**Gender, Power, and Identity in The Films of Stanley Kubrick** Karen A. Ritzenhoff, Dijana Metlić, Jeremi Szaniawski, 2022-10-21 This volume features a set of thought-provoking and long overdue approaches to situating Stanley Kubrick's films in contemporary debates around gender, race, and age—with a focus on women's representations. Offering new historical and critical perspectives on Kubrick's cinema, the book asks how his work should be viewed bearing in mind issues of gender equality, sexual harassment, and abuse. The authors tackle issues such as Kubrick's at times questionable relationships with his actresses and former wives; the dynamics of power, misogyny, and miscegenation in his films; and auteur apologism, among others. The selections delineate these complex contours of Kubrick's work by drawing on archival sources, engaging in close readings of specific films, and exploring Kubrick through unorthodox venture points. With an interdisciplinary scope and social justice-centered focus, this book offers new perspectives on a well-established area of study. It will appeal to scholars and upper-level students of film studies, media studies, gender studies, and visual culture, as well as to fans of the director interested in revisiting his work from a new perspective.

**The Blood and Sand Tales** Steven S. DeKnight, 2010-05 The companion Graphic Novel to the hit TV series from Starz Media! In one such tale, Arkadios is a once-proud Greek warrior that now finds himself enslaved by the Romans. Now he dreams of only one thing: revenge! He'll cut the head from his captor, even if he has to chop a gory-swath through an arena full of gladiators just to get there.

TV antiquity Sylvie Magerstädt, 2019-03-14 TV antiquity explores representations of ancient Greece and Rome throughout television history. The first comprehensive overview of the 'swords and sandals' genre on the small screen, it argues that these shows offer a distinct perspective on the

ancient world. The book traces the historic development of fictional representations of antiquity from the staged black-and-white shows of the 1950s and 1960s to the most recent digital spectacles. One of its key insights is that the structure of serial television is at times better suited to exploring the complex mythic and historic plots of antiquity. Featuring a range of case studies, from popular serials like *I, Claudius* (1976) and *Rome* (2005–8) to lesser known works like *The Caesars* (1968) and *The Eagle of the Ninth* (1976), the book illustrates how broader cultural, political and economic issues have over time influenced the representation of antiquity on television.

**Spartacus: Morituri** Mark Morris, 2012-08-21 Batiatus and Solonius vie with each other for the favor of one Marcus Licinius Crassus, an Equites who aims at the Praetorship. Thrilled by the bloody violence of the fights, Crassus decides to set up his own gladiatorial school. In the arena, the Batiati are ground down by injury and death, while Crassus's numbers never seem to shrink. Can the ludus survive against such odds? Betrayed by the Romans. Forced into slavery. Reborn as a Gladiator. The classic tale of the Republic's most infamous rebel comes alive in the graphic and visceral new series, *Spartacus: Blood and Sand*. Torn from his homeland and the woman he loves, Spartacus is condemned to the brutal world of the arena where blood and death are primetime entertainment. But not all battles are fought upon the sands. Treachery, corruption, and the allure of sensual pleasures will constantly test Spartacus. To survive, he must become more than a man. More than a gladiator. He must become a legend. A brand-new original Spartacus novel.

**Blood and Sand** C. V. Wyk, Christine Isabel Van Wyk, 2018-01-16 The legendary Spartacus is recast as a fierce female warrior in this action-packed tale of a 17-year-old princess and a handsome gladiator who dared take on the Roman Republic.

*Dreams in American Television Narratives* Cynthia Burkhead, 2013-05-23 *Dreams in Television Narratives* is the first comprehensive analysis of one of American television's most frequently utilized tropes, the dream. From its beginning, television has been a storytelling medium. Whether delivered to a live audience or played out on a sound stage, narratives and those who write them have always been the crux of the television program. While film can claim a long history of scholarly inquiry into the connection between film and dreams, no comprehensive research exists on the subject of television dreams. Locating its primary function as narrative, the author uses examples from American sitcoms and dramatic programs, analyzing the narrative functions of dreams using, as its frame, Carl Jung's narrative stages of the dream: exposition, development, culmination, and conclusion. While television dreams are analyzed throughout, case studies of the television programs *The Sopranos* and *Buffy the Vampire Slayer* are included to show in detail how dreams function throughout a television series. Includes a compendium of over 1000 television episodes that include dreams, a valuable tool for any television scholar or enthusiast.

