Sport Communication Chuka Onwumechili, 2017-08-16 Sport is a global business. Now more than ever, sport communication professionals need to understand sport's global reach in order to develop their full potential. This is the first textbook to introduce the fundamental principles and practice of sport communication from an international perspective. Combining business strategies with insights into social issues such as gender, disability and national identity, this is an accessible, practical and engaging guide to the essentials of sport communication. Aimed to enhance learning at both undergraduate and postgraduate levels, each chapter contains special features tailored to meet the needs of students and instructors. These include learning objectives, chapter summaries, activities, reflections, discussion questions, recommended resource lists and original cross-cultural case studies that demonstrate sport communication theories put into practice. Its twenty chapters explore communication in sport across all levels, from interpersonal communication and team building to strategic communications, and

in all forms of media, from print and broadcast to social media.

Sport Communication: An International Approach is an essential text for any course on sport communication, sport business or sport management.

Interrogating Popular Culture Stacy Takacs, 2014-09-04

Interrogating Popular Culture: Key Questions offers an accessible introduction to the study of popular culture, both historical and contemporary. Beginning from the assumption that cultural systems are dynamic, contradictory, and hard to pin down, Stacy Takacs explores the field through a survey of important questions, addressing: Definitions: What is popular culture? How has it developed over time? What functions does it serve? Method: What is a proper object of study? How should we analyze and interpret popular texts and practices? Influence: How does popular culture relate to social power and control? Identity and disposition: How do we relate to popular culture? How does it move and connect us? Environment: How does popular culture shape the ways we think, feel and act in the world? Illustrated with a wide variety of case studies, covering everything from medieval spectacle to reality TV, sports fandom and Youtube, Interrogating Popular Culture gives students a theoretically rich analytical toolkit for understanding the

complex relationship between popular culture, identity and society.

We are the Champions Ken McLeod, 2011 Covers the topic of sports and music from the ancient to the post-modern.

We are the Champions: The Politics of Sports and Popular Music Ken McLeod, 2016-02-11 Sports and popular music are synergistic agents in the construction of identity and community. They are often interconnected through common cross-marketing tactics and through influence on each other's performative strategies and stylistic content. Typically only studied as separate entities, popular music and sport cultures mutually 'play' off each other in exchanges of style, ideologies and forms. Posing unique challenges to notions of mind - body dualities, nationalism, class, gender, and racial codes and sexual orientation, Dr Ken McLeod illuminates the paradoxical and often conflicting relationships associated with these modes of leisure and entertainment and demonstrates that they are not culturally or ideologically distinct but are interconnected modes of contemporary social practice. Examples include how music is used to enhance sporting events, such as anthems, chants/cheers, and intermission entertainment, music that is used as an active part of the athletic event, and music that has been written about or that is associated with sports.

There are also connections in the use of music in sports movies, television and video games and important, though critically under-acknowledged, similarities regarding spectatorship, practice and performance. Despite the scope of such confluences, the extraordinary impact of the interrelationship of music and sports on popular culture has remained little recognized. McLeod ties together several influential threads of popular culture and fills a significant void in our understanding of the construction and communication of identity in the late twentieth and early twenty-first centuries.

Beyond Memory Max Mojapelo, 2008 South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. And if one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has

been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it is most striking in the musics of the black communities. *Beyond Memory: Recording the History, Moments and Memories of South African Music* is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of a man, Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a deejay at the South African Broadcasting Corporation. This book - astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries.

Sports in Africa, Past and Present Todd Cleveland, Tarminder Kaur, Gerard Akindes, 2020-10-20 These groundbreaking essays demonstrate how Africans past and present have utilized sports to forge complex identities and shape Africa's dynamic place in the world. Since the late nineteenth century, modern sports in Africa have both reflected and shaped cultural, social, political, economic, generational, and gender relations on the continent. Although colonial powers originally introduced European sports as a means of "civilizing" indigenous populations and upholding then current notions of racial hierarchies and "muscular Christianity," Africans quickly appropriated these sporting practices to fulfill their own varied interests. This collection encompasses a wide range of topics, including women footballers in Nigeria, Kenya's world-class long-distance runners, pitches and stadiums in communities large and small, fandom and pay-to-watch kiosks, the sporting diaspora, sports pedagogy, sports as resistance and as a means to forge

identity, sports heritage, the impact of politics on sports, and sporting biography.

