Thad Snow Bonnie Stepenoff,2003 Thad Snow (1881-1955) was an eccentric farmer and writer who was best known for his involvement in Missouri's 1939 Sharecropper Protest--a mass highway demonstration in which approximately eleven hundred demonstrators marched to two federal highways to illustrate the plight of the cotton laborers. Snow struggled to make sense of the changing world, and his answers to questions regarding race, social justice, the environment, and international war placed him at odds with many. In Thad Snow, Bonnie Stepenoff explores the world of Snow, providing a full portrait of him. Snow settled in the Missouri Bootheel in 1910--Swampeast Missouri, as he called it--when it was still largely an undeveloped region of hardwood and cypress swamps. He cleared and drained a thousand acres and became a prominent landowner, highway booster, and promoter of economic development--though he later questioned the wisdom of developing wild land. In the early 1920s, cotton fever came to the region, and Snow started producing cotton in the rich southeast Missouri soil. Although he employed sharecroppers, he became a bitter critic of the system that exploited labor and fostered racism. In the 1930s, when a massive flood and the Great Depression heaped misery on the farmworkers, he rallied to their cause. Defying the conventions of his class, he invited the Southern Tenant Farmers' Union (STFU) to organize workers on his land. He became a friend and colleague of Owen Whitfield, an African American minister, who led the Sharecroppers' Roadside Strike of 1939. The successes of this great demonstration convinced Snow that mankind could fight injustice by peaceful means. While America mobilized for World War II, he denounced all war as evil, remaining a committed pacifist until his death in 1955. Shortly before he died, Snow published an autobiographical memoir, From Missouri, in which he affirmed his optimistic belief that people could peacefully change the world. This biography places Snow in the context of his place and time, revealing a unique individual who agonized over racial and economic oppression and environmental degradation. Snow lived, worked, and pondered the connections among these issues in a small rural corner of Missouri, but he thought in global terms. Well-crafted and highly readable, Thad Snow provides an astounding assessment of an agricultural entrepreneur transformed into a social critic and an activist.

A Missouri Railroad Pioneer Joel P. Rhodes,2017-08-15 Lawyer and journalist, entrepreneur and philanthropist, Louis Houck is often called the “Father of Southeast Missouri” because he brought the railroad to the region and opened this backwater area to industrialization and modernization. Although Houck’s name is little known today outside Missouri, Joel Rhodes shows how his story has relevance for both the state and the nation. Rhodes presents a more complete picture of Houck than has ever been available: reviewing his life from his German immigrant roots, considering his career from both social and political perspectives, and grounding the story in both state and national history. He especially tells how, from 1880 to the 1920s, this self-taught railroader constructed a network of five hundred miles of track through the wilderness of wetlands known as “Swampeast Missouri”—and how these “Houck Roads” provided a boost for population, agriculture, lumbering, and commerce that transformed Cape Girardeau and the surrounding area. Rhodes discusses how Houck fits into the era of economic individualism—a time when men with little formal training shaped modern industry—and also gives voice to Houck’s critics and shows that he was not always an easy man to work with. In telling the story of his railroading enterprise, Rhodes chronicles Houck’s battle with the Jay Gould railroad empire and offers key insight into the development of America’s railway system, from the cutthroat practices of ruthless entrepreneurs to the often-comic ineptness of start-up rail lines. More than simply a biography of a business entrepreneur, the book tells how Houck not only developed the region economically but also followed the lead of Andrew Carnegie by making art, culture, and formal education available to all social classes. Houck also served for thirty-six years as president of the Board of Regents of Southeast Missouri State Teacher’s College, and as a self-taught historian he wrote the first comprehensive accounts of Missouri’s territorial period. A Missouri Railroad Pioneer chronicles a multifaceted career that transformed a region. Solidly researched, this lively narrative also offers an entertaining read for anyone interested in Missouri history.

Bound for the Midwest Joni M. Hand,Southeast Missouri State University,2017 In Bound for the Midwest, Joni M. Hand contextualizes the religious manuscripts from the Charles Luce Harrison collection in a series of eight essays. Each of these books represents an important moment in the history of illuminated manuscripts, incunabula, or later printed texts. In addition, Hand explores Harrison's collecting habits as he pursued his passion for books, which is what brought these manuscripts to the Midwest and eventually to Kent Library at Southeast Missouri State University. Harrison's collecting took place during the Great Depression, making each of his acquisitions truly labors of love. In Bound for the Midwest, Hand brings to light the beauty and historical significance of manuscripts and printed books from this important, but little known collection.

Southeast Missouri State University's Historic Preservation Program Retrospective David Jackson,2021-10-30 Commemorative edition highlighting the first forty years of the Historic Preservation degree program at Southeast Missouri State University, Cape Girardeau, Missouri. Launched in 1981 when it was one of only four such degree programs in the United States, it has attracted students from across the country and trained more than 400 professionals in the various aspects of historic preservation who serve at historic sites, museums, archives and historical organizations and agencies at every level of government and in the private and nonprofit sectors. If 2020 is Hindsight, then 2021 is Foresight!

Weird Pig Robert Long Foreman,2020 Weird Pig is about Weird Pig, a pig who wants to do right. But doing right isn't always easy. He drinks. He eats pork chops. He rides a skateboard. He gets his fellow farm animals murdered, and fathers an illegitimate son who has a messiah complex. When Weird Pig leaves the farm he calls home, he inspires a series of children's books that help bring on the end of his little world--a farm where human and beast alike toil in the shadow of an ever-growing factory livestock complex. From farm to table and beyond, follow the misadventures of Weird Pig in this kaleidoscopic portrait of America, seen through the eyes of a crazed animal who insists on making himself at home there.

