The Follower John Durbin Husher,2009-08-07 The Follower is Axel Tressler, an indestructible hero. It tells the tale of how an accident at birth led to his becoming a force to be feared and admired. He is the younger of twin brothers who were born after their mother survives an airplane crash. His brother Adam is born next to the wreckage but Axel is not born until three days later. There appears to be nothing different about them; however as Axel reaches puberty, he and his mother recognize that he has unusual strength. In college, Axel majors in biology, studies to become a doctor and earns his degree. While teaching at the university he develops a computer chip that doesn't require a keyboard or monitor and works by vocal recognition. This is placed in his body and allows him to call up various levels of his internal strength. Eventually the government agency his twin brother works for is able to use his strength and technical capabilities to render him indestructible. His indestructibility is created by providing him a body coating that is

transparent; made of spider webbing and titanium nanotubes; it can withstand the impact of bullets. Axel becomes the driving force behind several major operations for the agency involving terrorists, espionage, and the drug cartel in Mexico.

Safe Zone Thomas G. Blacklock,2007-08-27 The premise of this work of fiction is that major Mexican drug traffickers can operate with impunity in Mexico enjoying the protection of the Mexican Government as they flood the United States with heroin, cocaine, methamphetamine and marijuana. The heroes of this work of fiction have likened the Mexican Government protection of drug traffickers to the protection the North Vietnamese Army and Viet Cong received from the governments of Cambodia and Laos during the Vietnamese War. As veterans of that war my heroes witnessed how these governments provided safe zones for the North Vietnamese Army and Viet Cong from the American Military and as Veteran DEA Special Agents can see how the same thing is happening in Mexico with major drug traffickers who have the financial means to buy off any government official. Using a Special Operations Team, originally assigned to Bolivia, to sneak into Mexico and do unilateral enforcement operations in Mexico my heroes not only hope to wreck havoc with the major traffickers but also hope to send a signal to those in the Mexican government who choose to protect these traffickers that they can not offer the traffickers a Safe Zone.

It is clear the justice system in our country is nothing more than a reflection of what it used to represent. The issues regarding increased border patrol, speeches to the public about guaranteed citizenship were all deception by way of United States election. Many immigrants have already learned of other ways to fight for permanent residency in the states. It's a game of deception called I want to become an American Citizen. You know, the process of doing what ever it takes. Years ago it began one city block at a time. Later the issue took over various communities. And now repopulating the region.
