Did you know it doesn't matter how much you make if you're spending more than you have you will always be in debt. Making more money isn't the answer to accumulating wealth. It's spending the money you do have wisely. That's why budgeting is such an effective tool because you see where you're money is going. You'll be able to turn the tide around for your finances and watch the money flow to you like a magnet. It doesn't have to be a complicated journey either. It can be simply writing down your expenses and checking a box that gives you a little insight into why the purchase/payment was made. Hence the Need and Want columns. Also how the purchase/payment was made with cash or credit. At the end of the week or month (really just quick peek) see how many boxes are checked off as Want. Those are the expenses that you can start to cut back on or eliminate. This can also be done with the Need expenses. In the end the expense track will give you a quick go to book for an overview of your spending. Over your time you'll be able to cut back on the things you don't need and build a savings in the process. Planning where your money goes will feel great with this expense tracker as a guide!