Water Mills of the Missouri Ozarks George G. Suggs,Jake K. Wells,1993-09 A nostalgic look at a symbol of earlier, simpler times Until the early twentieth century, water mills were the center of the economic and social life of

many small communities throughout the nation's calm rural backwaters, including the Missouri Ozarks. In this book, first published in 1990, George G. Suggs, Jr., presents the stories of twenty Ozark water mills, and Jake Wells illustrates these vignettes with drawings and beautiful watercolors. In introducing his historical sketches, Suggs traces the transatlantic origins and development of water mills, describing their spread throughout Western Europe to North America and noting early American contributions to water mill technology. In an epilogue he emphasizes the economic and social roles of the mills in the early life of the Missouri Ozarks.

Research Methods for Public Administrators Gary Russel, Suzanne Leland, Zachary Mohr, Elizabethann O'Sullivan, 2020-12-30 Research Methods for Public Administrators contains a thorough overview of research methods and statistical applications for advanced undergraduate and graduate students, and practitioners. The material is based on established social science methods. Concepts and applications are discussed and illustrated with examples from actual research. The book covers research design, methods of data collection, instructions on formulating research plans, measurement, sampling procedures, and statistical applications from basic statistics to more advance techniques. The basics of conducting experiments, survey research, case studies, and focus groups are discussed. Data organization, management, and analysis are also covered, as are data analysis and hypothesis testing. Descriptive and inferential statistics are discussed and illustrated with examples. The book also includes a chapter on obtaining and analyzing secondary data (data already collected for other purposes) and a chapter on reporting and presenting research results to a variety of audiences. This is a general textbook written primarily for students of public administration and practitioners in public and not-for-profit organizations. It includes materials shown to be useful in gathering and assessing information for making decisions and implementing policies. The material is discussed at a level to be accessible and with enough detail to be useful. New to the seventh edition: Additional and expanded material on qualitative research, big data, metadata, literature reviews, and causal inference New material on experiments and experimental research New examples and case studies, including those dealing with public policy Expanded material on using computers for data management Information on new NSF and NIH ethics and protection of human subjects requirements for researchers New data sets and Power Point slides for each chapter.

From French Community to Missouri Town Bonnie Stepenoff, 2006 A small French settlement thrived for half a century on the west bank of the Mississippi River before the Louisiana Purchase made it part of the United States in 1803. But for the citizens of Ste. Genevieve, becoming Americans involved more than simply acknowledging a transfer of power. Bonnie Stepenoff has written an engaging history of Missouri's oldest permanent settlement to explore what it meant to be Americanized in our country's early years. Picking up where other studies of Ste. Genevieve leave off, she traces the dramatic changes wrought by the transfer of sovereignty to show the process of social and economic transformation on a young nation's new frontier. Stepenoff tells how French and Spanish residents--later joined by German immigrants and American settlers--made necessary compromises to achieve order and community, forging a democracy that represented different approaches to such matters as education, religion, property laws, and women's rights. By examining the town's historical circumstances, its legal institutions, and especially its popular customs, she shows how Ste. Genevieve differed from other towns along the Mississippi. Stepenoff has plumbed the town's voluminous archives to share previously untold stories of Ste. Genevieve citizens that reflect how Americanization affected their lives. In these pages we meet a free woman of color who sued a prominent white family for support of her children; a slave who obtained her own freedom and then purchased her daughters' freedom; a local sheriff who joined Aaron Burr's conspiracy; and a doctor who treated cholera victims and later became a U.S. senator. More than colorful characters, these are real people shown pursuing justice and liberty under a new flag. The story of Ste. Genevieve serves as a testament to Tocqueville's observations on American democracy while also challenging some of the commonly held beliefs about that institution. From French Community to Missouri Town provides a better understanding not only of how democracy works but also of what it meant to become American when America was still young.

Avery Colt Is a Snake, a Thief, a Liar Ron A. Austin, 2019 Austin's semi-autobiographical, linked story collection follows the misadventures of Avery Colt as he struggles to survive in North St. Louis alongside his family. Learning the best way to slaughter a goat, rebuilding his family's corner market, and reckoning the weight of a revolver are a few of the challenges Avery faces. As he matures through each page, Avery takes control of his circumstances and attempts dangerous feats of alchemy. By confronting his own fears and limitations, he seeks to transform cruelty into compassion, rind into fruit, despair into hope. Charged with urgency and emotion, Austin's prose faithfully renders a community determined to overcome crisis with strength, dark humor, and plenty of heart --

Finding Julia Kaye Smith Hamblin, 2014 Beginning with a 105-year-old house at 313 Themis Street in Cape Girardeau--and its mysterious inside arch that suggested a once-outside doorway--Kaye Smith Hamblin has created a book that charts not only the history of a magnificent home but the history of a region and a family that influenced that history. A trip to the County Archives introduced Hamblin to family records of Julia E. Harris, who built the Themis home with her husband. Hamblin's quest for Julia's story stretches back to 1799 in southeast Missouri, when Julia Harris's ancestor, George Frederick Bollinger, led German settlers to the area. The search then travels through the founding of Cape Girardeau, Jackson, and nearby settlements; the 1811 mighty earthquake; Missouri's statehood; the Mormon Wars; slavery in the state; the Civil War and its division of Missouri; famous architect Jerome B. Legg; the amazing and progressive women of Bollinger; women's rights; and desegregation in the area. Through it all, Hamblin weaves the personal stories and major influences of Julia's indomitable family--Bollinger, Frizel, Daugherty, Russell, Williams, Sanford, Harris, Vandivort, and their many extended relatives.
