More Brilliant than the Sun Kodwo Eshun, 2020-02-04 The classic work on the music of Afrofuturism, from jazz to jungle **More Brilliant than the Sun: Adventures in Sonic Fiction** is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, **More Brilliant than the Sun** is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

Grime Kids DJ Target, 2019-07-23 For fans of Wiley, Dizzee Rascal and Stormzy, **Grime Kids** is the definitive inside story of Grime. 'An essential read for anyone with the slightest interest in the birth of Grime' *The Wire* 'Sharp and nostalgic' *The Observer* A group of kids in the 90s had a dream to make their voice heard - and this book documents their seminal impact on today's pop culture. DJ Target grew up in Bow under the shadow of Canary Wharf, with money looming close on the skyline. The 'Godfather of Grime' Wiley and Dizzee Rascal first met each other in his bedroom. They were all just grime kids on the block back then, and didn't realise they were to become pioneers of an international music revolution. A movement that permeates deep into British culture and beyond. Household names were borne out of those housing estates, and the music industry now jumps to the beat of their gritty reality rather than the tune of glossy aspiration. Grime has shaken the world and Target is revealing its explosive and expansive journey in full, using his own unique insight and drawing on the input of grime's greatest names. What readers are saying about **Grime Kids**: 'Fantastic depiction of the inception of a genre that has spanned the millennium' 'Brilliant insight in to grim music from one of the pioneers of the scene' 'This book really sums up the feeling of being a DJ perfectly'

Breakcore Andrew Whelan, 2009-05-27 Peer-to-peer music exchange, sampling, and digital distribution have garnered much attention in recent years, notably in debates about authorship, intellectual property, media control, and 'Web 2'. However, empirical scholarship on how these technologies are used creatively by musicians and fans is still sparse. In this interdisciplinary ethnography of 'bedroom producer' culture, Andrew Whelan examines interaction and exchange within a specific online milieu: peer-to-peer chatrooms dedicated to electronic music, focusing on a genre known as 'breakcore'. The author draws on semantic anthropology, ethnomethodology, sociolinguistics, and critical musicology to explore the activity afforded by this controversial and criminalised environment. Through in-depth analysis of often ritually vituperative text-based interaction, discussions of music, and the samples used in that music, Whelan describes the cultural politics and aesthetics of bedroom producer identity, highlighting the roles gender and ethnicity play in the constitution of subcultural authenticity. Empirically driven throughout, this book also engages with a spectrum of social theory; in doing so, it highlights the intersections between gender, interaction, technology and music. This book will prove valuable for students and scholars with interests in gender and language use, computer-mediated communication, online subcultures and virtual community, and the evolution, production and distribution of electronic music.

Inflamed Invisible David Toop,2019-12-17 A rich collection of essays tracing the relationship between art and sound. In the 1970s David Toop became preoccupied with the possibility that music was no longer bounded by formalities of audience: the clapping, the booing, the short attention span, the demand for instant gratification. Considering sound and listening as foundational practices in themselves leads music into a thrilling new territory: stretched time, wilderness, video monitors, singing sculptures, weather, meditations, vibration and the interior resonance of objects, interspecies communications, instructional texts, silent actions, and performance art. Toop sought to document the originality and unfamiliarity of this work from his perspective as a practitioner and writer. The challenge was to do so without being drawn back into the domain of music while still acknowledging the vitality and hybridity of twentieth-century musics as they moved toward art galleries, museums, and site-specificity. Toop focused on practitioners, whose stories are as compelling as the theoretical and abstract implications of their works. *Inflamed Invisible* collects more than four decades of David Toop's essays, reviews, interviews, and experimental texts, drawing us into the company of artists and their concerns, not forgetting the quieter, unsung voices. The volume is an offering, an exploration of strata of sound that are the crossing points of sensory, intellectual, and philosophical preoccupations, layers through which objects, thoughts and air itself come alive as the inflamed invisible.

Monolithic Undertow Harry Sword,2022-04-19 An inspired and intuitive navigation of the drone continuum . . . with a compass firmly set to new and enlightening psychedelic truths-- BECK In 1977 Sniffin' Glue verbalised the musical zeitgeist with their infamous 'this is a chord; this is another; now form a band' illustration. The drone requires neither chord nor band, representing - via its infinite pliability and accessibility - the ultimate folk music: a potent audio tool of personal liberation. Immersion in hypnotic and repetitive sounds allows us to step outside of ourselves, be it chant, a 120dB beasting from Sunn O))), standing front of the system as Jah Shaka drops a fresh dub or going full headphone immersion with Hawkwind. These experiences are akin to an audio portal - a sound Tardis to silence the hum and fizz of the unceasing inner voice. The drone exists outside of us, but also - paradoxically - within us all; an aural expression of a universal hum we can only hope to fleetingly channel. *Monolithic Undertow* is the definitive text to explore the music of drone and its related genres. Exhaustively researched this tome will not leave music fans interested in drone, doom, metal, and folk music unsatisfied.

