Unlocking Creativity: A Producer's Guide to Making Music & Art Michael Beinhorn,2015-05-01 (Music Pro Guide Books & DVDs). Here, record producer Beinhorn reveals how to deal with interpersonal issues record producers face when they work with artists one on one or in small groups. The situations and solutions are based upon the author's personal and professional experience working with a variety of different artists, such as Herbie Hancock, the Red Hot Chili Peppers, Soul Asylum, Hole, Soundgarden, Ozzy Osbourne, Courtney Love, Marilyn Manson, Social Distortion, Korn, and Mew. Beinhorn's unique methods and perspective, applied to record producing and music making in the studio, opens the door to successful collaborative efforts. The author shows you how to find what he calls your sensory connection to the creativity process, which ultimately helps you find the intent behind your creative choices. You can read dozens of articles and books that feature a hundred different people talking about what microphones they used when they recorded Record X or how they set their stereo buss compressor, but you will never find out what prompted them to make these choices. Beinhorn's focus on collaborative effort enables record producers and artists to find solutions while working as a creative team. This perspective is especially valuable as it is transdisciplinary and can be applied to many occupations and modes of creativity outside of record production.

Unlocking Consciousness: Lessons From The Convergence Of Computing And Cognitive Psychology Charles T Ross, 2018-02-09 In order to bridge the gap between artificial and synthetic intelligence, we must first understand our own intelligence. 'What is intelligence?' might appear as a simple question, but many great minds have agreed that there is no singular answer. Unlocking Consciousness attempts to examine this central question through exploring the convergence of computing, philosophy, cognitive neuroscience and biogenetics. The book is the first of its kind to compare comprehensive definitions of both information and intelligence, an essential component to the advancement of computing into the realms of artificial intelligence. In examining explanations for intelligence, consciousness, memory and meaning from the perspective of a computer scientist, it offers routes that can be taken to augment natural and artificial intelligence, improving our own individual abilities, and even considering the potential for creating a prosthetic brain. Unlocking Consciousness demonstrates that understanding intelligence is not just for the benefit of computer scientists, it is also of great value to those working in evolutionary, molecular and systems biology, cognitive neuroscience, genetics and biotechnology. In unlocking the secrets of intelligence and laying out the methods of which information is structured and processed, we can unlock a completely new theory of consciousness. Women in recovery often find the male-centered recovery approach off-putting and unworkable, while people of faith may be told by their leaders to avoid secular recovery altogether in favor of prayer and religious exercises. What are women of faith with experience in recovery to do when they can't find any other answers? Inez Sobczak provides a winning solution in *Unlocking Me*. While sharing her personal journey, Inez embodies the realities of trauma-caused addiction, outlines her failed attempts at recovery, identifies her personal rock-bottom, and shares her tools for beating addiction once and for all. The problem most addicts face, Inez believes, is a pain that demands to be addressed. Addiction is a failing attempt to handle trauma, not a stand-alone problem that can be cured solely by willpower. Ending with a roadmap for future health and a thoughtful series of questions for personal growth and application, Inez brings to her writing the same warmth, encouragement, understanding, and humility that have made her personal wellness business such a success. FitNez, which Inez founded in 2009, handles numerous clients in the affluent D.C. area, and satisfied clients continue to stock her waiting list with recommendations. *Unlocking Me* captures the best of Inez Sobczak's life experiences and professional excellence.

He has served on the faculties of Trinity Evangelical School, Rosemead School of Psychology and Simon Greenleaf University; At present he serves as Associate Pastor of Plymouth Church in Whittier, CA, responsible for pastoral care and visitation, counseling and teaching.
