- 📖 **SPEAKING WITH PICTURES** ROMA CHATTERJI,2020-11-29 Speaking with Pictures offers a path-breaking exploration of visual narratives in folk art. It foregrounds folk art’s engagement with modernity by re-looking at its figurative modes and the ways in which they are embedded in mythic thought. The book discusses folk art as a contemporary phenomenon which is a part of a complex visual culture where the ‘essence’ of tradition is best captured in a ‘new’ form or medium. Each chapter picks up a theme that moves between the local and the global, thereby attempting to problematise the stereotypical view of folk artists as carriers of ‘timeless tradition’. The volume provides an ethnographic account of innovations through a detailed analysis of the scroll painting tradition of the Patuas of West Bengal and the Pardhan-Gond style of Madhya Pradesh, highlighting some recent attempts at inter-medium exchange in storytelling. The book will interest those in visual and popular culture in anthropology, sociology, literary criticism and folklore. It will also be of immense value to art historians, museologists, curators and NGOs working in media and communication, apart from those with a general interest in folk art.

Differentiation Made Simple will help classroom teachers overcome time constraints and other obstacles to differentiation by providing a wealth of ready-made and generic tools they can employ right away. The tools include task cards for literature, creative writing, and research; tic-tac-toe menus; graphic organizers; and guides to creating differentiated units—each one tied to specific questions and concerns teachers have about differentiating instruction. Also included are product lists and other assessment ideas, including rubrics and a scoring conversion table. Written especially for teachers in the trenches, Differentiation Made Simple will help unlock the door to creating a classroom where every child is challenged by work appropriate for his or her abilities, interests, and learning styles.

TAYLOR LAURITSEN,2021-04-19 This book explores the manner in which architectural settings and action contexts influenced the perception of decoration in the Roman world. Crucial to the relationship between ancient viewers and media was the concept of decor, a term employed by Vitruvius and other Roman authors to describe the appropriateness of particular decorative elements to the environment in which they were located. The papers in this volume examine a diverse range of decorated spaces, from press rooms to synagogues, through the lens of decor. In doing so, they shed new light on the decorative principles employed across Roman Italy and beyond.
