Hope and Grace Monika Renz,2016-03-21 Conventional coping strategies can be pushed to their limits when people find themselves in situations of suffering, illness, and dying. Moved beyond their everyday consciousness, individuals often have spiritual experiences of grace and encounters with the transcendent or the divine. The author shows how care providers can support patients in their suffering and how they can recognize patients' spiritual experiences. Explaining different types of experiences of transcendence such as seeing angels or feelings of otherness and presence, this book will be of valuable use to professionals working in palliative and spiritual care, such as spiritual caregivers, therapists, nurses, and physicians. The book entails a new approach to spiritual care which opens a space of hope wherein grace may happen even amid pain, suffering, illness and dying.

Science and Spirit Charles F. Emmons, Penelope Emmons,2012-08-24 Are you out of your body? At least part of you may be, if consciousness can extend beyond the brain in your skull. In *Science and Spirit*, authors Charles F. Emmons and Penelope Emmons explore some intriguing questions: What evidence is there for consciousness apart from the body, and what evidence is there for survival of consciousness after bodily death? Through ethnographic interviews with scientists, observations at conferences, and visits to research institutes, they investigate the existence and meaning of ESP, out-of-body experiences, near-death experiences, reincarnation, spirit mediumship, lucid dreaming, and ghost experiences. In this study, they share a variety of scientific frames for looking at these questions and happenings, and they disclose their own paranormal experiences. *Science and Spirit* uses a unique blend of strong academic and scientific theory and methodology and applies it to the examination of paranormal topics.

The Lyric Voice in English Theology Elizabeth S. Dodd,2023-09-21 In this book, Elizabeth S. Dodd traces the contours of a lyric theology through the lens of English lyric tradition. She addresses the dominance of narrative and drama in contemporary theological aesthetics by drawing on recent developments in lyric theory. Informed by the work of critics such as Jonathan Culler, Dodd explores the significance of lyric for theological discourse. Lyric is presented here as a short, musical, expressive and personal form that is also fragmentary, embodied, socially located and performative. The main chapters address key moments in English lyric tradition. This selective approach aims to expand the theological gaze beyond the monochromatic features of the traditional canon. It covers Anglo-Saxon hymns, medieval lullaby carols, early-modern sonnets and the prophetic poetry of Romanticism, but also Grime and hip hop, performance poetry, social media poetry and Geoffrey Hill.

Secular and Spiritual Values Dudley Plunkett,2018-10-16 Originally published in 1990, educational debate in the western world was dominated by pragmatic, utilitarian values. The prevailing assumption was that education should be geared towards fitting people into the world of work. Dudley Plunkett broke new ground in this debate by seeking to reconcile secular and spiritual values in educational policy and practice. *Secular and Spiritual Values* presents a critique of the influence of enterprise culture on education. It argues that the resurgence of interest in the spiritual today represents a return to an essential aspect of human nature, and maintains that the spiritual perspective can provide a context for the regeneration of values in education. It indicates a way forward which, while not denying pragmatism, rationalism or holistic values, calls for openness to a spiritual reality that is seen as primary. It also assesses the practical implications and priorities for action if education is to contribute to the exploration of the spiritual as well as the intellectual and emotional dimensions of human experience. This book has grown out of the author's twenty-five years' experience in educational studies, and from his particular preoccupation with values in education. It should still be of interest to those concerned with the nature and purpose of education: teachers, parents, educational policy-makers and administrators and academics in the field.

Quakers, Christ, and the Enlightenment Madeleine Pennington,2021-03-04 The Quakers were by far the most successful of the radical religious groups to emerge from the turbulence of the mid-

seventeenth century—and their survival into the present day was largely facilitated by the transformation of the movement during its first fifty years. What began as a loose network of charismatic travelling preachers was, by the start of the eighteenth century, a well-organised and international religious machine. This shift is usually explained in terms of a desire to avoid persecution, but Quakers, Christ, and the Enlightenment argues instead for the importance of theological factors as the major impetus for change. In the first sustained account of the theological changes guiding the development of seventeenth-century Quakerism, Madeleine Pennington explores the Quakers' positive intellectual engagement with those outside the movement to offer a significant reassessment of the causal factors determining the development of early Quakerism. Considering the Quakers' engagement with such luminaries as Baruch Spinoza, Henry More, John Locke, and John Norris, Pennington unveils the Quakers' concerted attempts to bolster their theological reputation through the refinement of their central belief in the 'inward Christ', or 'the Light within'. In doing so, she further challenges stereotypes of early modern radicalism as anti-intellectual and ill-educated. Rather, the theological concerns of the Quakers and their interlocutors point to a crisis of Christology weaving through the intellectual milieu of the seventeenth century, which has long been underestimated as significant fuel for the emerging Enlightenment.

The Challenge of Bergsonism Leonard Lawlor, 2003-04-01 The Challenge of Bergsonism explores how Bergsonism questions our ways of thinking, particularly the concept of reality, and ultimately demands a return to ethics. The book also includes the first English translation of Jean Hyppolite's highly influential essay, Various Aspects of Memory in Bergson.

