The Social Sources of Financial Power Leonard Seabrooke, 2006 A state's financial power is built on the effect its credit, property, and tax policies have on ordinary people: this is the key message of Leonard Seabrooke's comparative historical investigation, which turns the spotlight away from elite financial actors and toward institutions that matter for the majority of citizens. Seabrooke suggests that everyday contests between social groups and the state over how the economy should work determine the legitimacy of a state's financial and fiscal system. Ideally, he believes, such contests compel a state to intervene on behalf of people below the median income level, leading the state to broaden and deepen its domestic pool of capital while increasing its influence on international finance. But to do so, Seabrooke asserts, a state must first challenge powerful interests that benefit from the concentration of financial wealth. Seabrooke's novel constructivist approach is informed by economic sociology and the work of Max Weber. This book demonstrates how domestic legitimacy influences the character of international financial orders. It will interest all readers concerned with how best to transform state intervention in the economy for the good of the majority.--BOOK JACKET.

Gender and Development Patrick Leman, Harriet Tenenbaum, 2013-12-13 Children are born into a world infused with gendered information. An understanding of what it is to be a boy or girl can be critical in forming social relationships, social identities, and learning how to think and behave. Gender and Development is an important new volume that charts how children practice these gendered identities at different ages and in different social contexts. Taking a socio-cognitive approach, and integrating both theoretical and applied perspectives, the book looks at a range of contexts in which gender affects development and socialisation, from the child's place in the family unit and their interaction with parents and siblings, to the influence of communication with peers over the internet. Throughout the chapters an age-old issue is addressed through a contemporary, empirically focused perspective - namely the nature and extent of equality between the genders, and how difficult it is for attitudes, perceptions and stereotypes to change. Key social issues are covered, including pro-social behaviour, career choice and academic competencies. Gender and Development brings together some of the latest research in this important and enduring field of study. It is a timely and invaluable collection, and will be essential reading for all students and research in developmental psychology, social psychology and gender studies.

Handbook on Inequalities in Sentencing and Corrections among Marginalized Populations Eileen M. Ahlin, Ojmarrh Mitchell, Cassandra A. Atkin-Plunk, 2022-10-11 The Handbook on Inequalities in Sentencing and Corrections among Marginalized Populations offers state-of-the-art volumes on seminal and topical issues that span the fields of

sentencing and corrections. The volume is a comprehensive and fresh approach to examining sentencing and community and institutional corrections. The book includes empirical and theoretical essays and recent developments on the pressing concerns of persons of traditionally non-privileged statuses, including racial and ethnic minorities, indigenous populations, gender, immigrant status, LGBTQ+, transgender, disability, aging, veterans, and other marginalized statuses. The handbook considers a wide range of perspectives for understanding the experiences of persons who identify as a member of a traditionally marginalized group. This volume aims to help scholars and graduate students by providing an up-to-date guide to contemporary issues facing corrections and sentencing. It will also assist practitioners with resources for developing socially informed policies and practices. This collection of essays contributes to the knowledge base by summarizing what is known in each area and identifying emerging areas for theoretical, empirical, and policy work. This is Volume 7 of The ASC Division on Corrections and Sentencing Handbook Series. The handbooks provide in-depth coverage of seminal and topical issues around sentencing and corrections for scholars, students, practitioners, and policymakers.

Remembering Scottsboro James A. Miller, 2021-07-13 How one of the greatest miscarriages of justice in the United States continues to haunt the nation's racial psyche In 1931, nine black youths were charged with raping two white women in Scottsboro, Alabama. Despite meager and contradictory evidence, all nine were found guilty and eight of the defendants were sentenced to death—making Scottsboro one of the worst travesties of justice to take place in the post-Reconstruction South. Remembering Scottsboro explores how this case has embedded itself into the fabric of American memory and become a lens for perceptions of race, class, sexual politics, and justice. James Miller draws upon the archives of the Communist International and NAACP, contemporary journalistic accounts, as well as poetry, drama, fiction, and film, to document the impact of Scottsboro on American culture. The book reveals how the Communist Party, NAACP, and media shaped early images of Scottsboro; looks at how the case influenced authors including Langston Hughes, Richard Wright, and Harper Lee; shows how politicians and Hollywood filmmakers invoked the case in the ensuing decades; and examines the defiant, sensitive, and savvy correspondence of Haywood Patterson—one of the accused, who fled the Alabama justice system. Miller considers how Scottsboro persists as a point of reference in contemporary American life and suggests that the Civil Rights movement begins much earlier than the Montgomery Bus Boycott of 1955. Remembering Scottsboro demonstrates how one compelling, provocative, and tragic case still haunts the American racial imagination.

On Social Structure and Science Robert K. Merton, 1996-09-15 Robert K. Merton is unarguably one of the most influential sociologists of his time. A figure whose wide-ranging theoretical and methodological contributions have become fundamental to the field, Merton is best known for introducing such concepts and procedures as unanticipated consequences, self-fulfilling prophecies, focused group interviews, middle-range theory, opportunity structure, and analytic paradigms. This definitive compilation encompasses the breadth and brilliance of his works, from the earliest to the most recent. Merton's foundational writings on social structure and process, on the sociology of science and

knowledge, and on the discipline and trajectory of sociology itself are all powerfully represented, as are his autobiographical insights in a fascinating coda. Anchored by Piotr Sztompka's contextualizing introduction, Merton's vast oeuvre emerges as a dynamic and profoundly coherent system of thought, a constant source of vitality and renewal for present and future sociology.

Web 2.0 Tools in Concept Teaching Zeynep Tatlı, Ali Şükrü Özbay, 2021-11-30 Currently, students are interested in more than one thing at the same time, preferring to use visuals and infographics, rather than writing, in the learning process. In addition, these students use technology better in the education process, as in all aspects of daily life, as they meet technology at an earlier age than their teachers. Therefore, teachers should also update themselves according to these learner characteristics. In particular, "assessment" and "evaluation" are two of the topics that students may not enjoy to their fullest extent. This book serves to make the assessment process fun and interactive, as well as to inform teachers about the different applications they can do in this process. It invites teachers to introduce highly interactive applications and make their classes active in the learning process.
