## **Football in the Nordic Countries Mihaly Szerovay,Arto**

Nevala,Hannu Itkonen,2023-06-21 This book explores football culture, organisation and development in the five Nordic countries: Denmark, Finland, Iceland, Sweden and Norway. These countries represent an important case study in sport culture, policy and management, being shaped by unique traditions in their civil society and in social welfare and public policy. The first part of the book explores the development path of football in each country, looking at how football arrived in Scandinavia and how it has been transformed from a voluntary civic activity into a professional sport while becoming closely attached to the global football system. The second part highlights key issues – including historical, contemporary and critical aspects – across three themes: professionalisation and changing practices; equality and gender; and supporters, audiences and culture. Written by a team of authors with a blend of experience as academics and practitioners in football, the book traces the contours of the distinctive Nordic model that occupies a prominent position in the global football system. Shining fascinating new light on the relationship between football and wider society, this is invaluable reading for students

and researchers interested in football, sport management, sport policy, or the history, culture or sociology of sport and for anyone involved in the game.

Mediernas vi och dom : mediernas betydelse för den strukturella diskrimineringen : rapport Stig Arne Nohrstedt,2006

Hockey's Hidden Gods S. C. Megale,2022-12-14 Hockey's Hidden Gods is the incredible true story of the U.S. Paralympic sled hockey team that overcame personal hardships to win gold. The moving stories of the individual players, told through original interviews with the author, bring to life this uplifting and little-known piece of sports history.

Alkisbarn : fotboll, fylla och fajt Robert Laul,2018-03-19 Sportjournalisten Robert Laul levde ett dubbelliv. När något hände inom svensk eller internationell fotboll var han på plats för att rapportera. Robert träffade stjärnor som Ronaldo, Neymar och Zinedine Zidane, han följde Zlatan Ibrahimovic och Lars Lagerbäck. På nätterna drack han sig så berusad att han inte mindes vad som hände. Missbruket smygfilmades, och en våldsbejakande fotbollsfirma publicerade klippen på nätet. Roberts arbetsgivare Aftonbladet tvingades agera. Efter ett drygt års nykterhet började Robert skriva den här boken. Där beskrivs hur beroenden och

psykiska sjukdomar har vandrat genom generationer i hans släkt. När börjar ett missbruk, och när slutar det? Det handlar om ögonblicket då Robert Laul blev alkoholist, och hur han övertygade sig att dricka vidare trots att konsekvenserna blev värre och värre. Ända tills han slog i botten, och stod vid vändpunkten. Skulle han sluta leva eller börja leva?

**African Footballers in Sweden** Carl-Gustaf Scott, 2015-09-16

This book employs men's football as a lens through which to

investigate questions relating to immigration, racism, integration and national identity in present-day Sweden. Specifically, this study explores if professional football serves as a successful model of multiracialism/multiculturalism for the rest of Swedish society to emulate.

142 ton guld Mikael Forsberg, 2019-10-21 Sveriges Riksbank har sålt 10 ton guld av den svenska guldreserven till Indien. Transporten kapas på väg till flygplatsen i Uppsala där det indiska transportplanet väntar. Oskyldiga försvarsanställda tas som gisslan. Samtidigt förbereder Riksbanken en ny leverans av 10 ton guld från Dala Airport då Indien inte kan vänta. Med polischefer och riksbankshöjdare på plats samt insatsstyrkan vaktande runt flygplatsen går överlämnandet till Indien smärtfritt. Efter insatsen på väg hem tar Per och Axel, gruppens praktikant en korv i Säter. Under ätandet får Per ett samtal, någon har tagit 42 ton guld ur det lager som riksbanken hämtat guld ur. Många frågor ställs. Var de skuggade? Finns det en insider? Per och hans grupp får åter igen gå hårt åt högt uppsatta personer i militären och näringslivet för att hitta sanningen. 142 ton guld är den andra boken i serien om Per Zander skriven av Täbyförfattaren Mikael Forsberg.

*The Therapeutic Turn* Ole Jacob Madsen, 2014-06-05  
In what ways has psychology become more influential in Western society? In this book author Ole Jacob Madsen considers the notion of a 'Therapeutic Turn' in Western culture – the tendency for psychology to permeate ever new spheres within society. The Therapeutic Turn evaluates the increasing prevalence of

psychology in several areas of Western society: Western consumer culture, contemporary Christianity, self-help, sport and politics. Madsen proposes that there are problematic aspects to this development which are seldom recognised due to a widely held assumption that ‘the more psychology, the better for everyone’. A recurring concern with psychological solutions is that they often provide individual solutions to structural problems. As a result, psychologists may be inadvertently increasing the burden on the shoulders of the people they are meant to help and, at the same time, our capacity to understand individual suffering in the light of major historical and political changes in society is becoming increasingly clouded. The Therapeutic Turn presents an accessible and engaging critique of the influence of psychology within Western society. It will appeal to a broad audience of students, academics and lay readers interested in this aspect of modernity and contemporary society, and it will also be of great interest to practitioners and therapists.

The Political Football Stadium Ba¶ak Alpan,Albrecht

Sonntag,Katarzyna Herd,2023-07-01 This book focuses on the football stadium as a political space and examines how stadiums can be viewed as the objects and catalysts of political change.

