Data-Driven Mathematical and Statistical Models of Online Social Networks Shudong Li, Zhen Wang, Chengyi Xia, Lin Wang, Daihai He, 2022-03-07

Digital Culture & Society (DCS) Ramón Reichert, Annika Richterich, Pablo Abend, Mathias Fuchs, Karin Wenz, 2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

Rhetorics Change / Rhetoric's Change Jenny Rice, Chelsea Graham, Eric Detweiler, 2018-05-01 Rhetorics Change/Rhetoric's Change features selected essays, multimedia texts, and audio pieces from the 2016 Rhetoric Society of America biennial conference, which spotlighted the theme "Rhetoric and Change." Human Rights and Ethics: Concepts, Methodologies, Tools, and Applications

Management Association, Information Resources, 2014-09-30 In today's increasingly interconnected and global society, the protection of basic liberties is an important consideration in public policy and international relations. Profitable social interactions can begin only when a foundation of trust has been laid between two parties. *Human Rights and Ethics: Concepts, Methodologies, Tools, and Applications* considers some of the most important issues in the ethics of human interaction, whether in business, politics, or science and technology. Covering issues such as cybercrime, bioethics, medical care, and corporate leadership, this four-volume reference work will serve as a crucial resource for leaders, innovators, educators, and other personnel living and working in the modern world.

Sustainable Value Chain Management Michael D'heur, 2015-02-28

This book introduces the integrated management concept of Sustainable Value Creation, which delivers sustainability 'inside-out' from the core business. It is based on the premise that sustainability can provide a platform for growth, if it is implemented in a company's products, services and supply chains (combined also known as the 'Value Chain'). Managing the Value Chain from the outset with a sustainability mindset subsequently allows profitable economical, ecological and societal growth. It combines the need for increased sustainability and its implementation in the operations of a company. The book addresses the following issues: How do economic, environmental and societal factors impact the value-creation process of a company? What requirements and expectations

need to be met to balance economic, ecologic and societal value creation? What are the building blocks and measures that can be utilized on the journey towards building a sustainable value chain? What benefits can be achieved through sustainable value chains? What are the practical examples of sustainable value chains in leading companies that can inspire others to follow? The book includes contributions from the following organisations and companies: Beiersdorf, SAP, Klenk und Hoursch, VAUDE, Infineon Technologies, Independent Capital Management, BASF, Nanogate, the Federal German Council for Sustainable Development, Henkel, Symrise, shared.value.chain, Siemens, Fairphone and Thin Air Factory

Professional Android 4 Application Development Reto Meier, 2012-05 Provides information on using Android 3 to build and enhance mobile applications, covering such topics as creating user interfaces, using intents, databases, creating and controlling services, creating app widgets, playing audio and video, telphony, and using sensors. Original.

Nineteenth-Century American Activist Rhetorics Patricia Bizzell, Lisa Zimmerelli, 2020-12-15 In the nineteenth century the United States was ablaze with activism and reform: people of all races, creeds, classes, and genders engaged with diverse intellectual, social, and civic issues. This cutting-edge, revelatory book focuses on rhetoric that is overtly political and oriented to social reform. It not only contributes to our historical understanding of the period by covering a wide array of contexts--from letters, preaching, and speeches to labor organizing, protests, journalism, and theater by white and Black women, Indigenous people, and Chinese immigrants--but also relates conflicts over imperialism, colonialism, women's rights, temperance, and slavery to today's struggles over racial justice, sexual freedom, access to multimodal knowledge, and the unjust effects of sociopolitical hierarchies. The editors' introduction traces recent scholarship on activist rhetorics and the turn in rhetorical theory toward the work of marginalized voices calling for radical social change.

Social Audit Regulation Mia Mahmudur Rahim, Samuel O. Idowu, 2015-05-11 This book takes the concept of social audit and lifts it beyond the role of functioning largely as a management tool. The book proposes a system in which social audit is regulated so as to provide a mechanism for effectively promoting corporate accountability in society. Taking this as its theme, this book provides both a conceptual explanation of the developmental perspectives of social audit regulation and empirical evidence of the impact of social audit practice from different parts of the world. It is the first book to explore the issues and challenges related to the development of effective social audit regulation.

Community Livability Fritz Wagner, Roger W. Caves, 2019-07-30 What is a livable community? How do you design and develop one? What does government at all levels need to do to support and nurture the cause of livable communities? Using a blend of theory and practice, the second edition of *Community Livability* addresses evidence from international, state and local perspectives to explore what is meant by the term livable communities. The second edition contains new chapters from leading academics and practitioners that examine the various factors that constitute a livable community (e.g., the influence and importance of transportation options/alternatives to the elderly, the importance of walkability as a factor in developing a livable and healthy community, the importance of good open space providing for human activity and health, restorative benefits, etc., the importance of coordinated land use and transportation planning), and the relationship between livability and quality of life. A number of chapters focus on livable communities with case studies from an international perspective in the USA, Canada, Australia, Peru, Sweden, South Korea, Japan, and Austria.
