**Constitutionalism in Context** David S. Law, 2022-02-09 With its emphasis on emerging and cutting-edge debates in the study of comparative constitutional law and politics, its suitability for both research and teaching use, and its distinguished and diverse cast of contributors, this handbook is a must-have for scholars and instructors alike. This versatile volume combines the depth and rigor of a scholarly reference work with features for teaching in law and social science courses. Its interdisciplinary case-study approach provides political and historical as well as legal context: each modular chapter offers an overview of a topic and a jurisdiction, followed by a case study that simultaneously contextualizes both. Its forward-looking and highly diverse selection of topics and jurisdictions fills gaps in the literature on the Global South as well as the West. A timely section on challenges to liberal constitutional democracy addresses pressing concerns about democratic backsliding and illiberal and/or authoritarian regimes.

**International Bibliography of Sociology** Compiled by the British Library of Political and Economic Science, 2002-12 IBSS is the essential tool for librarians, university departments, research institutions and any public or private institution whose work requires access to up-to-date and comprehensive knowledge on the social sciences.

**Statelessness** Tony C. Brown, 2022-11-15 A pathbreaking new genealogy of statelessness Just as the modern state and the citizenship associated with it are commonly thought of as a European invention, so too is citizenship's negation in the form of twentieth-century diaspora and statelessness. Statelessness sets forth a new genealogy, suggesting that Europe first encountered mass statelessness neither inside its own borders nor during the twentieth century, as Hannah Arendt so influentially claimed, but outside of itself—in the New World, several hundred years earlier. Through close readings of political philosophers from Hobbes to Rousseau to Kant, Tony C. Brown argues that statelessness became a central problem for political thought early on, with far-reaching implications for thinking both on the state and on being human. What Europeans thought they saw among the “savages” of the Americas was life without political order, life less than human. Lacking almost everything those deemed clearly human had achieved, the stateless existed in a radically precarious, almost inhuman privation. And yet this existence also raised the unsettling possibility that state-based existence may not be inevitable, necessary, or even ideal. This possibility, as Brown shows, prompts the response—as defensive as it was aggressive—that we call Enlightenment political philosophy, which arguably still orders much thinking on being stateless today, including our discourses concerning migrants and Indigenous peoples.

**Effective Instructional Strategies** Kenneth D. Moore, 2014-01-15 A concise and easy-to-read K-12 methods text that covers practical information all teachers need to be effective Kenneth Moore's Fourth Edition of Effective Instructional Strategies: From Theory to Practice provides thorough coverage of the strategies and essential skills that every teacher needs to know. This text applies the latest research findings and useful classroom practices to the instructional process by presenting a Theory to Practice approach to instruction, emphasizing the intelligent use of teaching theory and research to improve classroom instruction. Logically and precisely providing information about how to be an effective classroom teacher, this text has been carefully designed to maximize instructional flexibility and to model established principles of instruction. It was further designed to expand the pedagogical teaching knowledge of teachers and their instructional repertoires.

**Art as experience of the living body / L'art comme expérience du corps vivant** Christine Vial Kayser, 2024-01-23 This book analyses the dynamic relationship between art and subjective consciousness, following a phenomenological, pragmatist and enactive approach. It brings out a new approach to the role of the body in art, not as a speculative object or symbolic material but as the living source of the imaginary. It contains theoretical contributions and case studies taken from various artistic practices (visual art, theatre, literature and music), Western and Eastern, the latter concerning China, India and Japan. These contributions allow us to nourish the debate on embodied cognition and aesthetics, using theory—philosophy, art history, neuroscience—and the authors' personal experience as artists or spectators. According to the Husserlian method of “reduction” and pragmatist introspection, they postulate that listening to bodily sensations—cramps, heartbeats, impulsive movements, eye orientation—can unravel the thread of subconscious experience, both active and affective, that emerge in the encounter between a subject and an artwork, an encounter which, following John Dewey, we deem to be a case study for life in general. Ce livre analyse la relation dynamique entre l'art et la conscience subjective, selon une approche phénoménologique, pragmatiste et enactive. Il vise à faire émerger une nouvelle approche du rôle du corps dans l'art, non pas comme objet spéculatif ou matériau symbolique, mais comme source vivante de l'imaginaire. Les contributions théoriques et les études de cas sont prises à diverses pratiques artistiques (arts visuels, théâtre, littérature et musique), occidentales et orientales, ces dernières concernant la Chine, l'Inde et le Japon. Selon la méthode husserlienne de « réduction », en écho à l'introspection pragmatiste, les textes témoignent que l'écoute des sensations corporelles – crampes, battements de cœur, mouvements pulsionnels, orientation des yeux – mises en jeu par l'œuvre, permet de dénouer le fil de l'expérience inconsciente, à la fois kinesthésique et affective, qui émerge dans la rencontre entre un sujet et une œuvre d'art, une rencontre comprise, à la manière de Dewey, comme un cas d'école de la vie en général.