Rather than acting as functional constructions designed merely to host football games, stadiums stand out in the urban landscape as landmarks that serve as gathering points for large communities. The manifestation of the political in football stadiums can be heard in the discontent voiced by supporter activism; in the use of stadiums for national and local identity politics; in attempts to instrumentalize emotions by both totalitarian and democratic regimes; among fan groups in political uprisings, and in the surveillance of fans through e-tickets and seat allocation. This edited collection brings together a variety of case studies from a wide range of different contexts. Contributors stem from political science, sociology, history, anthropology, human geography and urbanism. As such, the book redefines and broadens what we understand as the political dimension of the football stadium.

**Implementing Hoshin Kanri** Anders Melander, David

Andersson, Fredrik Elgh, Fredrik Fjellstedt, Malin Löfving, 2021-11-28

This book focuses on the implementation of Hoshin Kanri. It is a response to most books on strategic planning that tend to downplay the implementation and only describe the fully implemented planning process. The power of this book originates from a project in which a team of five professionals over a period

of three years implemented Hoshin Kanri in 14 companies; results were drawn from 130 workshops with leadership teams. The project team subsequently ran several accelerators inside large and small companies as well as public institutions. All these experiences together form the implementation focus of the book. Moreover, the organization of the book mirrors the message of its scientific thinking, which is also the basic principle of Hoshin Kanri: Chapter 1 focuses on the basic analysis—Is Hoshin Kanri something for your organization? Chapter 2 addresses the ambition—What is the vision for strategy work in your organization? Chapter 3 presents the conditions needed for effective strategic work. Chapter 4 discusses the choice of implementation strategy and your role as the change agent. Chapter 5 describes how Hoshin Kanri works when implemented. Chapter 6 addresses coaching/mentoring and the Kata philosophy. Chapter 7 presents important analytical tools. Appendix 1 describes the journey made by a medium-sized construction company. Essentially, this book describes in a concrete and structured way how you—the change agent—can use Hoshin Kanri in your organization to tackle large and complex challenges.

*Mindfulness and Acceptance in Sport* Kristoffer

Henriksen, Jakob Hansen, Carsten Hvid Larsen, 2019-08-19

Mindfulness- and acceptance-based approaches such as Acceptance and Commitment Therapy (ACT) and Mindfulness Acceptance Commitment (MAC) are gaining momentum with sport psychology practitioners who work to support elite athletes. These acceptance-based, or third wave, cognitive behavioral approaches in sport psychology highlight that thought suppression and control techniques can trigger a metacognitive scanning process, and that excessive cognitive activity and task-irrelevant focus (self-focused attention such as trying to change thoughts) disrupts performance. Using this perspective, the aim of sport psychology interventions is not to help the athletes engage in the futile task of managing and controlling internal life. Rather, it suggests that sport psychology practitioners should work to increase athletes' willingness to accept negative thoughts and emotions in pursuit of valued ends. Key aspects of such interventions include: teaching athletes to open up and accept, teaching athletes to mindfully engage in the present moment, and helping athletes formulate the values and engage in committed actions towards these values. The goal of Mindfulness and Acceptance in Sport: How to Help Athletes Perform and Thrive under Pressure then is to provide students, researchers,

practitioners, and coaches of sport psychology with practical guidance for implementing mindfulness and acceptance approaches in their work with athletes. This book brings together highly experienced practitioners and shares their working methods, exercises, and cases to inspire the sport psychology profession.

#### **Football Fandom in Europe and Latin America** Bernardo

Buarque de Hollanda, Thomas Busset, 2023-01-25 This book combines pieces of work on Europe and Latin America, the two continents where football arouses the most ardent passions among its spectators. Curiously, an undertaking to compare on a large scale the forms extreme fandom takes in these two geographical areas is still lacking. A situational analysis of the scientific literature devoted to the subject over the last two or three decades represents a step in this direction, making a scattered store of knowledge accessible. It thus answers a need to clarify regional differences in identities and in the practices of supporters.

#### **English on the run** Rose Hollis, 2020-02-25

Written with speakers of Swedish and English in mind, the author catches a glimpse of English at play with Swedish in mainstream news and international media between 2015 and 2020. What do we know about Volvo, immigrants or travel? Is Brexit part of a social

practice? Why is French included as well as Norwegian wolves and wood? How do British and Swedish party leaders, US presidents and climate activists perform, and why so many elephants? When English is taken hostage to help occupy Swedish space it can affect the political direction and impact everyday lives. With curiosity and the help of other language(s) readers should get the gist of English on the run in Swedish Social Space.

**Transnational Death** Samira Saramo, Eerika Koskinen-Koivisto, Hanna Snellman, 2019-09-24 With so much of the global population living on the move, away from their homelands, and in diasporic communities, death and mourning practices are inevitably impacted. *Transnational Death* brings together eleven cutting-edge articles from the emerging field of transnational death studies. By highlighting European, Asian, North American, and Middle Eastern perspectives, the collection provides timely and fresh analysis and reflection on people's changing experiences with death in the context of migration over time. First beginning with a thematic assessment of the field of transnational death studies, readers then have the opportunity to delve into case studies that examine experiences with death and mourning at a distance from the viewpoints of Family, Community, and Commemoration. The

chapters highlight complicated issues confronting migrants, their families, and communities, including: negotiations of burial preferences and challenges of corpse repatriation; the financial costs of providing end-of-life care, travel at times of death, and arranging culturally appropriate funerals and religious services; as well as the emotional and sociocultural weight of mourning and commemoration from afar. Overall, *Transnational Death* provides new insights on identity and belonging, community reciprocity, transnational communication, and spaces of mourning and commemoration.
