Professional Academic Writing in the Humanities and Social Sciences Susan Peck MacDonald,2010-08-20 In Professional Academic Writing in the Humanities and Social Sciences, Susan Peck MacDonald tackles important and often controversial contemporary questions regarding the rhetoric of inquiry, the social construction of knowledge, and the professionalization of the academy. MacDonald argues that the academy has devoted more effort to analyzing theory and method than to analyzing its own texts. Professional texts need further attention because they not only create but are also shaped by the knowledge that is special to each discipline. Her assumption is that knowledge-making is the distinctive activity of the academy at the professional level; for that reason, it is important to examine differences in the ways the professional texts of subdisciplinary communities focus on and consolidate knowledge within their fields. Throughout the book, MacDonald stresses her conviction that academics need to do a better job of explaining their text-making axioms, clarifying their expectations of students at all levels, and monitoring their own professional practices. MacDonald's proposals for both textual and sentence-level analysis will help academic professionals better understand how they might improve communication within their professional communities and with their students.

Introduction to Social Work: A Writing Approach to Professional Discovery Michael A. Wright,2015-11-23 In this Introduction to Social Work text, the Hegelian Dialectic (thesis, antithesis, synthesis) is introduced. An example essay is provided at the end of each chapter. A rubric is also provided in this text to support evaluation of the form requirement. The goal is for students to learn and practice logical writing and receive an introduction to synthesis/integration. Students practice the ability to articulate how two contradictory ideas can coexist. The reward reveals itself in later classes. Logic discussions and literature review are potentially less dualistic. Students evidence a greater tolerance for ambiguity and opposing viewpoints during discussions.

Engaging 21st Century Writers with Social Media Bryant, Kendra N.,2016-08-23 Basic composition courses have become a fundamental requirement for the major of university degrees available today. These classes allow students to enhance their critical thinking, writing, and reading skills; however, frequent use of technology and online activity can be detrimental to students' comprehension. Engaging 21st Century Writers with Social Media is a pivotal reference source for the latest research on the integration of social media platforms into academic writing classes, focusing on how such technology encourages writing and enables students to grasp basic composition skills in classroom settings. Highlighting emerging theoretical foundations and pedagogical practices, this book is ideally designed for educators, upper-level students, researchers, and academic professionals.

Writing for Social Scientists Howard S. Becker,2008-11-15 Students and researchers all write under pressure, and those pressures—most lamentably, the desire to impress your audience rather than to communicate with them—often lead to pretentious prose, academic posturing, and, not infrequently, writer's block. Sociologist Howard S. Becker has written the classic book on how to conquer these pressures and simply write. First published nearly twenty years ago, Writing for Social Scientists has become a lifesaver for writers in all fields, from beginning students to published authors. Becker's message is clear: in order to learn how to write, take a deep breath and then begin writing. Revise. Repeat. It is not always an easy process, as Becker wryly relates. Decades of teaching, researching, and writing have given him plenty of material, and Becker neatly exposes the foibles of academia and its "publish or perish" atmosphere. Wordiness, the passive voice, inserting a "the way in which" when a simple "how" will do—all these mechanisms are a part of the social structure of academic writing. By shrugging off such impediments—or at the very least, putting them aside for a few hours—we can reform our work habits and start writing lucidly without worrying about grades, peer approval, or the "literature." In this new edition, Becker takes account of major changes in the computer tools available to writers today, and also substantially expands his analysis of how academic institutions create problems for them. As competition in academia grows increasingly heated, Writing for Social Scientists will provide solace to a new generation of frazzled, would-be writers.

Lowen Ashleigh é uma escritora que se debate com grandes dificuldades financeiras, até que aceita uma oferta de trabalho irrecusável: terminar os três últimos volumes da série de sucesso de Verity Crawford, uma autora de renome que ficou incapacitada depois de um terrível acidente. Para poder entrar na cabeça de Verity e estudar as anotações e ideias reunidas ao longo de anos de trabalho, Lowen aceita o convite de Jeremy Crawford, marido da autora, e muda-se temporariamente para a casa deles. Mas o que ela não esperava encontrar no caótico escritório de Verity era a autobiografia inacabada da autora. Ao lê-la, percebe que esta não se destinava a ser partilhada com ninguém. São páginas e páginas de confissões arrepiantes, incluindo as memórias de Verity relativas ao dia da morte da filha. Mas, à medida que os sentimentos de Lowen por Jeremy se intensificam, ela apercebe-se de que talvez seja melhor ele ler as palavras escritas por Verity. Afinal de contas, por mais dedicado que Jeremy seja à sua mulher doente, uma
