Desert Solitaire Edward Abbey, 2011-08-21 This memoir of life in the American desert by the author of The Monkey Wrench Gang is a nature writing classic on par with Rachel Carson's Silent Spring. In Desert Solitaire, Edward Abbey recounts his many escapades, adventures, and epiphanies as an Arches National Park ranger outside Moab, Utah. Brimming with arresting insights, impassioned arguments for wilderness conservation, and a raconteur's wit, it is one of Abbey's most critically acclaimed works. Through stories and philosophical musings, Abbey reflects on the condition of our remaining wilderness, the future of a civilization, and his own internal struggle with morality. As the world continues its rapid development, Abbey's cry to maintain the natural beauty of the West remains just as relevant today as when this book first appeared in 1968.

Playable with any tarot deck. It's amazing something like this hasn't been created until now. Received my book today and absolutely love it. Arrived and I couldn't stop playing it: -)

The Seven Sisters Margaret Drabble, 2013-09-05 An Englishwoman at a crossroads in her life takes an unexpected path in this “teasingly clever new novel” by the author of *The Millstone* (Publisher Weekly). Candida Wilton—a woman recently betrayed, rejected, divorced, and alienated from her three grown daughters—moves from a beautiful Georgian house in lovely Suffolk to a two-room walk-up flat in a run-down building in central London. The move, however, is not a financial necessity. She herself wonders if she’s putting herself through a survival test...or perhaps a punishment. How will Candida adjust to this shabby, menacing, but curiously appealing city? What can happen, at her age, to change her life? There is a relationship with a computer to which she now confides her past and her present. An adult-ed class on Virgil offers friendships of sorts with other women—widows, divorced, never married, women straddled between generations. And then comes Candida's surprise inheritance, and the surprising things she chooses to do with it...

The Global Smartphone Daniel Miller ,Laila Abed Rabho ,Patrick Awondo , Maya de Vries,Marília Duque,Pauline Garvey, Laura Haapio-Kirk,Charlotte Hawkins,Alfonso Otaegui ,Shireen Walton,Xinyuan Wang,2021-05-06 The smartphone is often literally right in front of our nose, so you would think we would know what it is. But do we? To find out, 11 anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide 'perpetual opportunism', as they are always with us. The authors show how the smartphone is more than an 'app device' and explore differences between what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile money in Cameroon and Uganda, and access to health information in Chile and Ireland - all alongside diverse trajectories of ageing in Al Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people's lives around the world.
