The Cinderella Homes of Jean Vandruff, 2019-09 A history of the Cinderella Homes designed and built by Jean Vandruff.

California Contemporary Grant C. Kirkpatrick, 2018-05-15 “Two dozen custom-designed homes that welcome in sunlight and accentuate gorgeous vistas, and the architect’s thoughts behind them.” —Luxe Interiors + Design The stunning houses of Grant Kirkpatrick and his firm, KAA Design, exemplify why so many of us look to Southern California as the pinnacle of sophisticated modern living. The twenty-four magnificent custom homes featured in this book, modern in style, are built of sensuous materials and sited to make the most of nature, views, and sunlight. This collection of visionary residences, shown in gorgeous photographs and colorful drawings, represents the California Dream, shaped by an architect chosen by celebrities including Tom Hanks and Rita Wilson, Matt Damon, and Julia Louis-Dreyfus, for their personal retreats. Kirkpatrick offers his reflections on these beautiful projects—and the design strategies behind their creation. “Beautiful . . . For anyone who loves contemporary design and architectural masterpieces.”

The California House Kathryn Masson, 2011-04-05 The aura and romance of Old California lives on in this treasury of inviting homes. The California House presents the magic of the golden state, that land of

infinite promise and dreams, the most tangible expression of which can be found in the homes built by early California dreamers. Here domestic visions of tranquility and repose were inventively realized—in stucco or stone, wood and wrought iron, plaster, and glass and tile. Spanish Colonial Revival—style homes with elaborate wrought-iron window grilles, romantic, shadowy interiors, and lush courtyard gardens stand beside other particularly Californian architectural wonders such as the San Francisco Victorian Painted Lady, the Monterey Colonial, Eureka Queen Anne, and the homey California Arts & Crafts. Including houses designed by luminaries George Washington Smith, Stanford White, Greene & Greene, and Reginald Johnson, this book will fascinate both the architecture aficionado and interior design enthusiasts, as well as the everyday lover of homes. Including, but going beyond, the much-adored Spanish style (in its many manifestations) and Mission Revival, the book features as well the Victorian of San Francisco's Painted Lady and Eureka's Queen Anne, Monterey Colonial, California Arts & Crafts, French Chateau, classic Colonial farm house, and more. All new color photography of 25 houses in California ranging in style from Spanish Colonial Revival, Mission, Victorian, Queen Anne, California Arts & Crafts, Monterey, French Chateau, Colonial Farm House. The book includes little known California work by well known architect Stanford White, known primarily for his East Coast work (designer of the original Penn Station with McKim, Mead & White, and original Madison Square Garden, and many others); as well as the Magdalena Zanone House (Queen Anne late Victorian style home in Eureka, CA); the Murphy House, San Francisco (Classic French Chateau); a Gothic Victorian 1860s home in Sonoma; Casa Amesti (Monterey style home); El Cerrito designed by Russel Ray and Winsor Soule and built in 1913 in Santa Barbara (an

amalgam of Mission and Spanish Colonial Revival); the Frothingham House designed by George Washington Smith in 1922 (Spanish Colonial Rev.); Cuatro Ventos House by Reginald Johnson, 1929 in Santa Barbara; William Edwards House by Roland E. Coate, Sr. in San Marino, 1926; Robinson House by Greene and Greene in Pasadena, 1905; Sack House in Berkeley (California Arts & Crafts) Brune-Reutlinger House in San Francisco (classic Painted Lady Victorian); a colonial mid-19th cent farm house in Sonoma; Mariposa, classic Spanish style in Montecito; The Marston House in San Diego (Arts & Crafts/Tudoresque); Rancho Los Alamos De Santa Elena in Los Alamos (Span. Col. Rev.); Pepper Hill Farm in Balard.