**Descended from Hercules** Robert A. Rushing, 2016-10-15 Muscles, six-pack abs, skin, and sweat

fill the screen in the tawdry and tantalizing peplum films associated with epic Italian cinema of the 1950s and 1960s. Using techniques like slow motion and stopped time, these films instill the hero's vitality with timeless admiration and immerse the hero's body in a world that is lavishly eroticized but without sexual desire. These sword and sandal films represent a century-long cinematic biopolitical intervention that offers the spectator an imagined form of the male body—one free of illness, degeneracy, and the burdens of poverty—that defends goodness with brute strength and perseverance, and serves as a model of ideal citizenry. Robert A. Rushing traces these epic heroes from Maciste in *Cabiria* in the early silent era to contemporary transnational figures like Arnold Schwarzenegger in *Conan the Barbarian*, and to films such as Zach Snyder's *300*. Rushing explores how the very tactile modes of representation cement the genre's ideological grip on the viewer.

**The Smells and Senses of Antiquity in the Modern Imagination** Adeline Grand-Clément, Charlotte Ribeyrol, 2021-12-16 This volume tackles the role of smell, under-explored in relation to the other senses, in the modern rejection, reappraisal and idealisation of antiquity. Among the senses olfaction in particular has often been overlooked in classical reception studies due to its evanescent nature, which makes this sense difficult to apprehend in its past instantiations. And yet, the smells associated with a given figure or social group convey a rich imagery which in turn connotes specific values: perfumes, scents and foul odours both reflect and mould the ways in which a society thinks or acts. Smells also help to distinguish between male and female, citizens and strangers, and play an important role during rituals. *The Smells and Senses of Antiquity in the Modern Imagination* focuses on the representation of ancient smells - both enticing and repugnant - in the visual and performative arts from the late 18th century up to the 21st century. The individual contributions explore painting, sculpture, literature and film, but also theatrical performance, museum exhibitions,

advertising, television series, historical reenactment and graphic novels, which have all played a part in reshaping modern audiences' perceptions and experiences of the antique.

*Spartacus in the Television Arena* Michael G. Cornelius, 2015-03-11 Spartacus, the Thracian gladiator turned rebel leader, endures as a near-mythic hero who fought for the oppressed against a Roman oligarchy built on the backs of slave labor. The image of Spartacus as a noble if doomed avenger is familiar and his story has been retold through history as a cautionary tale about social injustice. The television series Spartacus takes a different view, with a violent depiction of the man and his times and a focus on the archetype of the gladiator--powerful, courageous and righteous. This collection of new essays studies the series as an exploration of masculinity. In the world of Spartacus, men jockey for social position, question the nature of their lives, examine their relationships with women and with each other, and explore their roles in society and the universe. The series also offers a compelling study of the composite nature of historical narrative in television and film, where key facts from original sources are interwoven with period embellishments, presenting audiences with a history and a fiction whose lines remain blurred by a distant yet all-too-familiar past.

*Film and the Classical Epic Tradition* Joanna Paul, 2013-02-28 Paul explores the relationship between films set in the ancient world and the classical epic tradition, arguing that there is a connection between the genres. Through this careful consideration of how epic manifests itself through different periods and cultures, we learn how cinema makes a claim to be a modern vehicle for a very ancient tradition.

Ancient Magic and the Supernatural in the Modern Visual and Performing Arts Filippo Carlà-Uhink, Irene Berti, 2015-04-23 To what extent did mythological figures such as Circe and Medea influence the representation of the powerful 'oriental' enchantress in modern Western art? What role

did the ancient gods and heroes play in the construction of the imaginary worlds of the modern fantasy genre? What is the role of undead creatures like zombies and vampires in mythological films? Looking across the millennia, from the distrust of ancient magic and oriental cults, which threatened the new-born Christian religion, to the revival and adaptation of ancient myths and religion in the arts centuries later, this book offers an original analysis of the reception of ancient magic and the supernatural, across a wide variety of different media – from comics to film, from painting to opera. Working in a variety of fields across the globe, the authors of these essays deconstruct certain scholarly traditions by proposing original interdisciplinary approaches and collaborations, showing to what extent the visual and performing arts of different periods interlink and shape cultural and social identities.