The Creative Mind Margaret A. Boden,2004-02-24 How is it possible to think new thoughts? What is creativity and can science explain it? And just how did Coleridge dream up the creatures of *The Ancient Mariner*? When *The Creative Mind: Myths and Mechanisms* was first published, Margaret A. Boden's bold and provocative exploration of creativity broke new ground. Boden uses examples such as jazz improvisation, chess, story writing, physics, and the music of Mozart, together with computing models from the field of artificial intelligence to uncover the nature of human creativity in the arts. The second edition of *The Creative Mind* has been updated to include recent developments in artificial intelligence, with a new preface, introduction and conclusion by the author. It is an essential work for anyone interested in the creativity of the human mind.

Side by Side Robert Wyatt, 2020-09-17 Selected and arranged by the authors themselves, and featuring an introduction by Jarvis Cocker, Side by Side presents the lyrics, poems, writings and drawings of innovative musician Robert Wyatt and his creative partner, English painter and songwriter Alfie Benge. As a founding member of influential English rock bands Soft Machine and Matching Mole, and with a solo career which has lasted for over forty years and seen him collaborate with a diverse range of artists including Bjork, Brian Eno, Carla Bley, Paul Weller and David Gilmour, his own music remains unclassifiably personal. Alfie Benge is a visual artist, songwriter and pioneering music manager, having managed Robert's career for fifty years. She is also married to Robert. Since 1982 they have collaborated on many of Robert's most well-known songs. This unique volume celebrates one of the most enduring creative partnerships of the last half-century. 'Taken together Alfie & Robert's lyrics combine to create a humanist world-view that is at once global & particular. Take it from me: that's no mean feat.' Jarvis Cocker 'English music has produced some fascinating personalities, but few are as unusual as Robert Wyatt.' Brian Eno 'A highly idiosyncratic and intuitively melodic maverick' BBC Music

Let's Go to Hell James Burns, 2015-08-21 The Butthole Surfers remain one of the most enigmatic bands in the history of rock music. Most of their records have no information of any kind, and often with the suggestion that you play them at 69 rpm.... They lived like nomads through much of the 1980s, and built their reputation upon tours that never ended, and shows that resembled hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have

emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...

Beefy's Tune (Dean Blunt Edit) Dhanveer Singh Brar, 2020 Dean Blunt is the most important British artist of the current century because he fundamentally does not care about Britain. His importance makes it shocking that such little critical attention has been paid to his work. His indifference explains it. Dhanveer Singh Brar's Beefy's Tune (Dean Blunt Edit) looks to initiate a conversation that needs to be had about Dean Blunt, about Britain (through Blunt's indifference to it), and about Blackness in Britain (through the depth and complexity of Blunt's feeling for it). Using the 2016 album 'BBF Hosted By DJ Escrow' as a means of navigation, Brar hears Blunt in order to access the long contested dream of Britain's disappearance that was conducted under the name of Black British Arts. Partial (in the sense of his relation to Blunt) and partial (in the sense of unfinished), Beefy's Tune (Dean Blunt Edit) see's Dhanveer Singh Brar give the dream a grammar, if not a name. To encounter BBF Hosted by DJ Escrow through Dhanveer Brar's ears is to see Babylon through his eyes, and to sense Britain -- to uncover with 'accuracy, brutality and beauty' the complexities of its meaning -- through the social music, social vision and social feel of those who refuse the Britishness that is withheld from them. Brar discerns Dean Blunt's rightful place in a cultural field where critical discourse and sonic dream are fundaments of a dub university curriculum whose various approaches show the absolute necessity and generativity of stealth, flaw and the resistance to category. Blunt's love letter to the blackness of Hackney deserves the most rigorous, gentle, erudite attention. Happily, Dhanveer Brar is here to provide it. - Fred Moten

Unusual Sounds David Hollander, Mark Iosifescu, 2018 Unusual Sounds is a deep dive into the hidden musical universe of Library Music, featuring histories, interviews, and extraordinary visuals from the field's most celebrated creators.

Teklife, Ghettoville, Eski Dhanveer Singh Brar, 2021-04-27 How black electronic dance music makes it possible to reorganize life within the contemporary

city. Teklife, Ghettoville, Eski argues that Black electronic dance music produces sonic ecologies of Blackness that expose and reorder the contemporary racialization of the urban--ecologies that can never simply be reduced to their geographical and racial context. Dhanveer Singh Brar makes the case for Black electronic dance music as the cutting-edge aesthetic project of the diaspora, which due to the music's class character makes it possible to reorganize life within the contemporary city. Closely analysing the Footwork scene in South and West Chicago, the Grime scene in East London, and the output of the South London producer Actress, Brar pays attention to the way each of these critically acclaimed musical projects experiment with aesthetic form through an experimentation of the social. Through explicitly theoretical means, Teklife, Ghettoville, Eski foregrounds the sonic specificity of 12 records, EPs, albums, radio broadcasts, and recorded performances to make the case that Footwork, Grime, and Actress dissolve racialized spatial constraints that are thought to surround Black social life. Pushing the critical debates concerning the phonic materiality of blackness, undercommons, and aesthetic sociality in new directions, Teklife, Ghettoville, Eski rethinks these concepts through concrete examples of contemporary black electronic dance music production that allows for a theorization of the way Footwork, Grime, and Actress have--through their experiments in blackness--generated genuine alternatives to the functioning of the city under financialized racial capitalism.