Dancing in the Muddy Temple Eline Kieft, 2022-05-23 In this book, Eline Kieft creates an embodied spirituality that is based in improvised movement and embedded in the land. Weaving between theory and practice, this innovative work explores fundamental interconnections between self, surroundings, and the sacred.

Taoist Yoga Pi Ch'en Chao, Charles Luk, K'uan Yü Lu, 1973-08-01 A comprehensive course of Taoist yoga. Instructions by ancient enlightened patriarchs and masters are translated here for the first time. A classic work.

The Universal Church of the Kingdom of God in South Africa Ilana van Wyk, 2014-05-12 The Universal Church of the Kingdom of God (UCKG), a church of Brazilian origin, has been enormously successful in establishing branches and attracting followers in post-apartheid South Africa. Unlike other Pentecostal Charismatic Churches (PCC), the UCKG insists that relationships with God be devoid of 'emotions', that socialisation between members be kept to a minimum and that charity and fellowship are 'useless' in materialising God's blessings. Instead, the UCKG urges members to sacrifice large sums of money to God for delivering wealth, health, social harmony and happiness. While outsiders condemn these rituals as empty or manipulative, this book shows that they are locally meaningful, demand sincerity to work, have limits and are informed by local ideas about human bodies, agency and ontological balance. As an ethnography of people rather than of institutions, this book offers fresh insights into the mass PCC movement that has swept across Africa since the early 1990s.

Angels and Anchoritic Culture in Late Medieval England Joshua S. Easterling, 2021-08-19 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature, theology, and philosophy, in social, political, jurisprudential, and intellectual history, the history of art, and the history of science but also that combines these subjects productively. It offers innovative studies on topics that may include, but are not limited to, manuscript and book history; languages and literatures of the global Middle Ages; race and the post-colonial; the digital humanities, media and performance; music; medicine; the history of affect and the emotions; the literature and practices of devotion; the theory and history of gender and sexuality, ecocriticism and the environment; theories of aesthetics; medievalism. This volume examines Latin and vernacular writings that formed part of a flourishing culture of mystical experience in the later Middle Ages (ca. 1150-1400), including the ways in which

visionaries within their literary milieu negotiated the tensions between personal, charismatic inspiration and their allegiance to church authority. It situates texts written in England within their wider geographical and intellectual context through comparative analyses with contemporary European writings. A recurrent theme across all of these works is the challenge that a largely masculine and clerical culture faced in the form of the various, and potentially unruly, spiritualities that emerged powerfully from the twelfth century onward. Representatives of these major spiritual developments, including the communities that fostered them, were often collaborative in their expression. For example, holy women, including nuns, recluses, and others, were recognized by their supporters within the church for their extraordinary spiritual graces, even as these individual expressions of piety were in many cases at variance with securely orthodox religious formations. These writings become eloquent witnesses to a confrontation between inner, revelatory experience and the needs of the church to set limitations upon charismatic spiritualities that, with few exceptions, carried the seeds of religious dissent. Moreover, while some of the most remarkable texts at the centre of this volume were authored (and/or primarily read) by women, the intellectual and religious concerns in play cut across the familiar and all-too-conventional boundaries of gender and social and institutional affiliation.

Shamanism in Chinese Medicine CT Holman, 2020-07-21 This engaging, highly anticipated book compellingly describes healing techniques of Chinese shamanism while respecting the tradition. CT Holman, a medically trained and licensed clinician of over 20 years, clearly explains how Chinese shamanism can be seamlessly woven into modern lifestyle and contemporary medical practices. He explores effective methods to address physical pathologies and emotional imbalances by applying shamanic-influenced techniques including visualizations, verbal healing and shamanic drumming, among others for self-care and medical treatment. The primary resource for the material presented originates from the author's intensive decade-long study under shamanic teacher, Master Zhongxian Wu. Several color illustrations and before-and-after patient photos are included that beautifully depict the spirit-based diagnostics and treatments. Incorporating numerous clinical examples and thoroughly researched procedures, this book teaches practitioners how to combine treatments - concentrating on the spirit and soul - with modern medicine to treat the whole person and enrich their practice. This enlightening book is a must-read for Chinese medicine practitioners, other medical professionals and non-professionals interested in the subject.

Power and Intimacy in the Christian Philippines Fenella Cannell, 1999-03-18 What kind of reciprocity exists between unequal partners? How can a 'culture' which makes no attempt to defend unchanging traditions be understood as such? In the Christian Philippines, inequalities - global and local - are negotiated through idioms of persuasion, reluctance and pity. Fenella Cannell's study suggests that these are the idioms of a culture which does not need to represent itself as immutable. Her account of Philippine spirit-mediumship, Catholicism, transvestite beauty contests, and marriage in Bicol calls for a reassessment of our understanding of South-East Asian modernity. Combining a strong theoretical interest in the anthropology of religion with a broader comparative attention to recent developments in South-East Asian studies, she offers a powerful alternative to existing interpretations of the relationship between culture and tradition in the region and beyond. This book addresses not only South-East Asianists, but all those with an interest in the anthropology of religion and post-colonial cultures. *Power and Intimacy in the Christian Philippines* has won the Harry J. Benda prize for 2001.

