Social TV Mike Proulx, Stacey Shepatin, 2012-01-26 The Internet didn't kill TV! It has become its best friend. Americans are watching more television than ever before, and we're engaging online at the same time we're tuning in. Social media has created a new and powerful "backchannel", fueling the renaissance of live broadcasts. Mobile and tablet devices allow us to watch and experience television whenever and wherever we want. And "connected TVs" blend web and television content into a unified big screen experience bringing us back into our living rooms. Social TV examines the changing (and complex) television landscape and helps brands navigate its many emerging and exciting marketing and advertising opportunities. Social TV topics include: Leveraging the "second screen" to drive synched and deeper brand engagement Using social ratings analytics tools to find and target lean-forward audiences Aligning brand messaging to content as it travels time-shifted across devices Determining the best strategy to approach marketing via connected TVs Employing addressable TV advertising to maximize content relevancy Testing and learning from the most cutting-edge emerging TV innovations The rise of one technology doesn't always mean the end of another. Discover how this convergence has created new marketing opportunities for your brand.

Connected Viewing Jennifer Holt, Kevin Sanson, 2013-12-04 As patterns of media use become more integrated with mobile technologies and multiple screens, a new mode of viewer engagement has emerged in the form of connected viewing, which allows for an array of new relationships between audiences and media texts in the digital space. This exciting new collection brings together twelve original essays that critically engage with the socially-networked, multi-platform, and cloud-based world of today, examining the connected viewing phenomenon across television, film, video games, and social media. The result is a wide-ranging analysis of shifting business models, policy matters, technological infrastructure, new forms of user engagement, and other key trends affecting screen media in the digital era. Connected Viewing contextualizes the dramatic transformations taking place across both media industries and national contexts, and offers students and scholars alike a diverse set of methods and perspectives for studying this critical moment in media culture.

Fostering Brand Community Through Social Media William F. Humphrey, Jr., Debra A. Laverie, Shannon B. Rinaldo, 2016-02-15 This book focuses on building and maintaining brand community in the emerging, dynamic space of social media. A theoretical model encompassing brand characteristics, relational factors, and characteristics of the brand user community is used as a structure to explain the various aspects of online brand communities. Furthermore, the authors discuss how online brand communities differ from and can be used to complement traditional, face-to-face brand communities. Brand managers, social media managers, and other members of the brand team will find this book useful for strategic decision-making in both building and maintaining brand communities. In addition, this book will serve as a practical guide for working professionals enrolled in executive education degree programs as these programs continue to be developed in universities throughout the world.

Media Audiences John L. Sullivan, 2019-07-24 Whether we are watching TV, surfing the Internet, listening to our iPods, or reading a novel, we all engage with media as an audience. Despite the widespread use of this term in our popular culture, the meaning of the audience is complex, and it has undergone significant historical shifts as new forms of mediated communication have developed from print, telegraphy, and radio to film, television, and the Internet. John L. Sullivan's second edition of

Media Audiences: Effects, Users, Institutions, and Power explores the concept of media audiences from four broad perspectives: as victims of mass media, as market constructions & commodities, as users of media, and as producers & subcultures of mass media. The goal is for students to be able to think critically about the role and status of media audiences in contemporary society, reflecting on their relative power in relation to institutional media producers.

Social tv Giampaolo Colletti, Andrea Materia, 2013-10-30T00:00:00+01:00 Nell'anno che per tutti gli analisti internazionali sancirà il definitivo boom della Social TV il mercato italiano dei contenuti televisivi deve evolvere per sopravvivere. Devono farlo i broadcaster tradizionali e i loro fornitori di prodotto. Dall'altra parte della barricata, devono evolvere anche i nuovi player che arrivano dal web. Google/YouTube, Apple, Netflix, Hulu, Amazon/LoveFilm, VEVO, Yahoo!, gli editori "pure digital" e le loro sponde social (Facebook e Twitter su tutti) godono del favore degli utenti più smalizati, ma difettano di un modello di business consolidato. Tutti insieme devono confrontarsi con il desiderio di interattività e personalizzazione dei telespettatori. Devono vincere battaglie di ascolti che non si svolgono più su un singolo schermo-totem in salotto, ma si declinano tra smartphone e tablet, pc e console di gioco, applicazioni e interazioni, log in e check-in. In parole povere devono agguantare l'audience su qualsiasi device Internet-connesso, per accontentare le esigenze di inserzionisti sempre meno attenti alla massa e sempre più in cerca invece di segmenti di consumatori fortemente engaged..

Smart. Internet(s): una investigación Frédéric Martel, 2014-11-05 Un análisis sorprendente del uso de internet y las redes sociales en el mundo, por el aclamado autor de Cultura Mainstream. ¿Cómo ha podido China crear sus propios clones de Google, Facebook y YouTube? ¿De qué manera los países árabes supieron emplear las redes sociales para emprender sus revoluciones? ¿Debemos temer que el inglés se convierta en la lengua empleada «por defecto» en Internet? De Silicon Valley a Tokio, de Brasil a Washington, de Sudáfrica a la India y llegando hasta Cuba o Gaza, Frédéric Martel emprende una investigación sin precedentes, sobre el terreno, y hace un análisis profundo del protagonismo y la influencia de internet y las redes sociales en el mundo, demostrando que hay tantos internets como países. Este enfoque del tema, novedoso y optimista, da cuenta de un mundo mucho más smart de lo que pensábamos, en el que se respetan las singularidades nacionales, las identidades y las diferencias locales. No debemos temer el mundo digitalizado: el futuro de internet depende del uso que se haga de él. Reseñas: «Una importante investigación sobre el terreno que ilumina los rostros dispersos de la revolución digital.» Les Inrockuptibles «Un viaje apasionante por las capitales digitales, de Silicon Valley a Sudáfrica, que demuestra que la globalización no se traduce en uniformización.» Sébastien Le Fol, Le Point «Internet y las nuevas tecnologías han iniciado ya un cambio que no tiene vuelta atrás, pero que encierra una serie de peligros que no están siendo evaluados.» El Norte de Castilla

