Albert M. Cook, Janice Miller Polgar, Pedro Encarnação

The Trial of Alex Lord Ray Blackston, 2011 Alex Lord is thirty and a rising young lawyer at the largest law firm in Orlando. But the demands of his job strain both his marriage and his relationship with his childhood friend. A nuisance lawsuit brought on the firm by an impoverished old man results in an angry confrontation that brings Alex a new mission, to salvage his marriage and to find his soul.

The Puzzle Box Apocalyptic Four, 2013-08-15 An intriguing anthology where reality is transient and the puzzle box holds the key to the meaning of life. Archeology Professor Albert Mallory understands reality. He knows the way the world works. When he steals an ancient puzzle box to pay off gambling debts, he thinks the only mysterious thing about the artifact is how to get it open. But when a stranger appears at Albert's door demanding to see the box, Albert is plunged into mysteries he never dreamt possible. Through the tales of four others who succeeded in opening the puzzle box – a musician named Warlock with a weakness for witches; photographer Autumn Bailey, with a strange link to the past; video store clerk Angela Matterly with those unworldly eyes; and a comic book illustrator called Sam, on a quest for his life – Albert learns that reality is transient and the way the world works is not found in text books.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.