Using the Bible in Spiritual Direction Liz Hoare, 2016-01-01 Spiritual direction is increasingly popular among Christians of all mainstream traditions, with demand for directors outstripping supply in many places. And although the Bible is central to the practice of spiritual direction, very little has been published on how best to use it in this form of ministry. Experienced spiritual director Liz Hoare explores the central role the Bible has played in Christian experience, in order to discourage poor, shallow, or rigid use of the Bible, which can lead to damage and inhibit spiritual growth. According to Hoare, the goal of spiritual direction is not a personal improvement plan but a people who are being shaped into the likeness of Christ, for the flourishing of the church as a whole. Using different

methods of praying with the Bible and drawing on historical traditions of Christian spirituality, as well as current literature and practice, this book offers a rich, stimulating, and thoroughly biblical resource for all those who give and receive spiritual direction.

A Protestant Purgatory Laurie Throness, 2016-12-05 How did the penitentiary get its name? Why did the English impose long prison sentences? Did class and economic conflict really lie at the heart of their correctional system? In a groundbreaking study that challenges the assumptions of modern criminal justice scholarship, Laurie Throness answers many questions like these by exposing the deep theological roots of the judicial institutions of eighteenth-century Britain. The book offers a scholarly account of the passage of the Penitentiary Act of 1779, combining meticulous attention to detail with a sweeping theological overview of the century prior to the Act. But it is not just an intellectual history. It tells a fascinating story of a broader religious movement, and the people and beliefs that motivated them to create a new institution. The work is original because it relies so completely on original sources. It is mystical because it mingles heavenly with earthly justice. It is authoritative because of its explanatory power. Its anecdotes and insights, poetry and song, provide intriguing glimpses into another era strangely familiar to our own. Of special interest to social and legal historians, criminologists, and theologians, this work will also appeal to a wider audience of those who are interested in Christianity's impact on Western culture and institutions.

Architecture in Black Darell Wayne Fields, 2000-03-04 Architecture in Black argues that architecture, as an aesthetic practice, and blackness, as a linguistic practice, operate within the same semiotic paradigm. The book presents the first systematic analysis of the theoretical relationship between architecture and blackness. Employing a technique whereby texts are read through the repetition and revision of their semiotic structures, Architecture in Black reconstructs the genealogy of a black racial subject represented by the simultaneous reading of a range of canonical apparatus invented by this reading is then used to critique a discrete set of architectural texts, demonstrating the presence of the 'black vernacular' in contemporary architectural theory.>

The Darkening Spirit David Tacey, 2013-06-26 The twenty-first century could well be Jung's century, just as the twentieth century was Freud's. Jung predicted the demise of secular humanism and claimed we would search for alternatives to science, atheism and reason. We would experience a new and even unfashionable appetite for the sacred. Educated people, however, would not return to unreconstructed religions, because these do not express the life of the spirit as discerned by modern consciousness. The sacred has developed a darker hue, and worshipping symbols of light and goodness no longer satisfies the longings of the soul. The new sacred cannot be contained by the formulas of the past, but nor can we live without a sense of the sacred. We stand in a difficult place: between traditional religions we have outgrown and a pervasive materialism we can no longer embrace. These changes in our culture have come sooner than Jung might have imagined. In his time Jung struck many as eccentric or unscientific. But his works speak to our time since we have experienced the full gamut of Jungian transformations: the unsettlement of Judeo-Christian culture, the rise of the feminine, the onslaught of the dark side, the critique of modernism and positivism, and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation. A new life is needed beyond the ego, but we do not yet know what it will look like. The outbreak of strong religion and terrorism are signs of the times, but these are expressions of a distorted and repressed spirit, and not, one hopes, genuine pointers to the future. What the future holds is uncertain, but Jung's prophetic vision helps to prepare us for what is to come, and this will be of great interest to analytical psychologists and psychoanalysts, as well as to theologians, futurists, sociologists, and the general reader.

Pentecostal Theology Wolfgang Vondey, 2017-07-13 Winner of the Pneuma Book Award 2018, from The Society for Pentecostal Studies. Pentecostalism is the most rapidly growing branch of Christianity since the 20th century, yet it does not lend itself well to a singular doctrine and there is, therefore, no single comprehensive account of Pentecostal theology worldwide. In this volume, Wolfgang Vondey suggests an account of Pentecostal theology that is genuine to Pentecostals

worldwide while allowing for different adaptation and explication among the various Pentecostal groups. He argues that Pentecostal theology is fundamentally concerned with the renewal of the Christian life identified by the transforming work of the Holy Spirit and directed toward the kingdom of God. The book unfolds in two main parts illustrating the full gospel story and theology. Eleven chapters identify the spiritual underpinnings and motivations for Pentecostal theology, formulate a Pentecostal theology of action, translate, apply, and exemplify Pentecostal practices and experiences, and integrate Pentecostal theology in the wider Christian tradition.