African Homecoming Katharina Schramm, 2016-06-16
African Americans and others in the African diaspora have increasingly “come home” to Africa to visit the sites at which their ancestors were enslaved and shipped. In this nuanced analysis of homecoming, Katharina Schramm analyzes how a shared rhetoric of the (Pan-)African family is produced among African hosts and

Diasporan returnees and at the same time contested in practice. She examines the varying interpretations and appropriations of significant sites (e.g. the slave forts), events (e.g. Emancipation Day) and discourses (e.g. repatriation) in Ghana to highlight these dynamics. From this, she develops her notions of diaspora, home, homecoming, memory and identity that reflect the complexity and multiple reverberations of these cultural encounters beyond the sphere of roots tourism.

The Million Sellers Omnibus Press, 2012-11-04 Published to mark the 60th anniversary of the launch of the Official Singles Charts in 1952, *The Million Sellers* tells the story of every million-selling single in the history of the UK music industry. Interviews with artists including Engelbert Humperdinck, Steps, Bernard Sumner (New Order), Midge Ure (Ultravox), Mel C (Spice Girls), Boney M, Kevin

Rowland and many more. Each one reflects on their own million seller and what they most remember of their success at the time. The Official Charts Company are responsible for the commissioning, marketing, distribution and management of the UK's industry standard music charts and industry sales data.

Music and Identity Eric Ayisi Akrofi, Maria Smit, Stig-Magnus Thors, n, 2006-06-01 Due to significant political and social changes over the last decade in their countries and worldwide, many scholars in the Nordic nations and in Southern Africa have been researching on 'music and identity' - an area with a paucity of literature. It is our hope that this book will be beneficial to scholars

interested in the field of music and identity. This volume is the result of the Swedish South African Research Network (SSARN) project, funded from 2004-2006 by the Swedish International Development Cooperation Agency (SIDA) and the National Research Foundation (NRF) of South Africa, under the theme 'Music and Identity'. SSARN was founded by Stig-Magnus Thorsén of the University of Gothenburg, Sweden, in 2002 when he invited Nordic and Southern African scholars to participate in a research group focusing broadly on the topic 'Music and Identity'--Publisher's website.

Eight World Cups George Vecsey, 2014-05-13 On the eve of the 2014 World Cup, New York Times sports columnist George Vecsey offers a personal perspective on the beautiful game Blending witty travelogue with action on the field—and shady dealings in back rooms—George Vecsey offers an eye-opening, globe-trotting account of the last eight World Cups. He immerses himself in the great national leagues, historic clubs, and devoted fans and provides his up-close impressions of charismatic stars like Sócrates, Maradona, Baggio, and Zidane, while also chronicling the rise of the U.S. men's and women's teams. Vecsey shows how each host nation has made the World Cup its own, from the all-

night street parties in Spain in 1982 to the roar of vuvuzelas in South Africa in 2010, as the game in the stadium is backed up by the game in the street. But the joy is sometimes undermined by those who style themselves the game's protectors. With his characteristic sharp reporting and eye for detail, Vecsey brings this global event to vivid life and has written a perfect companion for the upcoming 2014 World Cup in Brazil.

African Soccerscapes Peter Alegi,2010-02-14 From Accra and Algiers to Zanzibar and Zululand, Africans have wrested control of

soccer from the hands of Europeans, and through the rise of different playing styles, the rituals of spectatorship, and the presence of magicians and healers, have turned soccer into a distinctively African activity. *African Soccerscapes* explores how Africans adopted soccer for their own reasons and on their own terms. Soccer was a rare form of “national culture” in postcolonial Africa, where stadiums and clubhouses became arenas in which Africans challenged colonial power and expressed a commitment to racial equality and self-determination. New nations staged matches as part of their independence celebrations and joined the world body, FIFA. The Confédération africaine de football democratized the global game through antiapartheid sanctions and increased the number of African teams in the World Cup finals. In this compact, highly readable book Alegi shows that the result of this success has been the departure of huge numbers of players to overseas clubs and the growing influence of private commercial interests on the African game. But the growth of women’s soccer and South Africa’s hosting of the 2010 World Cup also challenge the one-dimensional notion of Africa as a backward, “tribal” continent populated by victims of war, corruption, famine, and disease.
