Love, Kirsten Rainey H. Park,Andy Nash,2010 On the morning of November 19, 2009, Kirsten Wolcott was murdered while jogging on the Micronesian island of Yap, where she served as a student missionary. Kirsten's death shocked the Yapese people and devastated her family and friends back in the United States. In this compelling true story, you'll fall in love with a winsome 20-year-old who laughed, cooked, jogged, and most of all, loved her Lord. As you read Kirsten's journal entries and share in her joys and trials, you'll experience her inner world. And you'll long for the day when every tear will finally be wiped away. --From the publisher's description.

College in the Crosshairs Brian O. Hemphill,Brandi Hephner LaBanc,2023-07-03 Gun violence – whether rampage shootings, homicides or suicides – is a potential reality all campuses have to face. This book provides leaders in higher education – and particularly those in student affairs – with data about past incidents, an analysis of trends, and background on the national debate about gun policies and how they impact colleges, state by state. It importantly raises issues about student psychological development, mental health, and the prevalence of alcohol and substance abuse on campus, to better inform discussion about allowing guns on campus and concealed carry. It concludes by sharing strategies for averting gun-related tragedies, and

offering models for responding when they occur, based on lessons learned and best practices. The book addresses concealed carry legislation and its impact on campus policies by state, examining the concerns of administrators as they discharge their duty of care to students and comply with legal and regulatory frameworks. Asking “Are our students developmentally ready to make a morally sophisticated, life-changing decision to use firearms in response to a real or perceived threat?”, it offers important perspectives and scientific data, so far absent from the debate, to shape the ongoing conversation with lawmakers and the public about what it takes to keep college communities safe. In addressing risk and prevention, contributors cover the relationship between violence and mental health, and the need to establish comprehensive strategic plans and a preventative framework that promotes help-seeking for those in need before they reach the point of crisis, as well as a campus-wide risk assessment team, stressing the importance of cultivating a community-wide approach to campus safety by empowering members to report suspicious behavior. They also offer guidance on improving effective behavior intervention and case management processes. The book concludes by outlining best practices, and providing guidance on developing an emergency plan, practicing and testing systems, and creating a robust communications strategy. Individual chapters focus on how small colleges with limited resources can develop effective plans into by partnering with local agencies; as well as on the steps that community colleges – who generally lack resident advisors and residential staff, and whose students are far more dispersed – can take to diminish risk and respond promptly and professionally to a crisis. This is an essential guide for all higher education leaders concerned about preventing violence on our campuses, and a call to action.

Ellen Harmon White Terrie Dopp Aamodt, Gary Land, Ronald L. Numbers, 2014 Ellen Harmon White was a founder and prophet of the Seventh-day Adventists. This volume traces her 70-year path from timid teenage visionary to octogenarian speaker, publisher, and structural architect of her church.

In Tune with God Lilianne Doukhan, 2010 Worship and music have been intimately connected since biblical times. Yet music in worship has become a point of contention—a great chasm separating the young and the not-so-young, the conservative and the liberal, and, quite possibly, the members of

the church you attend. Is there a solution to this ongoing battle? Are there really certain styles of music that are good and others that are bad? How are we to honor God with our diverse musical tastes and talents? Lilianne Doukhan takes on this sensitive issue with a remarkable combination of finesse and refreshing candor. Building upon the foundation of what music is and what it is not, she explores the experience and meaning of music, its history down through the centuries, the current challenges of music ministry, and the genuine role of music as a component of worship. Adventist Heritage of Health, Hope, and Healing William C. Andress, 2013-11 In mid-1800s America, in a milieu where thousands were dying prematurely from tuberculosis, dysentery, yellow fever, cholera, diphtheria, smallpox, and even malaria, God raised up a people with a salvific message, both physically and spiritually. In *Adventist Heritage of Health, Hope, and Healing*, readers will be spellbound by stories of: The fledgling Western Health Reform Institute which became the largest health care institute of its kind. The \$5,000 miracle that led to the founding of Loma Linda University Medical Center, one of the nation's premier medical facilities in southern California. The China Doctor, Grandma Whitney, and the humble academician with three doctorate degrees, who have influenced thousands through an integration of practical religion and health. The prophetic Comprehensive Health Vision that outlines a 10-step program for adding years to your life. In this book, Dr. Andress explores little known historical connections that coalesce into a persuasive case for a Christian theology of healing and wellness. Throughout the book, personal anecdotes and illustrations provide a vivid and tangible portrait of a man seeking to better understand and live out the divine plan for health of body, mind, and soul. A compelling work.--John Wesley Taylor V, Ph.D Professor of education, philosophy, and research, Southern Adventist University If 'The health should be as sacredly guarded as the character' (Child Guidance, page 342), then this volume is as valuable as any work in theology. It is the heritage of all God's children to be healthy.--Arthur Mallon, teacher, author, and evangelist

Out of Adventism Jerry A. Gladson, 2017-10-17 From its humble beginnings in the nineteenth century, Seventh-day Adventism has remarkably grown to become one of America's largest, home-grown faiths, numbering nearly nineteen million members worldwide. Yet Adventism harbors dark secrets within its history. This is the true story of how one Adventist pastor, and university and seminary professor discovered these dark secrets and learned through painful, personal experience that neither the denomination nor its doctrine could be trusted. As his odyssey takes him from pastoral assignments in rural and urban congregations and finally into teaching religion at an Adventist university, he suddenly finds himself caught up in the maelstrom of a

church's greatest theological crisis. For him, the denomination's theology and practice agonizingly unravel, forcing him to choose between loyalty to his church, his vocation, and his personal integrity. Rich in anecdotes and personal experiences, *Out of Adventism* guides readers interested in religious history, cults, and sects through the ins and outs of a religious community in crisis. Along the way, the reader not only gets an insider's view of Adventism, but also discovers a careful critique of the peculiar teachings of Seventh-day Adventism.

It's Worth the Sacrifice Valerie Lee,2014-07-28 Catching a snake in the dorm, being a mother to fifty girls, bartering in the marketplace, handing out

food to villagers during the drought, being “bit” by a cheetah, coping with homesickness, and climbing Mount Kilimanjaro were just some of the adventures and challenges Valerie faced as a student missionary at Maxwell Adventist Academy in Kenya. What Valerie didn’t expect during her year abroad was how much she fell in love with her adopted country and how difficult it was to adjust to life once she came back to the States. *It’s Worth the Sacrifice* chronicles her student missionary (SM) experience and offers advice to those interested in going overseas. Valerie hopes that what she learned will help other SMs while serving and during re-entry.

God Is a Person Paul Nixon, Clarise Nixon, 2021-12 *God Is A Person: Discovering God For Yourself* is a collection of essays about building an authentic, unbreakable relationship with Jesus. In these pages, Paul and Clarise share their journeys in search of the God who does not conform to any man-made construct, including religion; the bare God without distortion or limitation. Though not trained theologians, the authors harness their spiritual curiosity to search the Bible so that the Bible speaks for itself: the Bible reveals that God is within reach and not just some mysterious mist in the sky. Each essay is a reimagination of one aspect of everyday, practical life with God. The essays each begin with a biblically-inspired guiding principle and end with practical steps to help readers enrich their own walks with God. These pages will guide readers as they discover for themselves that God is a person.
