rage response and how we can protect ourselves—and others.

What's That Noise? SNAP! SNAP! Cocoretto, Child's Play, 2015-07-20 Invites young readers to identify the animals that various creatures are about to encounter from the noises they make and clues in the illustrations, and to lift the flap in each spread to see the answer.

Snap Decision Nathan Whitaker, 2014-07-01 Sometimes the truth hits hard. Chase Clark just upped his game. As an eighth grader, he scores the chance to play on the varsity football team with his best friend, Tripp. But when a hard hit takes Tripp down, Chase is the only one who knows what really happened. And telling could have serious consequences. Making the right call won't be easy. Neither will the consequences he'll face, both with the guys on the team and with the school. What's the game plan when doing right might mean everything else goes very wrong?

Panic Snap Laura Reese, 2001-02-16 Carly Taylor waits as a jury decides if

she is the depraved murderer Madame De Sade, or the victim of a wealthy family's gothic past. Left for dead on the side of a road 10 years before, she emerged from a coma with no memory, and a face altered by plastic surgery. Her trail to find out who she is led her to James McGuane, a wealthy vineyard owner with immense sexual charisma who holds the key to her past.

Snap Abby Frucht,1988 Ruby and his wife, Ida, are in love. But Ruby loves Ida with a singlemindedness that she finds more than a little boring. In their albeit haphazard search for some elusive state of passionate fulfillment, these beguiling oddballs lead readers into a slightly skewed world--a world where circumstance and magic reign supreme.

Crocodile Snap! ,2016-03-01 Kids will love pulling the tabs to make Brock the crocodile snap his teeth in this interactive, quirky board book. Collect the whole Crunchy series with titles like Shark Bite! And Dino Chomp! Brock the crocodile has great big teeth, but sometimes, they're so scary that they frighten all his friends away. Brock scares a bird when a yawns, a frog when he sneezes, some snakes when he hiccups, some baby elephants when he coughs, and a rhino and some monkeys when he laughs. He feels bad scaring them, but he can't help having such big, scary teeth! But his mom is able to cheer him up by giving him a nice big cupcake!

SNAP Matters Judith Bartfeld,Craig Gundersen,Timothy Smeeding,James P. Ziliak,2015-11-25 In 1963, President Kennedy proposed making permanent a small pilot project called the Food Stamp Program (FSP). By 2013, the program's fiftieth year, more than one in seven Americans received benefits at a cost of nearly \$80 billion. Renamed the Supplemental Nutrition Assistance Program (SNAP) in 2008, it currently faces sharp political pressure, but the social science research necessary to guide policy is still nascent. In *SNAP Matters*, Judith Bartfeld, Craig Gundersen, Timothy M. Smeeding, and James P. Ziliak bring together top scholars to begin asking and answering the questions that matter. For example, what are the antipoverty effects of SNAP? Does SNAP cause obesity? Or does it improve nutrition and health more broadly? To what extent does SNAP work in tandem with other programs, such as school breakfast and lunch? Overall, the volume concludes that SNAP is highly responsive to macroeconomic pressures and is one of the most effective antipoverty programs in the safety net, but the volume also encourages policymakers, students, and researchers to continue examining this major pillar of social assistance in America.

Oh, Snap! Walter Dean Myers,2015-07-28 For use in schools and libraries only. Zander and his friends are in trouble -- again. The freedom of expression they've enjoyed by publishing their own school newspaper has spread all the way to England, where kids from a school across the pond are now contributors to their own school's most talked-about publication. When photos start to go alongside the articles written by kids, things get suspicious. Zander, Kambui, LaShonda, Bobbi -- and a bunch of students from Harlem's DaVinci Academy and London's Phoenix School -- come to learn that words and pictures in a newspaper don't always tell the whole story.

Does SNAP Decrease Food Insecurity? Mark Nord, 2009 Self-selection by more food-needy households into the Supplemental Nutrition Assistance Program (SNAP, formerly called the Food Stamp Program) makes it difficult to observe positive effects of the program in survey data. This study investigates self-selection and ameliorative program effects by examining households' food security month by month for several months prior to initial receipt of SNAP benefits and for several months after joining the program. Food security is observed to deteriorate in the 6 months prior to beginning to receive SNAP benefits and to improve shortly after. The results clearly demonstrate the self-selection by households into SNAP at a time when they are more severely food insecure. Charts and tables.
