Song-Roundels and Games (Classic Reprint) Henry Suder,2018-03-05 Excerpt from Song-Roundels and Games During a number of years educators in all parts of our country have endeavored to make games more popular, and to some extent good results have been obtained. Games are played by children as well as adults in the numerous private and public gymnasiums and on the play grounds which city and school authorities have provided for the general public. In these gymnasiums and play grounds one finds children of various physical conditions, some strong and some weak, and it therefore follows that when games are played without system and supervision, the strong eventually become the main participants and the benefits which should be shared equally by all are reaped by the strong alone. It is, therefore, apparent that some one is needed to supervise, guide, and introduce games, and to do this he must be interested in the work, must understand the games, and must have played them himself. And it is as a guide to these instructors that I have conceived the idea of arranging and composing 'the games found in this little book. The games herein contained are song-games, roundels (reigen), accompanied with vocal music, class, competitive, and antagonistic games. Some of the songs I translated from the German, others are original, but all are written to well known melodies. To some extent the games are graded, but, on the whole, I have left it to the judgment of the instructor to select those suitable for his purpose. **Swedish Song Games** Valborg Kastman,2018-03-12 Excerpt from Swedish Song Games: A Collection of Games and Songs for School, Home, and Playground Use The rendering of the songs is as literal as the differences of country and language allow. Sometimes, in fitting the words to the music, the smoothness and accuracy of the translations have had to give way to the spirit and action of the game. Adaptations of the original were occasionally made necessary by the different conditions under which the games will be played in the United States. It will be found, however, that the characteristic flavor of each song has been preserved. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. **Unlimited Replays** William James Gibbons,2018 This book explores the intersections of values and meanings in two types of replay: where video games meet classical music, and vice versa. From the bleeps and bleeps of 1980s arcades to the world's most prestigious concert halls, classical music and video games have a long history together. Medieval chant, classical symphonies, postminimalist film scores, and everything in between fill the soundtracks of many video games, while world-renowned orchestras frequently perform concerts of game music to sold-out audiences. Yet combining video games and classical music also presents a challenge to traditional cultural values around these media products. Classical music is frequently understood as high art, insulated from the whims of popular culture; video games, by contrast, are often regarded as pure entertainment, fundamentally incapable of crossing over into art. By delving into the shifting and often contradictory cultural meanings that emerge when classical music meets video games, *Unlimited Replays* offers a new perspective on the possibilities and challenges of art in contemporary society. - William Gibbons is Assistant Professor of Musicology at Texas Christian University.

**The Song Play Book** Mary A. Wollaston,2017-11-26 Excerpt from The Song Play Book: Singing Games for Children These fifty song-plays have been chosen from a great number because of their adaptability to class-room and playground conditions; they also afford a large amount of vigorous exercise in proportion to the small amount of singing demanded. London Bridge and games of similar type, though favorites with the children, have been purposely omitted since they are games in which the amount of singing and exercise is not proportionate. *A Book of Song Games and Ball Games* Kate F. Bremner,2017-12-23 Excerpt from A Book of Song Games and Ball Games: Adapted for School Use But play, whether it concern children or adults, must maintain the essential characteristics of play, viz emancipation from the earnestness with regard to the end which is the mark of all true work. If one is working, it is for a conscious, practical aim, while real play, like pure art, ought to be its own aim. In Britain quite in contrast to what has been the case on the continent - games have always been highly appreciated; but I am doubtful if in Britain play has always remained play, and if the players themselves have not too often had a certain inclination to put into it a seriousness which has nothing to do with play as play. Where play exclusively for the sake of pleasure is changed into play for the sake of gaining a prize, ideal or material, where there are professionals in football as there are professionals in shoemaking, there is no longer play as it was originally; it has been altered into earnest work, and has become what is called sport. It is with Games, as it is with Educations. They comprehend, and necessarily must comprehend, something partly human, and partly national. From the History of Games we learn that the majority of games now used are very old. There are Ball, Stone, and Song Games, where the origin is lost in the night of the tales. I think that the expression a national game has to be understood less as a game which has its origin in the nation in question than as a game which has become a favourite game of that nation, and has been changed to suit its peculiar character. I think Miss Bremner has well understood this. She has understood that what can give pleasure to Swedish children may also give pleasure to English-speaking children, on condition that it is properly adapted to them. May - I sincerely wish and hope so' - these games give pleasure to many, and at the same time serve as a means of Education. Man, adults as well as children, needs the one as well as the other, and perhaps most both united. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. *Index to Kindergarten Songs Including Singing Games and Folk Songs (Classic Reprint)* Margery Closey Quigley,2015-08-05 Excerpt from Index to Kindergarten Songs Including Singing Games and Folk Songs This index, the plan of which is similar to that of the well known Granger index to recitations, was suggested by demands from St. Louis kindergartners for the location of songs for which they were searching. The idea is due to Mrs. Harriet P. Sawyer, Chief of the Instruction Department in the St. Louis Public Library, and valuable preliminary work was done also by Miss Effie L. Power, Supervisor of Children's Work, and by Miss Margaret Curran, Children's Librarian at the Divoll Branch. The Librarian has had nothing to do with it except to give advice occasionally in matters of policy. It was expected at first that the St. Louis Public Library would publish the index, but it has proved to be larger than was anticipated, and the Publishing Board of the American Library Association has kindly relieved us of this part of the enterprise. **Mother's Songs, Games and Stories** Friedrich Froebel,2017-09-16 Excerpt from Mother's Songs, Games and Stories: Froebel's the Kose-Lieder Women are expected to pour new wine into old bottles; to rear children in an atmosphere of peace and love, willing to help and to be helped, to learn and to teach, to share and share alike, - for all this is thought charming in children, - and then these children are expected to enjoy and to succeed in the various ferocities and rapacities of the world, first encountered at school and college. Women are expected to make bricks without straw; without disturbing the Sleepy surface of domesticity, they are expected to rear children to suit the new time. In the past twenty years, moreover, not only has the religious and moral life of the nation been undergoing great change, but its intellectual life has grown more exacting, and now its Spiritual life is demanding the first place. Every art and science has been extending and asserting its claims. A good all round man, as the Americans express it, may be our ideal, yet we feel the old maxim is true Not many things, but much. Circle Round the Zero Maureen Kennedy,2014-06-15 This classic collection from Maureen Kennedy was first published in 1974. This brand new edition has been revised and edited to present classic children's songs, games, jump rope chants, and clapping games. These pieces come directly from children on the playground. Maureen has researched and collected all of these wonderful activities both as a historian and as a music educator. She has preserved them in the written notation exactly as she heard the children play them. This is a wonderful resource of all elementary teachers. A world of rhythm and melody may be going on right in your neighborhood. To tune in on what's happening, join the children on the playground or sidewalk, and listen. Chances are your local variety of play chants is being sung and clapped to or used as accompaniments to bouncing balls and jump ropes. I learned many of the songs and games in this collection from the children in my school. They sang, danced and played intricate clapping games with great gusto. Wherever children make do with improvised play space, may these songs and rhymes continue to be chanted and the games played. -Maureen Kennedy