**Evolutionary Ecology of Social and Sexual Systems** J. Emmett Duffy, Martin Thiel, 2007-09-06 Understanding of animal social and sexual evolution has seen a renaissance in recent years with discoveries of frequent infidelity in apparently monogamous species, the importance of sperm competition, active female mate choice, and eusocial behavior in animals outside the traditional social insect groups. Each of these findings has raised new questions, and suggested new answers, about the evolution of behavioral interactions among animals. This volume synthesizes recent research on the sexual and social biology of the Crustacea, one of the dominant invertebrate groups on earth. Its staggering diversity includes ecologically important inhabitants of nearly every environment from deep-sea trenches, through headwater streams, to desert soils. The wide range of crustacean phenotypes and environments is accompanied by a comparable diversity of behavioral and social systems, including the elaborate courtship and wildly exaggerated morphologies of fiddler crabs, the mysterious queuing behavior of migrating spiny lobsters, and even eusociality in coral-reef shrimps. This diversity makes crustaceans particularly valuable for exploring the comparative evolution of sexual and social systems. Despite exciting recent advances, however, general recognition of the value of Crustacea as models has lagged behind that of the better studied insects and vertebrates. This book synthesizes the state of the field in crustacean behavior and sociobiology and places it in a conceptually based, comparative framework that will be valuable to active researchers and students in animal behavior, ecology, and evolutionary biology.

It brings together a group of internationally recognized and rising experts in fields related to crustacean behavioral ecology, ranging from physiology and functional morphology, through mating and social behavior, to ecology and phylogeny. Each chapter makes connections to other, non-crustacean taxa, and the volume closes with a summary section that synthesizes the contributions, discusses anthropogenic impacts, highlights unanswered questions, and provides a vision for profitable future research.

*Handbook of Entrepreneurship Research* Zoltan J. Acs, David B. Audretsch, 2010-08-03 Interest in and attention to entrepreneurship has exploded in recent years. Nevertheless, much of the research and scholarship in entrepreneurship has remained elusive to academics, policymakers and other researchers, in large part because the field is informed by a broad spectrum of disciplines, including management, finance, economics, policy, sociology, and psychology, often pursued in isolation from each other. Since its original publication in 2003, the Handbook of Entrepreneurship Research has served as the definitive resource in the field, bringing together contributions from leading scholars in these disciplines to present a holistic, multi-dimensional approach. This new edition, fully revised and updated, and including several new chapters, covers all of the primary topics in entrepreneurship, including entrepreneurial behavior, risk and opportunity recognition, equity financing, business culture and strategy, innovation, and the impact of entrepreneurship on economic growth and development. Featuring an integrative introduction, extensive literature reviews and reference lists, the Handbook will continue to serve as a roadmap to the rapidly evolving and dynamic field of entrepreneurship.

**Crime and Criminal Justice in Israel** Robert R. Friedmann, 2012-02-01 Offers insights into the criminal justice system and the field of criminology in Israel.

**The Complete MRCPsych** Ashok Patel, 2006-01-27 Studying for the MRCPsych exams can seem a daunting prospect, especially when faced with the vast amounts of literature available to help, but this book offers a complete solution in the form of a thoroughly comprehensive guide to the Part II Exam. Completely up to date and taking in the recent changes to the exam, the book reflects the exam format and content extremely accurately. Written by an experienced examiner with contributions from trainees, the book combines these elements to ensure that it is the perfect revision companion for any psychiatrist preparing for the MRCPsych Part II.

*Social Theory and Social Structure* Robert King Merton, 1968 This new printing is not a newly revised edition, only an enlarged one. The revised edition of 1957 remains intact except that its short introduction has been greatly expanded to appear here as Chapters I and II. The only other changes are technical and minor ones: the correction of typographical errors and amended indexes of subjects and names.

