Touring Theatrical Productions Dinesh Yadav,2022-09-30 Touring Theatrical Productions: An International Guide is a practical and comprehensive overview of planning, staging and closing international touring productions. This book offers a step-by-step chronological journal of preparing a company for international touring, from applying for international visas to returning home after a tour. It includes discussions of invitations, contracts, scheduling, health and safety, personnel, packing and shipping, certifications, insurance, travel, unions, hotels, ethics and cuisines. Each chapter is filled with guidelines, samples of paperwork and checklists to ensure the smooth running of any international tour. Written by the Production Manager and Technical Director of India's most travelled show The Manganiyar Seduction with Can & Abel Theatres, this book includes examples, incidents and experiences of performing in over 20 countries with over 200 shows. This how-to guide will benefit Technical Directors and Production Managers of touring productions, as well as students in Production Management, Tour Management, Art Administration and Technical Theater courses.

New York Folks Dwight Foster,2010-08-24 NEW YORK FOLKS narrates the saga of Sure-Lite Brands Corporation, a producer of matches founded in 1893 by Hiram Ryder, a blacksmith's apprentice. Sure-Lite evolves, after a public offering in 1965, into a Fortune 200 NYSE listed corporation with CARSON'S a high growth retailer in the Home Center industry developing into Sure-Lite's principal business. A major power struggle erupts between the Ryder brothers for control of the company. Their struggle attracts predators, ambitious operating executives, slippery investment bankers, and corporate knaves, along with easy and hard ladies sporting high heels and sharp elbows. The narrative is brim with board of directors meeting conflicts, and self minded men and women who occasionally find themselves in foreign bedrooms. They are New York folks. Dwight Foster is also the author of Shattered Covenants, a seven book cycle narrating the formation, rise, decline, and fall of a major management consulting firm.

Differentiated Lessons for Every Learner Dina Brulles,Karen L. Brown,Susan Winebrenner,2021-09-28 Differentiated Lessons for Every Learner supports middle school teachers in teaching all students, including those with high ability. The book contains extension lessons in each content area with learning activities that align to the national content standards, embed ELA Common Core Standards, and correlate to DOK levels. The extension lessons provide for active learning tailored to address multiple learning levels. Using this semi-structured process ensures differentiated learning experiences that align to the standards while also respecting that students have different interests, different methods of learning, and most importantly, that they are learning at different challenge levels. The time is now upon us to emphasize interdisciplinary learning experiences that provide real-world connections and engage students in relevant and meaningful learning. We have long known that while critical for gifted and talented students, these higher level thinking strategies benefit all students. Foreword by Karin Hess, Ed.D. Grades 6-8

Science and Sound in Nineteenth-Century Britain Edward J. Gillin,2023-12-22 Science and Sound in Nineteenth-Century Britain is a four-volume set of primary sources which seeks to define our historical understanding of the relationship between British scientific knowledge and sound between 1815 and 1900. In the context of rapid urbanization and industrialization, as well as a growing overseas empire, Britain was home to a rich scientific culture in which the ear was as valuable an organ as the eye for examining nature. Experiments on how sound behaved informed new understandings of how a diverse array of natural phenomena operated, notably those of heat, light, and electro-magnetism. In nineteenth-century Britain, sound was not just a phenomenon to be studied, but central to the practice of science itself and broader understandings over nature and the universe. This collection, accompanied by extensive editorial commentary, will be of great interest to students and scholars of the History of Science.
