ENGLISH FOR EVERYDAY SPEAKING Sutanto Leo, It is said that school leavers in Indonesia are not able to speak English confidently. They have no courage to speak, even though they actually feel that they have something to say in their mind. They are afraid to make mistakes when speaking because they never feel happy with their English grammar and vocabulary at school. English for Everyday Speaking is directed at those who have learned English and have no courage to speak but want to practice their spoken English. This book is not only suitably used by high school students, university students, language centers, English course learners and English speaking club members as a main course book for speaking, but also for employees, workers, staff, teachers, employers or members of a family as a core handbook for language practice during their leisure time. This book covers very common daily topics which everyone is familiar with, such as Daily Activities, Personal Information, Family Life, Culture, Sport, Housemaids, Hobbies and Interests, Smoking and Drinking, Music, Health, Education, School Life, Love, Holiday, Food and Drink, Marriage, Sex, Demonstrations & Strikes, Terrorism, Crime and Prisons, Debates, etc. The questions, which are intended to arouse learners to speak, are generally simple to answer for ordinary learners. They need practical ideas or knowledge but do not need deep academic or scientific knowledge to answer them. However, if the group of learners have more advanced knowledge about the topics and are interested to delve deeper on the topics, there are also some possibilities to do so. English for Everyday Speaking is designed by an experienced English teacher. In addition, these materials have been tried out at STP Bandung, STBA, Maranatha University, the Center at Jl. Setiabudhi, Bandung and some other language centers.

Speak English Once and for All Jennifer England,2016-03-22 Are you tired of studying English grammar without being able to speak it? Do you need to speak English fluently to advance your career or business? Do you want to speak English fluently in record time? Then this book is for you! This is a compact book encompasses the method I have developed after over more than a decade of research and experimentation. Countless people struggle to learn to speak English, but do not achieve their goal. They study grammar for years, take exams and pay a lot of money for books and courses that simply perpetuate the learning experience. Why is it that the traditional model of grammar, reading, writing and then speaking doesn't work? Because that's not how you learn a language naturally. We learn by listening, speaking, reading, writing and then, if we are interested enough in the subject we study linguistics. You're probably a professional who, even though you may be able to read texts in English, are unsure when the time comes to speak. I understand that you have to be able to socialize and negotiate in international circles with confidence. This book will give you the tools you need to boost your oral communication, increase your confidence in using English, improve understanding, reach fluency, socialize on international stages and achieve a good level of communication and negotiation. How can I be so sure of your ability to learn to speak English? You speak at least one language, right? If you are able to speak one language, you can speak two or three or four ... all you need is practice, practice and more practice - but you must practice the right things! And you need to be in shape! Think of your study as bodybuilding and your tutor as your coach. Consistency is the key and practice makes perfect. It will take time, require dedication, willpower and sacrifice; you have to push your brain to the limit. You may be tempted to quit. But I assure you, when you reach your fluency goal, it will all be worth it.