**The Oxford Handbook of Higher Education Systems and University Management** Gordon Redding, Antony Drew, Stephen Crump, 2019-06-25 This Handbook sets out a theoretical framework to explain what higher education systems are, how they may be compared over time, and why comparisons are important in terms of societal progress in an increasingly turbulent and interconnected world. Drawing on insights from over 40 leading international scholars and practitioners, the chapters examine the main challenges facing universities and institutions, how they should be managed in changing conditions, and the societal implications of different approaches to change. Structured around the premise that higher education plays a significant role in ensuring that a society achieves the capacity to adjust itself to change, while at the same time remaining cohesive as a social system, this Handbook explores how current internal and external forces disturb this balance, and how institutions of higher education could, and might, respond.

**Chronic Illness in Canada** Joseph Osuji, 2012 Adapted from our best-selling text, *Chronic Illness: Impact and Intervention*, Eighth Edition by Pamela D. Larsen and Ilene Morof Lubkin, this text includes recent definitions and models of care aimed towards chronic disease management (CDM) currently used in Canada. Canadian and global perspectives on chronic illness management are addressed throughout the text, and chapters on the role of primary health care in chronic care, family nursing, global health, and chronic illness are included to address the needs of nursing curriculum standards in Canada. Key Features  
\*Chapter on complementary therapies within a Canadian health context \*Every chapter is updated to include Canadian content and an emphasis on global healthcare \*Contains theoretical and practical perspectives to address the continuing emergence of chronic illness in Canada and the world

**The World of Science Education**, 2010-01-01 Each volume in the 7-volume series *The World of Science Education* reviews research in a key region of the world. These regions include North America, South and Latin America, Asia, Australia and New Zealand, Europe and Israel, Arab States, and Sub-Saharan Africa. The focus of this Handbook is on science education in Asia and the scholarship that most closely supports this program.

**The International Encyclopedia of Communication Theory and Philosophy, 4 Volume Set** Jefferson D. Pooley, Eric W. Rothenbuhler, 2016-10-31 The *International Encyclopedia of Communication Theory and Philosophy* is the definitive single-source reference work on the subject, with state-of-the-art and in-depth scholarly reflection on key issues from leading international experts. It is available both online and in print. A state-of-the-art and in-depth scholarly reflection on the key issues raised by communication, covering the history, systematics, and practical potential of communication theory Articles by leading experts offer an unprecedented level of accuracy and balance Provides comprehensive, clear entries which are both cross-national and cross-disciplinary in nature The Encyclopedia presents a truly international perspective with authors and positions representing not just Europe and North America, but also Latin America and Asia Published both online and in print Part of The Wiley Blackwell-ICA International Encyclopedias of Communication series, published in conjunction with the International Communication Association. Online version available at Wiley Online Library

*A Companion to Critical and Cultural Theory* Imre Szeman, Sarah Blacker, Justin Sully, 2017-09-25 This Companion addresses the contemporary transformation of critical and cultural theory, with special emphasis on the way debates in the field have changed in recent decades. Features original essays from an international team of cultural theorists which offer fresh and compelling perspectives and sketch out exciting new areas of theoretical inquiry Thoughtfully organized into two sections – lineages and problematics – that facilitate its use both by students new to the field and advanced scholars and researchers Explains key schools and movements clearly and succinctly, situating them in relation to broader developments in culture, society, and politics Tackles issues that have shaped and energized the field since the Second World War, with discussion of familiar and under-theorized topics related to living and laboring, being and knowing, and agency and belonging

*Human Nature and the Social Order* Charles Horton Cooley, 1902 This work remains a pioneer sociological treatise on American culture. By understanding the individual not as the product of society but as its mirror image, Cooley concludes that the social order cannot be imposed from outside human nature but that it arises from the self. Cooley stimulated pedagogical inquiry into the dynamics of society with the publication of *Human Nature and the Social Order* in 1902. *Human Nature and the Social Order* is something more than an admirable ethical treatise. It is also a classic work on the process of social communication as the very stuff of which the self is made.

**Modern German Sociology** Volker Meja, Dieter Misgeld, Nico Stehr, 2021-09-30 Originally published in 1987 Modern German Sociology is a collection of essays containing sociological work published in German since World War II. Included are sections from such out-standing figures as Theodor Adorno, Alexander Mitscherlich, Jürgen Habermas, Niklas Luhmann, and Ralf Darendorf. The editors have arranged the essays into five sections that express their view of the chief aspects of modern German sociology and have written a helpful introduction to each section.