Spartacus: Swords and Ashes J.M. Clements, 2012-01-03 Spartacus is the hit TV show which combines blood-soaked action, exotic sexuality, villainy and heroism. This original novel from the world of Spartacus: Blood and Sand tells a brand new story of blood, sex and politics set in the uncompromising, visceral world of the arena. The gladiator Spartacus, the new Champion of Capua, fights at the graveside of a rich man who was brutally murdered by his own slaves. Seeing an opportunity, ambitious lanista Quintus Batiatus plots to seize the dead man's estate. In the arena blood and death are primetime entertainment. But not all battles are fought upon the sands...

*Science Fiction, Fantasy, and Politics* Dan Hassler-Forest, 2016-07-21 From Tolkien to Star Trek and from Game of Thrones to The Walking Dead, imaginary worlds in fantastic genres offer highly detailed political worlds beyond capitalism. This book examines the complex ways in which these popular storyworlds offer valuable conceptual tools for anti-capitalist participatory politics.

Living and Dying in the Roman Republic Thomas Wilke, 2023-02-20 This volume deals with the American production Spartacus and the British-American-Italian co-production Rome. In the examination of the present, a turn to Greek or Roman antiquity can be observed again and again. To find there the roots of Western society for politics, economics or philosophy, or to derive comparative arguments for expansionist efforts or decline, is not just part of the rhetorical commonplace. So it is not surprising that the TV series format also takes up this period. Whereas in Rome the attempt is made to work through the historical guidelines in great detail, in Spartacus, apart from the rough sketch of the plot, one can speak of a far-reaching neglect of the historical situation. From a (media) ethical perspective, specific approaches to responsibility, the transmission of values, loyalty, education, self-discipline, and religion can be identified in the series, which can be interpreted as self-statements of the present or the producers.

**War Movies and Economics** Laura J. Ahlstrom, Franklin G. Mixon, Jr., 2020-05-20 War Movies and Economics: Lessons from Hollywood's Adaptations of Military Conflict applies ongoing research in the relatively new genre of economics in popular media to Hollywood's war movies. Whether inadvertently or purposefully, these movies provide numerous examples of how economic principles often play an important role in military conflict. The authors of the chapters included in this edited collection work to illustrate economics lessons portrayed in adaptations such as Band of Brothers, Conspiracy, The Dirty Dozen, Dunkirk, Memphis Belle, Saving Private Ryan, Schindler's List, Spartacus, Stalag 17, and Valkyrie. Aspects of these stories show how key economic principles of scarcity, limited resources, and incentives play important roles in military conflict. The movies also

provide an avenue for discussion of the economics of public goods provision, the modern economic theory of bureaucracy, and various game-theoretic concepts such as strategic moves and commitment devices. Where applicable, lessons from closely related fields such as management are also provided. This book is ideal reading for students of economics looking for an approachable route to understanding basic principles of economics and game theory. It is also accessible to amateur and professional historians, and any reader interested in popular culture as it relates to television, movies, and military history.

Researching the Archaeological Past through Imagined Narratives Daniël van Helden, Robert Witcher, 2019-11-26 Archaeological interpretation is an imaginative act. Stratigraphy and artefacts do not tell us what the past was like; that is the task of the archaeologist. The diverse group of contributors to this volume address the relationship between archaeology and imagination through the medium of historical fiction and fictive techniques, both as consumers and as producers. The fictionalisation of archaeological research is often used to disseminate the results of scholarly or commercial archaeology projects for wider public outreach. Here, instead, the authors focus on the question of what benefits fiction and fictive techniques, as inspiration and method, can bring to the practice of archaeology itself. The contributors, a mix of archaeologists, novelists and other artists, advance a variety of theoretical arguments and examples to advance the case for the value of a reflexive engagement between archaeology and fiction. Themes include the similarities and differences in the motives and methods of archaeologists and novelists, translation, empathy, and the need to humanise the past and diversify archaeological narratives. The authors are sensitive to the epistemological and ethical issues surrounding the influence of fiction on researchers and the incorporation of fictive techniques in their work. Sometimes dismissed as distracting just-so stories, or

even as dangerously relativistic narratives, the use of fictive techniques has a long history in archaeological research and examples from the scholarly literature on many varied periods and regions are considered. The volume sets out to bring together examples of these disparate applications and to focus attention on the need for explicit recognition of the problems and possibilities of such approaches, and on the value of further research about them.