California Homes William Hefner, The Images Publishing Group, 2013 An insightful monograph highlighting the illustrious design of master architect William Hefner - lavishly illustrated and richly detailed - an intimate tour of some of the world's most opulent houses. This latest addition to IMAGES' Master Architect Series showcases seven exquisite residential projects by master architect William Hefner, whose Los-Angeles-based architectural firm has been designing residential, commercial and retail properties for nearly two decades. Although varied in style, each house featured shares the timeless elegance and attention to detail common to all of Hefner's creations. They are each marked also by Hefner's appreciation of the craft of building and the use of natural materials. Opulent and richly detailed, the interiors nevertheless retain a sense of intimacy, warmth and comfort. Hefner's houses are luxurious, but it is a personal, liveable form of luxury that embraces rather than distances. William Hefner's passion lies in residential architecture; his expertise encompasses a vast array of styles from the highly contemporary to

the deeply historic. Through this crossover he has realised that each style has benefitted from knowledge of the other - modern houses are richer in materials, more complex in their details, and thusly more comfortable to its inhabitants; historic projects are less fussy, more tailored, resulting in spaces better suited to the needs and tendencies of contemporary life. William's expertise in architecture and deep appreciation for interior design and landscape often culminates in the three merging seamlessly - environments emerge which embrace outdoor views animated by an ever-shifting play of natural light; the rooms connect organically to the furnishings within them. By combining these three disciplines within his firm, he is able to ensure that each distinct design concept integrates with one another and that the vision of the homeowner is expressed in every aspect of the work. William earned a Bachelor of Arts degree in Art History in 1977 from Lewis & Clark College in Portland, Oregon, which included a year of study in Greece. He went on to receive a Master's of Architecture from UCLA, during the influential Charles Moore's tenure. 400 col.

Bungalows and Cottages in Southern California Los Angeles Investment Company, 2016-08-04 Excerpt from Bungalows and Cottages in Southern California: Presenting Houses and Plans as Built and Streets and Tracts as Developed by the Los Angeles Investment Company, February, 1909 This guarantee is very essential in a section where many houses are simply thrown together, the only object being to make them look well when finished, the builder caring not how soon they go to pieces after paid for. The large capital and extensive real estate holdings of this Company make its guarantee good, and the essential point of a guarantee is what is behind it. This Company sub-lets no contracts, but its own stockholders do all the

work, thus securing the best results. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Courtyard Housing in Los Angeles Stefanos Polyzoides, Roger Sherwood, James Tice, 1992 Essays, drawings, plans, and over 200 black-and-white photographs document the courtyard housing in Los Angeles. The style, expressed in both grand and humble dwellings, was at its height in the 1920's and 1930's, but is still around to provide privacy and greenspace in the dense urban area. Three California houses Aaron Betsky,2002 This glorious book showcases three architecturally important private residences, now owned by and home to the expansive art collections of Max Palevsky, director emeritus of Intel. Each house has either been restored or reworked by a well-known contemporary architect to make a magnificent showplace. The three houses together encapsulate the twentieth-century architectural history of Southern California. Presented in detail are the Palm Spring House, by renowned mid-century modernist architect Craig Ellwood; the extravagant Malibu Spanish-style House, with interior renovations by renowned Italian architect Ettore Sottsass; and the opulent Beverly Hills House of the 1920s by George Washington Smith-with interiors that have been reworked recently by the young and already well-known avant-garde California architect Coy Howard.

Living West Sam Lubell,2009 A dense concentration of design talent, uniquely varied topography, and one of the worlds most pleasant climates have made southern California a crucible of architectural innovation. There, forward-looking clients respond to dramatic modern interpretations of form and site that capitalize on natural light and magnificent ocean views, perch delicately on steeply graded land, or maximize privacy on a sliver of a city lot. Thirty of the best designs by the most creative firms portray the diversity of southern Californias architecture. Sam Lubell draws examples from Montecito to San Diego and the arid conditions of Joshua Tree to illustrate the wide range of responses to geography, budget and space.