How Cool Brands Stay Hot Joeri Van Den Bergh, Mattias Behrer, 2016-04-03 WINNER: Berry-AMA Book Award 2012 (1st edition) WINNER: Expert Marketing Magazine's Marketing Book of the Year Award 2011 (1st edition) How Cool Brands Stay Hot analyses Generations Y and Z, the most marketing savvy and advertising-critical generations yet. It reveals how millennials think, feel and behave, offering proven strategies to market to these groups more effectively and remain a relevant, appealing brand. Featuring interviews with global marketing executives of successful brands such as the BBC, Converse, Coca-Cola, eBay and MasterCard along with case studies from companies including H&M, MTV and Diesel, it guides readers in developing the right strategies to leave a lasting business impact. This fully revised 3rd edition of How Cool Brands Stay Hot goes beyond the discussion of Generation Y, expanding its reach with an entirely new chapter on Generation Z and a detailed analysis of the impact that issues such as recession, social media and mobile marketing have had on these consumers. Based on new figures, case studies and interviews, it provides a fresh take on what remain critical issues for anyone hoping to market to those who come after Generation X.

Smart Frédéric Martel, 2014-04-23 Dans ce livre, tout s'accélère. Le numérique amplifie la mondialisation ; internet est mobile ; le téléphone et la télévision deviennent « smart ». Comment la Chine a-t-elle créé des clones de Google ou Facebook et bâti son propre internet censuré ? Comment

les pays arabes ont-ils utilisé les réseaux sociaux pour faire leurs révolutions et Israël pour être une « start-up nation » ? Avec *Mainstream*, Frédéric Martel avait décrit la guerre mondiale de la culture et des médias ; avec *Smart*, il prolonge l'enquête dans toutes les capitales numériques. De la Silicon Valley au Japon, du Brésil à l'Afrique du Sud, et jusqu'à Gaza, ce livre raconte la bataille d'internet et son futur. Ce faisant, il montre qu'internet n'a jamais été véritablement global, qu'il existe autant d'usages du web qu'il y a de territoires, que les frontières demeurent. *Smart* est la première grande enquête de terrain sur le nouveau monde qui vient.

Cuba: Another Side of the Story Iris M. Diaz, 2010-01-27 *Cuba: Another Side of the Story* is a memoir of how life changed for many children growing up in a country slowly dying under constant political conflict. The story is told in three parts: Part I "Before Castro," Part II "Life under Castro," Part III "Life in Exile." This book creates a vivid sense of time and place through childhood memories of pre- and post-Castro Cuba, from 1945 to 1967. The forty two stories, told through the voice of a child, highlight moments of injustice in the eyes of a young girl who does not understand why the world around her is so strange. Her nanny, a poor black woman, shaped her soul and showed her the other side of the story, the story of the poor who are voiceless in a world where only those who can afford to pay for elite private schools can get ahead in life. This nanny becomes the spiritual guide who enables a very sensitive young child to navigate in a confusing world. Every one of the 42 stories focuses on a moment where the child relives memories of what she witnessed growing up. The first story is dedicated to Nana, the person whose memory guides her to write her life story. The title of the stories clearly describe how Nana influenced the author and helped her see the other side of the story. "El Barrio" describes a neighborhood where the rich, middle class and the poor lived in close proximity, a reflection of what Cuban society was in the 1950's-"Everyone lived under the same sun, moon and stars but our worlds were very different." The chapter about "Sunday Mass" describes the well-dressed parishioners who every Sunday walked through the park next to the Church and ignored the beggars who held their arms out, palms up, hoping to get a nickel or dime. "I don't think the beggars got any of the money the priests collected every Sunday because they came back every Sunday. I never understood why God didn't take care of everybody the same way." Religious conflict plus the rich versus poor struggles are present throughout the book. Castro started his revolution claiming he wanted to help the poor. In the end, everyone, including the poor, were deceived by a charismatic man who understood what the poor wanted to hear, a promise of equality for all. His communist doctrine doomed the possibility of ever achieving equality for all. During Sunday Mass the priests would often remind poor parishioners how much God loved the needy by quoting verses like, "Blessed are the poor for they shall inherit the Kingdom of God," or "For it is easier for a camel to go through the eye of a needle than for a rich person to enter the kingdom of God." Religion and poverty seem to be two themes that prevail throughout this book, expressed clearly by the voice of the author who puts into words her thoughts by writing, "I never understood why God didn't take care of everybody the same way." The stories "The Day the Old Cuba Died" and "The Bay of Pigs Invasion"

describe the days leading to the failed attempt by Cuban exiles to get rid of the Castro regime. All hope and dreams died. The only dream left was to find a way to leave the island. The chapter “Adios Cuba” is a vivid memory of what it means to become a political exile. “Exile is more than a change of address, it is a spiritual displacement.” This book is not a research study about Cuban maids, family, religion or politics; it is a story about a young child and the life of her nanny and maids who allowed her to enter their world, a world that many don’t dare to acknowledge.
